* Opening day of term.
** Closing day of term.

Fall Quarter, 1930, opens Monday, September 8.

Fall Quarter, 1930, closes Friday, November 28.

Winter Quarter, 1930-31, opens Monday, December 1.

(Christmas vacation, December 20 to January 4).

Winter Quarter, 1930-31, closes Friday, March 6.

Spring Quarter, 1931, opens Monday, March 16.

Mid-Spring Term, 1931, opens Monday, April 27.

Spring Quarter and Mid-Spring Term, 1931, close Friday, June 5.

First Summer Session, 1931, opens Monday, June 8.

First Summer Session, 1931, closes Friday, July 17.

Second Summer Session, 1931, opens Monday, July 20.

Second Summer Session, 1931, closes Friday, August 28.

HOMECOMING.

October 17-18, 1930.

Every year one Friday and Saturday are set aside in the school's calendar when former students and friends gather for two days of fun and renewal of old acquaintances. The big features are always the homecoming play on Friday evening, the Zetetic and Socratic Society reunions, 9:30 A. M. Saturday, and the football game at 2:30 P. M. Additional features such as athletic stunts, alumni breakfast at Anthony Hall, downtown parade, etc., are often provided.

FACULTY.

1930-31.

College.

Henry William Shryock, President

Preparation:

Ph. B., Illinois Wesleyan.

Experience:

Taught 11 years in public schools of Olney, Ill., 36 years member of faculty of the Southern Illinois State Normal University,—as follows: 3 years head of English Department; 16 years head of English Department, Vice-President, and Registrar; 18th year as President of the institution.

ENGLISH

Emma L. Bowyer, Head of Department

Preparation:

A. B., A. M., University of Chicago; 13⅓ semester hours beyond the A. M., University of Chicago.

Experience:

Taught 7 years in public schools of Illinois; 19th year, S. I. S. N. U.

Mae C. Trovillion

Preparation:

Experience:

Taught five years in high school; 11th year, S. I. S. N. U.

Elizabeth A. Cox

Preparation:

A. B., A. M., Kansas University.

Experience:

Taught 5 years in public schools of Kansas; 5 years in college; 11th year, S. I. S. N. U.

Frances Barbour

Preparation:

A. B., A. M., Washington University, St. Louis, Mo.; 11 semester hours beyond the A. M., Radcliffe and Wisconsin University; on leave of absence for one year to do graduate work, Kings College, University of London.

Experience:

Taught 2 years in public schools of Illinois, 2 years in public schools of California; 6th year, S. I. S. N. U.

Julia Jonah
Preparation:
A. B., A. M., Washington University, St. Louis, Mo.; on leave of absence for one year to do graduate work, Kings College, University of London.
Experience:
Taught 5 years in public schools of Illinois; 1 quarter in Missouri Normal; 5th year, S. I. S. N. U.

Mary Crawford
Preparation:
B. Ed., Southern Illinois State Normal University; A. M., University of Illinois.
Experience:
Taught 7 years Jonesboro, Ill. H. S.; 7 years Jonesboro-Anna Community H. S.; 3rd year, S. I. S. N. U.

Esther M. Power
Preparation:
A. B., Colby College; A. M., Columbia University; 2 years, Oxford University, B. A. honors.
Experience:
1 year Department Head, Montreat Normal School, Montreat, N. C.; 2 years Associate Professor and Department Head, Hanover College; 1 summer State Teachers College, Maryville, Mo.; 2nd year, S. I. S. N. U.

W. Elizabeth Burk
Preparation:
A. B., DePauw University; A. M., Chicago University; 43⅓ semester hours beyond the A. M., University of Chicago.
Experience:
Taught 3 years, Kansas State College; 1 year part time, University of Chicago; 1 year, University of Texas; 2 years, Butler College; 3 years, State Teachers College, Kirksville, Mo.; 1 year, Eureka College; 2nd year, S. I. S. N. U.

Thelma L. Kellogg
Preparation:
A. B., A. M., University of Maine; A. M., Ph. D., Radcliffe; Summer School, Oxford University.
Experience:
Taught 3 years in public schools; 5 years in the University of Maine; 2nd year, S. I. S. N. U.

Edith Smith Krappe
Preparation:
A. B., A. M., State University of Iowa; 37 semester hours beyond the A. M., all work for Ph. D. completed except thesis, State University of Iowa.

Experience:
2 years graduate teaching assistant, 1 year full time instructor, University of Iowa; 2nd year, S. I. S. N. U.

Robert Dunn Faner
Preparation:
A. B., Allegheny College; M. A., State University of Iowa; one summer Columbia University.
Experience:
1 year reader in English, University of Iowa; 1 year member of faculty, University of Oregon; 1st year, S. I. S. N. U.

Ruth O. Rose
Preparation:
A. B., Smith College; A. M., Ph. D., Radcliffe.
Experience:
1 year, Coker College.

EDUCATION

G. D. Wham, Head of Department, Dean of Faculty
Preparation:
B. Ed., Southern Illinois State Normal University.
Experience:
Taught 12 years in public schools, including 10 years as principal of high school and superintendent of schools, Olney, Ill.; 25th year, S. I. S. N. U.

Wellington A. Thalman
Preparation:

Principal and superintendent in public schools of Illinois 9 years; taught 6 years, University of Illinois; 2 summer terms at State Teachers College, Emporia, Kansas; 2 summer terms, George Peabody College for Teachers; 2nd year, S. I. S. N. U.

Annemarie E. Krause

Preparation:

B. S., University of Minnesota; M. S., University of Illinois.

Experience:

Taught 3 years in public schools; 2 years at the University of Illinois; 1st year, S. I. S. N. U.

MATHEMATICS

W. T. Felts, Head of Department

Preparation:

B. Ed., Southern Illinois State Normal University; should receive Ph. B., University of Chicago, Fall Convocation.

Experience:

Taught 9 years in public schools; 30th year, S. I. S. N. U.

Alice Kelsey Wright

Preparation:

A. B., Indiana University; A. M., University of Illinois.

Experience:
Taught 1 year in Indiana public schools, 2 years in University of Illinois; 6th year, S. I. S. N. U.

J. R. Purdy
Preparation:
B. S., M. A., Kenyon College; Ph. D., University of Illinois.
Experience:
Taught 1 year in public school; 4 years part time assistant in mathematics, University of Illinois; 2nd year, S. I. S. N. U.

CHEMISTRY

J. W. Neckers, Head of Department
Preparation:
A. B., Hope College; M. S., Ph. D., University of Illinois.
Experience:
Taught 2 years as student assistant, Hope College; 3 years as half-time graduate assistant, University of Illinois; 4th year, S. I. S. N. U.

George Mervin Browne
Preparation:
Graduate, Massachusetts State Normal, Westfield, Mass.; 2 years, special student at Harvard; 2 years, research work in chemistry with Arthur Michaels (Tufts College).
Experience:
Taught 2 years, Cook County Normal; 8 years, Oshkosh State Normal; 28th year, S. I. S. N. U.

R. A. Scott
Preparation:
B. S., M. S., University of Illinois; beyond the M. S., one year of doctoral work, University of Illinois.
Experience:
8th year, S. I. S. N. U.

T. W. Abbott
Preparation:
A. B., Indiana University; A. M., Harvard University; Ph. D., University of Illinois.
Experience:
Taught 5 years in public schools; 1 year, assistant at Harvard University; 2 years, instructor at Georgia School of Technology; 3rd year, S. I. S. N. U.

PHYSICS AND ASTRONOMY

S. E. Boomer, Head of Department

Preparation:

A. B., A. M., University of Illinois.

Experience:

Taught 10 years in public schools; 2 years in University of Illinois Academy; 20th year, S. I. S. N. U.

Charlotte Zimmerschied

Preparation:

A. B., A. M., University of Minnesota; 4 majors beyond the A. M., University of Chicago and University of Minnesota.

Experience:

Taught 2 years, University of Minnesota; 3 years in public schools; 1 year in private school; 4th year, S. I. S. N. U.

O. B. Young

Preparation:

A. B., Wabash College; A. M., Ph. D., University of Illinois.

Experience:

Taught 3 years in public high schools; 3 years part time graduate assistant, University of Illinois; 2 summer terms, Illinois State Normal University; 1 year, McKendree College; 2nd year, S. I. S. N. U.

BOTANY

William Marshall Bailey, Head of Department

Preparation:

A. B., B. S., Campbell College; M. S., University of Chicago; beyond the M. S., 84 weeks of doctoral work, University of Chicago.

Experience:

Taught 3 years in public schools; 9 years in Campbell College; 17th year, S. I. S. N. U.

Martha Scott

Preparation:

A. B., Park College; M. S., University of Chicago; beyond the M. S., 1 year of doctoral work, University of Chicago.

Experience:

Taught I year Oregon, Ill., H. S., 2 years Park College; 2nd year, S. I. S. N. U.

ZOOLOGY

Mary M. Steagall, Head of Department

Preparation:

Ed. B., Ph. B., M. S., Ph. D., University of Chicago.

Experience:

Taught 11 years in public schools; 8 years, State Normal, Ypsilanti, Mich.; 23rd year, S. I. S. N. U.

Hilda A. Stein

Preparation:

B. Ed., Southern Illinois State Normal University; M. S., University of Illinois; beyond the M. S., 1 year of doctoral work, University of Illinois.

AGRICULTURE

R. E. Muckleroy, Head of Department

Preparation:

B. S., University of Illinois; M. S., University of Wisconsin.

Experience:

Taught 7 years in Mt. Vernon Township High School; 20th year, S. I. S. N. U.

DRAWING AND DESIGN

Gladys Potter Williams, Head of Department

Preparation:

Graduate, Pratt Institute, New York; M. A., University of Cincinnati.

Experience:

Taught drawing 12 years in public schools of St. Louis; 2 years in Milwaukee, Wis., High School; 13th year, S. I. S. N. U.

Lulu D. Roach

Preparation:

Graduate of the General Course and Art Course Southern Illinois State Normal University; Ph. B., University of Chicago; one year of graduate work, University of Chicago; five months study in Art Galleries of Europe.

Experience:

Supervised art 11 years in public schools, Carbondale, Ill., 3 years, Aurora, Ill.; 1st year S. I. S. N. U.

INDUSTRIAL ARTS

Louis C. Petersen, Head of Department

Preparation:

B. S., Northwestern University; beyond the B. S., 6 weeks, Cornell University.

Experience:

Taught 1 year N. W. Military Academy; 1 year in high school, Seattle, Washington; 3 years, Oklahoma State Normal; 22nd year, S. I. S. N. U.

HOUSEHOLD ARTS

Lucy K. Woody, Head of Department

Preparation:

B. S., M. A., Teachers College, Columbia University.

Experience:

19th year, S. I. S. N. U.

Mary Louise Fry
Preparation:
A. B., University of Illinois; 16 semester hours of graduate work, Iowa State Agricultural College.
Experience:
2nd year, S. I. S. N. U.

COMMERCIAL

T. L. Bryant, Head of Department
Preparation:
B. Ed., Southern Illinois State Normal University; 12 semester hours of graduate work, State University of Iowa.
Experience:
13th year, S. I. S. N. U.

Edward V. Miles, Jr., Business Agent
Preparation:
B. Ed., Southern Illinois State Normal University.
Experience:
12th year, S. I. S. N. U.

MUSIC

David S. McIntosh, Head of Department
Preparation:
B. M. E., Northwestern University, School of Music.
Experience:
Taught 2 years in public schools of Indiana; 2 years in public schools of Illinois; 4th year, S. I. S. N. U.

Julia Chastaine
Preparation:
Graduate, Chicago Musical College; B. Ed., Southern Illinois State Normal University; 1 minor, University of Chicago.
Experience:
16th year, S. I. S. N. U.

Helen E. Matthes
Preparation:
1 year, Chicago Musical College.
Experience:
10th year, S. I. S. N. U.

Wendell Margrave
Preparation:
B. Ed., Southern Illinois State Normal University; 7½ majors of graduate work, University of Chicago.
Experience:
2nd year, S. I. S. N. U.

PHYSICAL EDUCATION FOR MEN

William McAndrew, Head of Department

Preparation:

A. B., Vincennes University; LL. B., Cumberland University; 20 weeks of special summer work in coaching courses.

Experience:

Taught 1 year, Vincennes University; 2 years Lawrenceville Twp. H. S.; 14th year, S. I. S. N. U.

Leland P. Lingle

Preparation:

B. Ed., Southern Illinois State Normal University; beyond the B. Ed., 7⅓ semester hours at University of Illinois and 12 semester hours at State University of Iowa; on leave of absence for one semester to do graduate work, University of Iowa.

Experience:

Served 4 years as Principal, Sikeston, Mo., H. S.; 4th year, S. I. S. N. U.

Vincent G. DiGiovanna

Preparation:

B. P. E., Springfield College; M. A., New York University.

Experience:

Coach of baseball, Berkshire School, 1 year; 2nd year, S. I. S. N. U.

PHYSICAL EDUCATION FOR WOMEN

Frances D-L. Etheridge, Head of Department

Preparation:

A. B., B. S., University of Illinois.

Experience:

Taught 1 year in public schools of Kentucky; 6th year, S. I. S. N. U.

Dorothy M. Muzzey

Preparation:

B. A., Iowa State Teachers College; 22 semester hours of graduate work, State University of Iowa.

Experience:

Taught 3 years, Iowa State Teachers College; 3rd year, S. I. S. N. U.

Aileen Carpenter

Preparation:

B. S., A. M., Iowa State University.

Experience:

2nd year, S. I. S. N. U.

PHYSIOLOGY AND HEALTH EDUCATION

Delia Caldwell
Preparation:
M. D., Northwestern University.
Experience:
Taught 7½ years in public schools; practiced medicine 25 years; 10th year S. I. S. N. U.

Florence E. Denny, School Nurse
Preparation:
B. Ed., Southern Illinois State Normal University; graduate, School of Nursing, Beth-El Hospital, Colorado Springs, Colorado; affiliated 3 months with Children's Hospital, Denver; registered nurse, Colorado and Illinois.
Experience:
Taught 5 years in public schools of Kansas; instructor of nurses 1 year, Beth-El Hospital; 4 years, Holden Hospital, Carbondale, Ill.; 2nd year, S. I. S. N. U.

LIBRARY

Fay Hart
Preparation:
A. B., Illinois College; B. L. S., University of Illinois School of Library Service.
Experience:
2 years, assistant in loan department, University of Illinois Library; 1 year, head of circulation department; 1 year, branch librarian, Hibbing Public Library, Hibbing, Minnesota.

Opal Stone
Preparation:
B. S. in Ed., Northwest Mo. State Teachers College; B. S. in Library Science, University of Illinois.
Experience:
Taught 5 years in high schools of Missouri; 2nd year, S. I. S. N. U.

Estella Roy
Preparation:
A. B., Oberlin College; B. S. in Library Science, University of Illinois; 1 year, circulation department, University of Illinois Library; 2nd year, S. I. S. N. U.

Katherine Fox
Preparation:
A. B., University of Illinois; B. S. in Library Science, University of Illinois.
Experience:
Taught 1 year in public school; 1st year, S. I. S. N. U.

PRACTICE DEPARTMENT.

Bruce W. Merwin, Supervisor of Student Teaching

Preparation:

A. B., B. S. of Education, A. M., Ph. D., Kansas University.

Experience:

Served 11 years as principal and superintendent of public schools; 3 years as assistant curator, University of Pennsylvania Museum; 1 year as instructor in Education, University of Kansas; 4th year, S. I. S. N. U.

Senior High School.

ENGLISH

Florence A. Wells

Preparation:

B. Ed., Southern Illinois State Normal University: 16 semester hours of graduate work, University of Illinois.

Experience:

Taught 6 years in grade schools of Illinois; 3 years. Marissa Twp. H. S.; 8 years, principal, Coulterville High School; 4th year, S. I. S. N. U.

CHEMISTRY AND AGRICULTURE

C. C. Logan

Preparation:

B. S., University of Illinois.

Experience:

6 years in soil investigations and research in Illinois; 12 years in Agricultural Extension Service in Illinois and North Carolina; 9th year, S. I. S. N. U.

HISTORY

John I. Wright

Preparation:

Ph. B., University of Chicago; 20 semester hours beyond the Ph. B., University of Chicago.

Experience:

Taught 4 years in public schools of Illinois; 6th year, S. I. S. N. U.

MATHEMATICS

Alberta Gibbons

Preparation:

A. B., University of Illinois; A. M., Columbia University; beyond the A. M., 8 semester hours, Columbia University, University of Chicago; George Peabody College for Teachers.

Experience:
Taught 3 years in public schools of Illinois including 2 years as superintendent of schools; 1 year, State Teachers College, Kearney, Nebraska; 5th year, S. I. S. N. U.

FOREIGN LANGUAGE

J. Cary Davis
Preparation:
B. Ed., Southern Illinois State Normal University; A. M., University of Chicago.
Experience:
Taught 2 years in public schools; 1st year, S. I. S. N. U.

MANUAL TRAINING

J. Henry Schroeder
Preparation:
B. Ed., Southern Illinois State Normal University; 11 semester hours of graduate work, State University of Iowa.
Experience:
Taught 3 years in public schools; 2 years, Community High School, Carbondale, Illinois; 8th year, S. I. S N. U.

COMMERCIAL

Emma Francis
Preparation:
B. Ed., Southern Illinois State Normal University.
Experience:
7th year, S. I. S. N. U.

Allyn Training School.

W. A. Furr, Superintendent
Preparation:
A. B., A. M., Indiana University.
Experience:
Superintendent of Schools, Veedersburg, Ind., 4 years; Superintendent of Schools, Ottawa, Ill., 6 years; Superintendent of Schools, Jacksonville, Ill., 8 years; lecturer in Education, Illinois College, 2 years; 18th year, S. I. S. N. U.

Dilla Hall, Principal and Critic, Junior High School
Preparation:
B. Ed., Southern Illinois State Normal University; 1 year of graduate work, University of Chicago.
Experience:
Taught 4 years in public schools; 7th year, S. I. S. N. U.

Madge Troutt, Critic, Junior High School
Preparation:
B. Ed., Southern Illinois State Normal University; 36⅔ semester hours of graduate work, University of Chicago.
Experience:
Taught 3 years in public schools; 7th year, S. I. S. N. U.

Ruby Van Trump, Critic, Junior High School
Preparation:
B. S. in Education, State Teachers College, Springfield, Mo.; A. M., George Peabody College for Teachers, Nashville, Tenn.
Experience:
2 years, College Laboratory School, Springfield, Mo.; 1 summer, State Teachers College, Springfield, Mo.; 1 summer, State Teachers College, Murfreesboro, Tenn.; 1 year, assistant Rural Critic, State Teachers College, Tempe, Arizona; 3rd year, S. I. S. N. U.

Ora Rogers, Critic, 6th Grade
Preparation:
B. Ed., Southern Illinois State Normal University; 18 semester hours of graduate work, University of Illinois.
Experience:
Taught 10 years in public schools; 3rd year, S. I. S. N. U.

Mary E. Entsminger, Critic, 5th Grade
Preparation:
Graduate, Junior College, Southern Illinois State Normal University; 48 semester hours, University of Chicago, University of Illinois, and Indiana University.
Experience:
Taught 9 years in public schools; 8th year, S. I. S. N. U.

Theresa Keidel, Critic, 4th Grade
Preparation:
A. B., A. M., University of Chicago.
Experience:
Taught 6 years in public schools; principal of an elementary school 5 years; 2nd year, S. I. S. N. U.

Lulu R. Clark, Critic, 3rd Grade
Preparation:
Graduate, Junior College, Southern Illinois State Normal University; 30 semester hours, Teachers College, Columbia University.
Experience:
Taught 17 years in public schools; 14th year, S. I. S. N. U.

May S. Hawkins, Critic, 2nd Grade

Preparation:

B. Ed., Southern Illinois State Normal University; 35 semester hours of graduate work, University of Chicago.

Experience:

Taught 9¾ years in public schools; served 20 years as county superintendent of schools; 4th year, S. I. S. N. U.

Florence R. King, Critic, 1st Grade

Preparation:

Graduate, State Normal and Training School, Oswego, N. Y.; 6 weeks, University of Minnesota; 24 weeks, University of Chicago.

Experience:

Taught 3 years in State Normal School, Stevens Point, Wis.; 20th year, S. I. S. N. U.

Bush Training School

W. G. Cisne, Superintendent

Preparation:

Ph. B., University of Wisconsin; 15 semester hours of graduate work, University of Chicago.

Experience:

Taught 11 years in public schools; served as county superintendent 8 years; 15th year, S. I. S. N. U.

Mae L. Fox, Critic

Preparation:

B. Ed., Southern Illinois State Normal University; 15 semester hours of graduate work, University of Chicago.

Experience:

Taught 11 years in public schools; 7th year, S. I. S. N. U.

Grace Wilhelm, Critic

Preparation:

B. Ed., Southern Illinois State Normal University; 5 semester hours of graduate work, University of Chicago.

Experience:

Taught 9 years in public schools; 7th year, S. I. S. N. U.

Verna Gent, Critic

Preparation:

B. Ed., Southern Illinois State Normal University.

Experience:

Taught 9 years in public schools; 6th year, S. I. S. N. U.

Mary Goddard
Preparation:
B. Ed., Southern Illinois State Normal University; 5 semester hours of graduate work, University of Chicago.
Experience:
Taught 8 years in public schools; 2nd year, S. I. S. N. U.

Mabel Eads, Critic
Preparation:
B. Ed., Southern Illinois Normal University; 5 semester hours of graduate work, University of Chicago.
Experience:
Taught 3 years in public schools; 2nd year, S. I. S. N. U.

Jewell Trulove
Preparation:
B. Ed., Southern Illinois State Normal University.
Experience:
1st year, S. I. S. N. U.

Dora Bevis, Critic
Preparation:
B. Ed., Southern Illinois State Normal University.
Experience:
Taught 3 years in public schools; 5th year, S. I. S. N. U.

Maude Mayhew, Critic
Preparation:
Ph. B., University of Chicago.
Experience:
Taught 13 years in public schools; 7th year, S. I. S. N. U.

Tina Goodwin, Critic
Preparation:
B. Ed., Southern Illinois State Normal University; 10 semester hours of graduate work, University of Chicago.
Experience:
Taught 11 years in public schools; 6th year, S. I. S. N. U.

Rural Training Schools.

W. O. Brown, Superintendent
Preparation:
A. B., Dixon College, Dixon, Ill.; 12 weeks, University of Wisconsin; 6 weeks, Columbia University; 24 weeks, University of Chicago.
Experience:
Taught 17 years in public schools of Illinois; served 12 years as county superintendent of schools; 17th year, S. I. S. N. U.

Ted R. Ragsdale, Critic
Preparation:
B. Ed., Southern Illinois State Normal University; on leave of absence for one year to do graduate work, University of Illinois.
Experience:
6th year, S. I. S. N. U.

Lydia Dietrich Ragsdale, Critic
Preparation:
B. Ed., Southern Illinois State Normal University; 2 units of graduate work, University of Illinois; on leave of absence for one year to do graduate work, University of Illinois.
Experience:
6th year, S. I. S. N. U.

Troy Stearns, Critic
Preparation:
B. Ed., Southern Illinois State Normal University; 6 semester hours of graduate work, University of Michigan.
Experience:
2nd year, S. I. S. N. U.

Ruth Husband, Critic
Preparation:
B. S., University of Illinois; 16 semester hours of graduate work, University of Illinois.
Experience:
Taught 1 year in public school; 2nd year, S. I. S. N. U.

Emerson Hall, Critic
Preparation:
B. Ed., Southern Illinois State Normal University; 6 semester hours of graduate work, State University of Iowa.
Experience:
Taught 6½ years in public schools of Illinois; 2nd year, S. I. S. N. U.

Mabel Goddard
Preparation:
B. Ed., Southern Illinois State Normal University.
Experience:
3⅓ years in public schools of Illinois; 1st year, S. I. S. N. U.

OFFICE

Hazel E. Ervin, Registrar and Secretary to President.
(The appointment of Marjorie Shank, A. B., A. M., as Registrar will become effective January 1, 1931.)
Louise Durham, B. Ed., Assistant Registrar.
Cora Sanders Norton.

STANDING COMMITTEES.

Committee on Graduation:

Marjorie Mae Shank, Geography Department, Chairman-Secretary
T. W. Abbott, Chemistry Department
Sara Baker, History Department
Hazel Ervin, Registrar
Louise Durham, Assistant Registrar

Social:

Mary Entsminger, Chairman

GENERAL INFORMATION.

You are asked to note carefully following sections from the certificating law:

SEC. 6. Limited certificates shall be as follows:

First. A limited supervisory certificate shall be valid for four years for teaching and supervising in any and all grades of the common schools. It shall be issued to persons who have completed 120 semester hours of work in a recognized higher institution of learning including 15 semester hours in education and who have taught successfully for four years in the common schools. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 60 semester hours of work in a recognized higher institution of learning and who have taught successfully for four years in the common schools. The examination shall include English, educational psychology, sociology, the principles and methods of teaching and school administration. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 90 semester hours and a second time upon certified evidence that the applicant has completed the requirements for a bachelor's degree in a recognized higher institution of learning with a minimum of 120 semester hours. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Second. A limited high school certificate shall be valid for four years for teaching and supervising in the higher six grades of the common schools. It shall be issued to graduates of a recognized higher institution of learning with a bachelor's degree whose college credits shall include the following: Fifteen semester hours in education, and electives sufficient to make up 120 semester hours. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 60 semester hours of work in a recognized higher institution of learning. The examination shall include English, educational psychology, the principles and methods of secondary education and seven high school subjects chosen from a list prescribed by the Examining Board, one subject shall be chosen from each of the following groups: (1) mathematics, (2) history, (3) science, (4) foreign language or English literature, or American literature. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 90 semester hours, and a second time upon certified evidence that the applicant has completed the requirements for a bachelor's degree in a recognized higher institution of learning with a minimum of 120 semester hours. Thereafter it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Third. A limited special certificate shall be valid for four years for teaching and supervising the special subject or subjects named in the certificate in any and all grades of common schools. It shall be issued to persons who have completed 60 semester hours of work in a recognized higher institution of learning including 12 semester hours in education and 20 semester hours in each subject named in the certificate. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized higher institution of learning. The examination shall include English, the principles and methods of secondary education and the special subject or subjects named in the certificate. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 60 semester hours of work in a recognized higher institution of learning including not less than 20 semester hours in each of the special subjects named in the certificate. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Fourth. A limited kindergarten-primary certificate shall be valid for four years for teaching and supervising in the kindergarten and in the first and second grades of the common schools. It shall be issued to graduates of a recognized kindergarten-primary training school who have completed 60 semester hours of work in such institution. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized kindergarten-primary training school. The examination shall include English and the theory and practice of kindergraten and primary work. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed the remaining 30 semester hours of work required for graduation from a recognized kindergarten-primary training school. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Fifth. A limited elementary school certificate shall be valid for four years for teaching and supervising in the lower ten grades of the common schools. It shall be issued to persons who have completed 60 semester hours of work in a recognized higher institution of learning including 10 semester hours in education, 5 of which shall be practice teaching. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized higher institution of learning including 5 semester hours in education. The examination shall include: Physiology, penmanship, grammar, reading, orthography, geography, History of the United States, Illinois history and civics, arithmetic, the State Course of Study, principles and methods of teaching, general science, algebra, English,

European history, and two of the five sciences; botany, zoology, physics, chemistry and physiography. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 60 semester hours of work in a recognized higher institution of learning. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Sixth. A provisional elementary school certificate shall be valid for four years for teaching in the lower eight grades of the common schools. It shall be issued to applicants who have completed 30 semester hours of work in a recognized higher institution of learning including 5 semester hours in education.

This certificate shall be issued to graduates of a recognized four year high school upon a successful examination in physiology, penmanship, grammar, reading, orthography, geography, History of the United States, Illinois history and civics, arithmetic, the State Course of Study, principles and methods of teaching and general science.

This certificate shall be renewable, once only, and shall not be issued after July 1, 1931. The holder of such certificate obtained on credits or by examination may exchange the same at any time prior to its expiration for a limited elementary school certificate upon filing with the Examining Board certified evidence of having met the requirements for a limited elementary school certificate.

Terms of Admission.

All applicants for admission must present evidence of good moral character and, to secure free tuition, they must agree to teach in the public schools of the State for a time not less than that covered by their attendance upon the school. This agreement must not be entered upon unless the applicant fully intends to teach. It may become void, however, if engagement to teach cannot be secured by reasonable effort. In case of a permanent change in plan, the individual is expected to pay to the registrar of the Institution the difference between the regular tuition for the entire time and the incidental fees he has paid.

All other entrance requirements and all graduation requirements are provided for in the following rules adopted by the Board of Trustees of the five Normal Schools:

1. Graduates of any recognized four-year high school or academy may be admitted to any standard two-year or other curriculum of college rank.

2. Fifteen units of entrance credit from a recognized high school shall be the minimum requirement for admission to such standard curriculums of college rank.

All credentials shall be filed in advance of registration.

Following are the requirements for college entrance:

List A—Required.

English I, II, III	3 years
Algebra I	1 year
Plane Geometry	1 year
	5 years

List B—Elective.

English IV	1 year
Advanced Algebra	½ year
Solid Geometry	½ year
Latin	2 to 4 years
German	2 to 4 years
French	2 to 4 years
Spanish	2 to 4 years
Italian	1 to 2 years
Ancient History	1 year
Mediaeval and Modern History	1 year
English History	½ to 1 year
American History	½ to 1 year
Civics	½ to 1 year
Economics and Economic History	½ to 1 year
Commercial Geography	½ to 1 year
Physiography	½ to 1 year
Physics	1 to 2 years
Chemistry	1 to 2 years
Zoology	½ to 1 year
Botany	½ to 1 year
Physiology	½ to 1 year

List C—Additional Electives.

General Science	½ to 1 year
Astronomy	½ year
Geology	½ to 1 year
Drawing, Art and Design	½ to 1 year
Drawing, Mechanical	½ to 1 year
Manual Training	1 to 2 years
Agriculture	1 to 3 years
Domestic Science	1 to 3 years
Music	1 to 2 years
Bookkeeping	1 year
Business Law	½ year
Commercial Arithmetic (only after Algebra)	½ year
Shorthand and Typewriting (together)	1 to 2 years

Of 15 year credits required for entrance, the 5 units of List A are prescribed for all courses. Of the 10 units that remain, 6 must be selected from List B. The remaining 4 units may be selected from List B or List C or both.

ADVANCED STANDING.

1. Credits for advanced standing may be obtained:
   a. By transfer from recognized higher institutions.
   b. By examination.
      (In order to pass off a subject by examination the student must apply to the President for permission, and no examination may be given to any student except at the beginning of the student's school year).
   c. By earning the credit by work done in, or under the direction of the normal school.

2. Students coming from state normal schools in other states whose standards are the same as obtain in Illinois, may receive full credit for the work accomplished in such schools.

3. Students from city teacher-training schools in Illinois shall receive credit only after the training school has been inspected by a member of the faculty of the normal school in whose supervision district the training school lies, and his recommendation confirmed by the action of the normal school presidents' council.

4. No credits shall be given for high school work in excess of the units required for graduation.

5. No credit except by examination shall be given for work done in business college or like unrecognized institutions unless such credit is recommended by the teacher in the normal school in whose class the student has done one term's work.

6. Graduates of recognized colleges and universities may be admitted to a one-year curriculum.

7. Undergraduates of recognized colleges and universities may enter the normal school and receive credit for such of their college work as will apply to the curriculum upon which they enter.

College Entrance Examinations.

College entrance examinations may be taken only at the beginning of the student's school year. Students who wish to enter the college but whose high school work is incomplete may make up by these examinations any deficiency, provided it does not exceed 10 of the 15 year credits required for entrance. Entrance examinations are not given in the laboratory subjects such as Chemistry, Physics, Biology, Manual Arts, Agriculture, Domestic Science.

Any person who wishes to take these examinations must apply in writing at least two weeks before the examinations, submitting an official list of the high school credits already earned and stating the subjects in which the candidate wishes to be examined. No examination may be taken in a subject for which the student already holds college credit.

The student's credits earned in high school and by these examinations must satisfy the entrance requirements of the college which are given on page 22 of this catalog.

The questions of these examinations will be based on the description of courses in the high school manual of the University of Illinois. A copy of this manual may be seen in the office of the local high school principal or in some cases may be obtained from the University. Additional information may be obtained by writing this school.

Graduation.

Every candidate for graduation must file application with the Registrar not later than the beginning of the Spring Term.

Each candidate should appear before the Committee on Graduation to have his record checked at least ninety days before the date of his expected graduation.

Expenses.

The State Normal School Board has established the following regulations in the matter of fees paid by students enrolled in any of the State Teachers Colleges of Illinois. The paragraphs below are taken from the minutes of the Normal School Board meeting held at Carbondale, Ill., April 29, 1926:

1. The total fees to be charged a student in any of the Normal Schools shall not exceed the maximum sum of $15.00 per term.

2. A pledge shall be exacted from all students attending any of the Normal Schools of the State of Illinois to teach in the public schools of Illinois for a period equal to the time spent in said schools.

3. While the Normal Schools are organized primarily for the training of teachers, the demands at present seem to justify admitting students who do not pledge themselves to teach, and all such students shall be required to pay tuition fee of not less than $25.00 per term, which is the same fee as that provided for high school students.

4. The following is a schedule of fees for special services:

GENERAL FEES.

	Amount.	
1. Registration fee (paid by all except ex-service men and holders of township scholarships)	$3.00	Uniform
2. Towel fee (paid by all students taking gymnasium courses)	1.00	Uniform
3. Library fee	1.00	Uniform

PENALTIES.

1. Late Registration	$1.00	Uniform
2. Change of program after third day	1.00	Uniform
3. Original transcript and carbon copy	1.00	Optional
4. Library Fines		Optional
5. Breakage, etc.		Optional

FEES FOR SPECIAL SERVICES.

1. Chemistry	Not to exceed actual cost	Optional
2. Physics		
3. Biology		
4. Home Economics		
5. Manual Training		
6. Art		
7. Use of Typewriter		
8. Lessons in Voice		
9. Lessons on Violin, Piano, Organ, etc.		
10. Extension Courses		
11. Correspondence Courses		

5. There shall be no fee for diploma.

6. Student activity assessment shall be left with the various student bodies but provision must be made for the proper handling and auditing of all such accounts under the direction of the governing bodies.

The "Students Activity Fee" has been fixed by the Student Council of this institution at $2.00 per term for 1930-31.

Anthony Hall.

With the beginning of the Fall Term, 1913, the Woman's Building, Anthony Hall, was opened. This model school home for girls will accommodate about seventy students. It was erected and furnished at a cost of $75,000, and every possible provision has been made for the comfort, safety and well being of its inmates. Board and lodging in this ideal boarding house will be furnished at $7.00 per week. We reserve the right to charge a higher rate if it becomes necessary.

A deposit fee of $5.00 must accompany each application for room, and this deposit will under no circumstances be refunded.

Other Student Homes in Carbondale.

Much of a student's success depends upon the conditions at his boarding and rooming place. He must have not only fresh air, pure water, wholesome food, even temperature and good light in his study room, but also favorable conditions for study and for sleep. The following conditions as applied to rooming places meet the approval of the faculty:

On the part of the householder—

1. Men and women not to room in the same house.

2. Premises hygienically clean and supplied with good, sanitary water.

3. Good light in study rooms and rooms heated to not less than 68 degrees.

4. Telephone accessible.

5. Parlor furnished at reasonable times.

6. Reports to the University authorities of the illness of students, and of habits of study, sleep, or recreation on the part of students if these are likely in any way to injure the health, reputation or character of the student, or to interfere with the success of his work in school, or to bring discredit upon the school.

On the part of the student—

1. Quiet and order in the house at all times.

2. Proper care of furniture and premises.

3. Repair of damages beyond ordinary wear.

4. Householder to be notified when students expect to be away from the house later than 10:30 P. M.

5. Absence from town to be reported to the householder and address left.

6. Vigorous co-operation on the part of both student and householder, in cases of contagious diseases within the house, to prevent the exposure of others and the spread of the disease.

There are three modes of living practiced by the students.

1. Board and room in the same house. The cost of board and room is from $6.00 to $9.00 per week.

2. Room with light-housekeeping. Students who practice light-housekeeping are able to reduce their living expenses as low as $4.00 a week.

3. Rooms without the privilege of light-housekeeping. Such rooms, two persons to the room, cost $1.50 to $2.50 per week per person.

Except in unusual cases, the committee believe that two occupants in a room secures the best results. Be sure to have it clearly understood how many are to occupy a room with you and how many occupants there will be in the house.

No contract for a room will be considered binding unless a deposit amounting to one week's rental shall be paid. Said deposit need not be returned unless the renter has good reasons for failing in his part, and not then except he notify said landlady three days before the term of school opens.

Many serious complications will be avoided if students will consult the Housing Committee before engaging rooms. Some houses, now open to students, *are not recommended by the committee.* The committee urges students to secure a copy of the house regulations.

Committee:

E. G. Lentz, 520 S. Normal Ave.
W. M. Bailey, 506 S. Poplar St.
George M. Browne, 902 S Normal Ave.
Lucy K. Woody, 716 S. Normal Ave.

Literary Societies.

Zetetic and Socratic.

Within the first term of the first year of the Institution, September, 1874, the Zetetic Literary Society was organized. Later in the year a sister organization was planned for, and in due time was thoroughly established and christened the Socratic Literary Society. These have a large membership and are well attended.

The more elaborate exhibition of what these societies are able to do is annually given to the public on Monday and Tuesday evenings of Commencement Week.

The varied programs of these literary societies from week to week add very materially to the work of the English department in securing additional practice in the delivery of original and other matter, and in the opportunity for becoming acquainted with parliamentary usages, thus fitting the student for more intelligent service in the communities in which he may labor.

The Faculty and Board of Trustees foster, with much care, the best interests of these valuable adjuncts to the literary work of the Institution. Their usual time of meeting is on Wednesday evening of each week in the halls provided by the School.

Attendance Upon Church.

Students are urged to identify themselves at an early date after entering the Normal School, with some church of the city. It is assumed, of course, that the student will affiliate with the church to which he belongs at home, or with which he is most in sympathy as to doctrine and modes of worship.

Christian Associations.

The Young Men's Christian Association and the Young Women's Christian Association both have well-conducted organizations, which meet weekly in rooms fitted for their use on the third floor in the new Chemical and Manual Arts Building. Their committees look after new students upon their arrival, and those who may be sick while attending school, and in many ways minister to the wants of their fellow students. Several classes in Bible study are maintained by these societies. The State college secretaries of each of these branchs of Christian work pay the Institution a visit twice a year, or oftener, for conference and direction of work. New students upon their arrival may recognize the representatives of these associations by special badges worn, indicating their willingness to render their kindly services whenever needed. These persons may be trusted implicitly in directing strangers to boarding houses and clubs.

School Health Service.

DELIA CALDWELL, M. D.
FLORENCE DENNY, R. N., B. ED.

This department was established at the beginning of the school year 1920-21 and was placed in charge of a graduate physician of wide experience in general practice.

It is the province of the department to have a general supervision of the health of the students. The physician in charge has an office in the school, keeping office hours, during which any student may have the benefit of diagnosis and advice on any medical point. Instructions will be given about the care of the health and methods of treating cases of simple illness. It is not the policy of the department to prescribe or to give specific professional assistance, except to render first aid in cases of accidental injury or sudden illness occurring during school activities. All students requiring medical services beyond this are referred to outside physicians, wherever possible, to the family physician of the student.

An important part of the work of this department is to guard against the spread of communicable disease in the school. Every effort is made to detect such diseases in their incipiency and to promptly exclude such cases from the school, in accordance with the requirements of the State Department of Health.

Another part of the health service of the school is the physical examination of every student who registers in the school, which was initiated at the beginning of the school year 1926-27, and is a required part of the school work.

The value of this department has been increased by the addition, the past year, of a registered, graduate nurse. The nurse has assisted in caring for cases of illness in the school and in helping in the carrying out of such cases of quarantine as were necessary. She has had especial care and supervision of the health of the children in our training school.

THE LIBRARY.

Wheeler Library has a working collection of 30,600 books and 2,075 pamphlets. Both books and pamphlets are classified according to the Dewey decimal system. The dictionary catalog has three entries (author, title, and subject) for each book, and many also have analytical subject headings. Books have been selected with reference to the needs of the various departments, and include standard works in literature, travel, history, science, philosophy, education, and art, as well as general reference books such as dictionaries, encyclopedias, year books, and atlases.

Periodical literature of permanent value is bound and made accessible by the use of the Readers' Guide. The library receives 125 of the best current periodicals. Bibliographical material on children's literature and children's illustrated books are available, in addition to a large collection of classified pictures for the use of all departments.

The library is open on school days from 7:30 A. M. to 5 P. M., evenings from 7 to 9 P. M., and on Saturday mornings. Special hours are announced for the Summer Terms.

EXTENSION COURSES.

A limited number of courses is offered in night classes by regular members of the college faculty. These courses are the same as those taken by students in residence, and the numbers and descriptions may be found in the catalog. The students registered in night classes pay the same registration fee as do the resident students. The classes meet one period of 120 minutes each week for a period of fifteen weeks. One term-credit is allowed for each course, the equivalent of two and one-half semester hours.

COURSES OF STUDY.

Two basic courses are provided: the Four-Year Course leading to the Degree of Bachelor of Education and the High School Certificate; and the Two-Year Course designed for those preparing for elementary teaching, and leading to a diploma and the Limited Elementary Certificate. Each of these courses is adapted through choice and assignment of subjects to the individual needs of the prospective teacher.

THE FOUR-YEAR COURSE.

Requirements for the Degree of Bachelor of Education.

College Requirements—Each candidate must meet the general college requirements with respect to registration and residence, and must also secure credit in approved courses amounting to an aggregate of forty-eight term-credits, (the equivalent of one hundred and twenty semester hours, one hundred and forty-four forty-minute periods of Physical Training not counted). A term-credit represents twelve weeks' work, five periods a week, except in the case of laboratory sciences which require the usual additional periods each week for laboratory work.

In order to receive his bachelor's degree a student must have secured grades not lower than C in subjects aggregating at least three-fourths of the work, prescribed or elective, required for the degree. The system of grading is as follows: A, excellent; B, good; C, fair; D, poor (but passing); E, failure.

A graduate of the two-year course who later continues for the degree will lose four credits (ten semester hours) as follows: Penmanship, one-half credit; Construction, one-half credit; Arithmetic, one credit; Special Methods, one credit by those who have two or more such credits; and Practice Teaching, one credit.

(A) Prescribed Subjects—Rhetoric, 3 terms; Practice Teaching, 3 terms; Health Education, 1 term; Physical Education, 144 forty-minute periods taken without credit.

(B) Group Requirements—Every candidate must offer the minimum of work specified in each of the following groups:

I. English—At least 2 terms in English and American Literature.

II. Foreign Language—College French, German, or Latin. At least 3 terms. A student taking his foreign language in his senior year must present four terms in place of three.

III. History, Political and Social Science—History, Economics, Political Science, Sociology. At least 3 terms.

IV. Mathematics, and Physical Science—Mathematics, Astronomy, Physics, Chemistry. At least 2 terms.

Note—Every candidate for the degree of B. Ed., shall offer a minimum total of 6 terms in Groups IV, and V, combined, with a minimum of 2 terms in each.

V. Biology and Earth Science—Botany, Bacteriology, Entomology, Geography, Geology, Physiology, Zoology. At least 2 terms. See note under IV.

VI. Education—At least 9 terms (including 3 terms of Practice).

Note—Not fewer than three of the six required courses in Education must be taken in the Senior College. At least one term of Practice Teaching must be done in the student's major subject.

(C) Major Subjects—Each candidate must select some one subject as his major. A major consists of courses amounting to nine terms chosen from among those designated by the Department and approved by the Faculty.

The subjects at present recognized as majors in this college are: Botany, Chemistry, English, French, Geography and Geology, German, History, Latin, Mathematics, Physics, Zoology.

To major in Latin a student must complete five years of college Latin, if he has had no high school Latin; four years of college Latin, if he has had only two years of high school Latin; three years of college Latin, if he has had three or more years of high school Latin.

To major in French or German, a student with no previous work in the language chosen must complete four years of college work. If a student comes with two or more years of high school work in the language chosen, he must complete three years of college work.

(D) Minor Subjects—Each candidate must offer in addition to his major, a minor of at least six terms in some one department designated by the major department and approved by the Faculty.

To minor in a foreign language, a student must meet the requirements of the major, less one year of college work.

(E) Elective Subjects—

1. Not more than nine terms in any one subject may be counted for graduation, except in foreign languages, and in special cases with the approval of the Examiners and the Committee on Graduation.

2. A limited amount of credit toward the B. Ed. Degree will be given for courses offered in the special departments of the school, as follows:

Department of Agriculture—Agriculture 212 (Horticulture), Agriculture 105 (Livestock Judging), Agriculture 101 (Soil Fertility), Agriculture 102 (Cereal Crops), Agriculture 103 (Forage Crops), Agriculture 100 (Teachers' Course in Agriculture), Agriculture 205 (Principles of Feeding), Agriculture 231 (Dairy Cattle), Agriculture 330 (Problems of Dairy Farming), Agriculture 350 (Farm Management).

The total credit in the Department of Agriculture may not exceed six terms.

Art Department—Art 205 (Method Public School Drawing), Art 110 (Principles of Design), Art 115 (Theory of Color), Art 225 (History of Art), Art 310 (History of Architecture), Art 105 (Freehand Drawing), Art 305 (Freehand Drawing), Art 210 (Commercial Design).

The total credit in the Art Department may not exceed six terms.

Commercial Department—Commercial 205, 206, and 207 (Accounting—First Year), Commercial 305, 306, 307 (Accounting—Second Year), Commercial Law, 210, 211, and 212 (Commercial Law), Commercial 325 (Business Administration).

The total credit in the Commercial Department may not exceed six terms.

Household Arts Department—Household Arts 105, 106, and 107 (Foods and Cookery), Household Arts 205, 206, and 207 (Foods and Cookery), Household Arts 125, 130, and 330 (Clothing), Household Arts 120, 320 (Nutrition and Dietetics), Household Arts 335 (Meal Planning and Table Service), Household Arts 360 (Advanced Dressmaking), Household Arts 375 (Senior College Sewing).

The total credit in the Household Arts Department may not exceed six terms.

Manual Arts Department—Manual Arts 222 and 223 (Machine Shop Practice), Manual Arts 101, 102, 103, 104, 105 (Mechanical Drawing).

The total credit in the Manual Arts Department may not exceed six terms.

Music Department—Music 110 (Primary Music Methods), Music 215 (Intermediate Music Methods), Music 125 (Harmony), Music 230 (Harmony), Music 235 (History of Music), Music 305 (Junior and Senior High School Methods), Music 310 (Band and Orchestra Methods), Music 312 (Musical Form and Harmonic Analysis), Music 315 and 320 (Harmony).

The total credit in the Music Department may not exceed six terms.

Physical Education Department—

For Men: Physical Education 154 (Football), Physical Education 155 (Basketball), Physical Education 156 (Track and Field), Physical Education 201 (Boxing), Physical Education 202 (Wrestling), Physical Education 203 (Gymnasium Activities 1), Physical Education 301 (Gymnasium Activities 2), Physical Education 250 (Methods and Materials for Teaching Physical Education in the Elementary Schools), Physical Education 302 (Materials and Methods for Teaching Physical Education Activities in Junior and Senior High Schools), Physical Education 303 (Kinesiology).

For Women: Physical Education 215 (Coaching), Physical Education 225 (Methods and Materials), Physical Education 245 (Playground Course).

The total credit in the Physical Education Department may not exceed six terms for men and three terms for women.

6. Health Education		

It is understood of course that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

Four courses a term constitute the regular assignment. Three terms of rhetoric are required in the freshman year. One term of Health Education is required in the sophomore year. The remaining courses each term are selected with a view to meeting the group requirements as listed above, and furthering the student toward the accomplishment of his major and minor work.

While the work of the freshman and sophomore years is offered in full-year courses, a student may after two terms of a subject (with the exception of the foreign languages), be allowed to substitute a term from some other course for the third term prescribed.

Physical Education	*Physical Education*	*Physical Education*
Ph. Ed. 301 Gym. Act. 2	Ph. Ed. 302 Ph. Ed. in Jr. and Sr. H. S.	Ph. Ed. 303 Kinesiology

It may be noted again that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

Education and Practice Teaching are required courses in the junior and senior years. Other courses must be so chosen as to complete group requirements, meet the requirement for a major of nine terms and a minor of six terms, and secure through free electives whatever credits may be lacking to make the forty-eight credits necessary for graduation. See Requirements for Degree and Description of Courses as to subjects acceptable for a major and a minor.

THE TWO-YEAR COURSE.

The two-year course is designed specifically for those who are to teach in the elementary school. A student securing twenty-four term-credits of freshman and sophomore work as outlined below will be graduated with a diploma, and may be recommended for a Limited Elementary Certificate.

A. Subjects Available in the Two-Year Course: Rhetoric 3 terms; Education 3 terms; Practice Teaching 3 terms; Geography 1 or 2 terms; History 2 terms; Literature 1 or 2 terms; Biology 1 or 2 terms; Chemistry or Physics 1 or 2 terms; Method Music 1 or 2 terms; Drawing 1 or 2 terms; Method Arithmetic 1 term; Method English (Primary or Advanced) 1 term; Method Geography and Method History 1 term; Penmanship and Manual Arts (Primary or Advanced) 1 term; Elective subjects from Agriculture, Household Arts, and Physical Education 3 terms; Health Education 1 term; Physical Education (without credit) 3 terms.

The student will take note of the opportunity afforded to get as much as two terms of a number of subjects. This is of particular importance to those who expect to continue their college work beyond the two-year course.

B. Subjects Prescribed for All: Rhetoric 3 terms; Education 3 terms; Practice Teaching 3 terms; United States History 2 terms; Arithmetic 1 term; Geography 1 term; Literature 1 term; Biology 1 term; Health Education 1 term; Chemistry or Physics 1 term; Penmanship and Manual Arts 1 term of each with a half-credit in each; Physical Education 144 forty-minute periods (without credit).

The remaining 6 credits are to be so selected as to afford the largest amount of definite preparation for the kind of teaching the graduate expects to do.

C. Provision for Differentiation:

I. Those fitting for primary work should include in their program the following subjects: Primary Education; Primary Method English; Primary Elementary Construction; Method Music; Public School Drawing; Practice Teaching in the primary grades; and such other prescribed and elective work as is necessary to make up the 24 credits required for graduation.

II. Those fitting for intermediate and upper-grade teaching should, in the main, include the following subjects: School Management or Measurements; Upper-grade Method English; Upper-grade Manual Arts; Method History and Geography (one-half credit each); Method Music; Public School Drawing; Practice Teaching in the intermediate and grammar grades; and such other prescribed and elective work as may be necessary to make up the 24 credits.

III. Those preparing for rural school teaching should include the following: Rural Education; Rural Practice Teaching; Method English; Method History and Geography; Method Music; Public School Drawing; and some work in Agriculture, or Household Arts, or both.

IV. As a means of adapting the two-year course still further to the needs of teachers, the Examiner may, with the consent of the President, make substitutions. In this way, subjects, excepting those in the prescribed group, may in special cases be set aside for additional work in subjects already taken, and for credits (not to exceed three in number) from the Departments of Agriculture, Household Arts, and Physical Education.

D. An Illustrative Program:

Freshman Year.

FALL	WINTER	SPRING
Rhetoric	Rhetoric	Rhetoric
Geography	History	History or Music
Arithmetic	Pen. & Man. Arts (*Cr. each)	Drawing or Elective
Biology	Biology or Geography	Literature
Physical Education	Physical Education	Physical Education

Sophomore Year.

FALL	WINTER	SPRING
Chemistry or Physics	Chemistry or Physics or Elective	Health Education
Psychology	Principles of Education	Measurements or Elementary Method
Music or Literature	Method Georg. & Hist. (½ cr each)	Method English
Practice	Practice	Practice

It is understood of course, that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

Note: Beginning September 8, 1930, the recitation period becomes one clock hour. Each class will meet four times per week.

The course numbering systems is as follows: 100-199 freshman courses; 200-299 sophomore courses; 300-399 junior and senior courses. As a matter of convenience, for the present, the old numbers are printed immediately following the new.

ENGLISH.

EMMA L. BOWYER.
MAE C. TROVILLION.
ELIZABETH COX.
FRANCES BARBOUR.
JULIA JONAH.
MARY CRAWFORD.
ESTHER M. POWER.
W. ELIZABETH BURK.
THELMA L. KELLOGG.
EDITH S. KRAPPE.
ROBERT DUNN FANER.
RUTH O. ROSE.

English 101, 102, 103 (9, 9a, 9b). Freshman Rhetoric. Three terms. Texts: Freshman Rhetoric and Practice Book—Jefferson, Peckham, and Wilson; Challenging Essays in Modern Thought—Bachelor and Henry. Frequent themes, weekly conferences.

English 201 (7a). History of English Literature to 1700. Text: Manly's Prose and Poetry. Prerequisite—three terms of rhetoric.

English 202 (7b). History of English Literature, 1700-1929. Text: Manly's Prose and Poetry.

English 203. History of American Literature. Text: A book of American Literature—Snyder. Prerequisite—three terms of rhetoric.

English 205a (10a) English Poetry, Technique; 205b (10b) Classics. Macbeth, Paradise Lost, Idylls of the King, Princess, Prerequisite, three terms of Rhetoric.

English 206a (11a) English Prose, Technique; 206b (11b) Classics. Text: Pancoast's English Prose and Verse; illustrative material drawn from the works of DeQuincey, Macaulay, and Carlyle. Novels studied: Silas Marner, Kenilworth, House of Seven Gables, Henry Esmond, and David Copperfield. Technique of fiction, one-half credit; classics, one-half credit. Prerequisite, three terms of Rhetoric.

English 210 (8). Public Speaking. Emphasis on organization of speeches and their presentation with confidence and interest. Text: Phillips' Effective Speaking.

English 213. Children's Literature. A study of literature such as fairy stories, fables, myths, and romance cycles and legends. The course will consist of an analysis of the literary qualities of the selections, a discussion of authors, and a study of the folk-loristic background. Text: Children's Literature—Curry and Clippinger.

English 215 (6). English Method. Theme: How the child

works out the problems of expression. This covers the first twelve years of the child's life and extends through the primary and intermediate grades. Observation lessons in reading and language in the Training School constitute an important part of the work.

English 216 (6a). Advanced English Method (Junior High School). In primary methods, of course, much of the emphasis must be placed upon the mechanics of reading. In advanced method the major emphasis passes over the content of the reading material. Attention is paid to the technique of poetry—to the poet's handling of rhythm, tone, color, and rhyme. In the stories that are used the attention of the class is drawn to the use of scene and setting, plot construction, accessories, character portraiture, use of dramatization, dialogue, humor, etc. Methods in grammar and composition are stressed. Some time is devoted to the study of public speaking.

English 300 (25). Senior College Composition. Practice on writing under criticism with emphasis on the development of an individual style.

English 305 (21). Contemporary American Literature. A survey of the chief literary tendencies among our living writers. Readings and lectures concerned chiefly with the fields of poetry and fiction. Text: Recent American Literature—Foerster.

English 310 (42). Emerson's Essays and Poems. A study of Emerson's philosophy in prose and poetry.

English 314. Seventeenth Century Literature. A study of the poetry except Milton; of the prose, with special emphasis on Sir Thomas Browne, Bunyan, and Dryden; and of the Restoration drama. Texts: A Book of Seventeenth Century Prose by Coffin and Witherspoon; Judson's Seventeenth Century Lyrics.

English 315 (31). Eighteenth Century Literature. (a) Poetry—A study of Neoclassicism and the genesis of the Romantic Movement. Text: Poets of the Eighteenth Century—Bernbaum. (b) Prose—Text: Readings in the Prose of the Eighteenth Century—R. M. Alden.

English 320 (30). British Poets, 1798 to 1830. Text: English Poetry of the Nineteenth Century—Campbell and Pyre.

English 321. British Poets, 1830-1880. Text: Same as in 320.

English 324. Elizabethan Non-dramatic Literature. Material classified according to types and authors. Special emphasis on Spenser. Text: Elizabethan Verse and Prose—Potter.

English 330 (22). Contemporary British Literature. Text: Manly and Rickert's Contemporary British Literature.

English 335 (15). The Short Story. This is principally an advanced theme course dealing with the technique of the short story, with illustrative material from the works of the best story writers. Three days will be devoted each week to the study of the story, two days to the writing of original stories.

English 340 (23). The Essay. Various types of essays will be read and discussed.

English 341 (8b). Advanced Public Speaking. The study and delivery of types of speeches. Text: Models of Speech Composition —O'Neill.

English 354 (19). Development of the Novel. A study of representative novels from Defoe through Scott.

English 355 (20). Victorian Novel. A study of representative Victorian novelists.

English 360 (26). Development of the Drama. Lecture and reading course. A syllabus in the hands of each student will direct the library work. Representative plays will be read showing the development of the drama from the Greek and Roman down to the present period.

English 363 (24). Modern Drama. This course will include a study of the technique of the Modern Drama, together with the reading of thirty modern plays.

English 365 (14). Shakespeare. The course consists of a thorough study of King Lear, Othello, Hamlet, Midsummer Night's Dream, Taming of the Shrew, As You Like It, and The Tempest, with a brief survey of other plays.

English 366 (38). Shakespeare. This course consists of an intensive study of Twelfth Night, Richard III, King Henry IV Part I, and Winter's Tale, together with readings in the textual critics. Texts: Globe Edition of Shakespeare's Complete Works; Neilson and Thorndike, The Facts about Shakespeare.

English 370 (38). Milton. A study of the poetry of Milton with emphasis on the forms, influences, and ethical values. Texts: Cambridge Edition of Milton's Complete Poems, Hanford's Milton Handbook.

English 375 (41). Wordsworth. A rather specialized course in the study of Wordworth's poems, of the man, his theories, practice, and philosophy, with emphasis on the *Prelude.*

English 380 (17). Old English. Grammar and easy reading. Text: Bright's Anglo-Saxon Reader. Some reading of Old English will be done, but principally we shall trace the development of our language, and account for the presence in it of many irregular forms. Prerequisite—one year of foreign language.

English 383. Middle English. A general introduction to Middle English literature exclusive of Chaucer. Translation and the elements of Middle English grammar.

English 384. History of the English Language. A historical survey of the beginnings of the language, foreign influences, and their effect upon the vocabulary and grammar. Texts: Emerson's Middle English Reader, and Moore's Historical Outline of English Phonology and Middle English Grammar.

English 385 (18). English Method. This course is open to those who have had two years of college literature. The methods in teaching grammar, composition, and the technique and content of poetry and of prose are all stressed.

English 386. Chaucer. Rapid reading of representative works with introductory study of Chaucerian grammar and versification. Emphasis on general social and literary background of the fourteenth century.

20

PSYCHOLOGY AND EDUCATION.

GEORGE D. WHAM.
WELLINGTON A. THALMAN.
F. G. WARREN.

Education 205 (2). Educational Psychology. A study of the facts and laws of mental life with special reference to the learning and teaching processes. The various principles that underlie effective teaching are developed and illustrated by concrete exercises and problems. Text: Colvin and Bagley's Human Behavior, or its equivalent.

Education 206 (5a). General Psychology. An introductory course for students of the four-year curriculum, consisting of a study of the fundamental facts and principles of human behavior. Text: Gates' Elementary Psychology or its equivalent.

Education 210 (3). Principles of Education. A brief study of the fundamental principles of education, and their application in the interpretation and criticism of current and proposed educational theory and practice. A detailed study of the various processes of teaching and learning involved in elementary education. Text: Thomas's The Principles and Technique of Teaching, or its equivalent. Prerequisite: Education 205 or 206.

Education 220 (10). Elementary Meaurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for elementary school pupils. Text: Monroe, DeVoss, and Kelley's Educational Tests and Measurements. Prerequisite: Education 205 or 206.

Education 230 (12). Rural Education. A course for those who expect to teach or supervise country schools. It consists of rural school organization and management, rural school methods, an outline of the state course of study, the maintenance of the rural school library, together with about two weeks of rural sociology. Texts: Eels, Mueller and Swain's Rural School Management, and Ritter and Wilmarth's Rural School Methods. Prerequisite: Education 205 or 206.

Education 235 (8). Primary Education. A course designed especially for those who expect to teach in the lower grades. A description of the child mind, phenomena of growth, and the instinctive interests of childhood, followed by a detailed consideration of materials and methods. Text: Parker and Temple's Unified Kindergarten and First-Grade Teaching. Prerequisite: Education 205 or 206.

Education 305 (5). Advanced Educational Psychology. A description of the bodily organs and mechanisms upon which behavior depends; a discussion of instinctive activities and capacities; a formulation of the general laws of learning and their application to teaching; a study of individual differences. Text: Gates' Psychology for Students of Education, or its equivalent. Prerequisite: Education 205 or 206.

Education 310 (7a). Principles of Secondary Education. A study of such topics as adolescence; the history and aims of secondary education; high school courses of study; high school equipment; and the problems of organization, management, and discipline peculiar to the

high school. Text: Koos' The American Secondary School, or its equivalent. Prerequisite: Education 305.

Education 315 (7). High School Method. A detailed study of the various processes of learning and teaching involved in high school education. Texts: Parker's Methods of Teaching in High Schools, and Parker's Exercises for Methods of Teaching in High Schools, or their equivalents. Prerequisite: Education 305.

Education 320 (10a). High School Measurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for high school pupils. Texts: Ruch and Stoddard's Tests and Measurements in High School Instruction, and Freeman's Mental Tests, or their equivalents. Prerequisite: Education 305.

Education 325 (9). School Administration. This course is designed primarily for those who look forward to positions as supervisors, principals, or superintendents. Texts: Cubberley's The Principal and His School, and The Eighth Year Book of the Department of Elementary School Principals, or their equivalents. Prerequisite: Education 305.

Education 330 (4). History of Education. The chief aim is to afford the teacher the sanity of judgment that comes only by seeing present-day education in perspective against its historical background. It traces the evolution of educational ideals and practice in response to social needs and to the contributions of philosophic and scientific thought. Texts: Graves' A Student's History of Education, or its equivalent. Additional readings in Cubberly's Book of Readings. Prerequisite: Education 305.

Education 365 (15). Psychology of High School Subjects. An analysis of the mental processes exhibited by pupils in studying the various high school subjects, with parallel consideration of effective teaching processes. Text: Judd's Psychology of Secondary Education, or its equivalent. Prerequisite: Education 305, 310 and 315.

Education 370 (6). Educational Sociology. A consideration of the origin, nature, and functions of society and social institutions. A special study of the relation between society and the individual, and of the practical social problems growing out of the complexity and the rapid development of modern society. Text: Smith's Principles of Educational Sociology, or its equivalent. Prerequisites: Education 305, 310, and 315.

FOREIGN LANGUAGES.

VERA L. PEACOCK, French.
J. M. PIERCE, German.
MADELEINE SMITH, French.
HELEN BALDWIN, Latin.
FULLER COMBS, Latin.
J. CARY DAVIS, French.

FRENCH.

Major: Three years of French, excluding courses 101, 102 and 103.

Minor: Two years of French, excluding the above courses.

French 101, 102, 103 (1, 2, 3). Elementary Course. Grammar; pronunciation; composition; conversation; reading of modern prose.

Prerequisite: 101 open to students who have had no previous work in French; 102, prerequisite: 101, or one year of high school French.

(Students beginning French in their senior year must take in addition course 151.)

French 151 (4). Second-Year Composition and Reading. Grammar; composition; oral practice; rapid reading of modern authors.

Prerequisite: French 103 or two years of high school French.

French 152 (5). Second-Year Composition and Reading (continued). Grammar; composition; oral practice. Intensive class reading from the works of Hugo, Balzac, Daudet, Loti and Anatole France.

Prerequisite: French 151 or three years of high school French.

French 153 (6). Intermediate Composition and Reading. Grammar review; conversation; themes; study of nineteenth century prose and poetry. Conducted largely in French.

French 201 202, 203 (7, 8, 9). Survey of French Literature. A study of the important currents of French literature from the beginning to the present time. Outside reading and reports. One hour each week will be devoted to French composition.

Prerequisite: French 153.

French 301. The French Novel of the Eighteenth and Nineteenth Centuries. A study of the French novel from 1700 to 1900. Lectures, collateral reading and reports.

Prerequisite: French 203.

French 302. Seventeenth and Eighteenth Century Drama. Intensive study of Corneille, Racine, Moliere, Lesage, Voltaire, Marivaux and Beaumarchais. Outside reading of minor dramatists.

Prerequisite: French 203.

French 303. French Lyric Poetry. French versification; Romantic, Parnassian and Symbolist schools; contemporary poets. Weekly reports on outside reading.

Prerequisite: French 203.

French 351. Advanced Composition. Rapid grammar review; study of idiomatic construction; weekly themes. Course conducted in French.

Prerequisite: French 203.

French 352. French Conversation and Phonetics. A thorough study of the phonetic alphabet and of the formation of French sounds. Course conducted in French.

Prerequisite: French 203.

French 353. Teachers 'Course. Methods of teaching French; careful study of texts and recent language tests; discussion of classroom problems.

Prerequisite: French 203.

NOTE—Required of those who are given the departmental recommendation to teach French.

GERMAN.

Major: Three years of German, excluding courses 101, 102, and 103.

Minor: Two years of German, excluding the above courses.

German 101, 102, 103 (1, 2, 3). Elementary Course. Grammar; pronunciation; composition; conversation; reading of simple prose. Deutsche Lieder.

Prerequisite: 101 is open to students who have had no previous work in German; 102 is open to those who have had 101 or one year of high school German.

(Students beginning German in their senior year must take in addition course 151.)

German 151 (4). Second-year texts: reading of modern authors. Composition and conversation in connection with the texts.

Prerequisite: German 103 or two years of high school German.

German 152 (5). Second-year texts (continued). Sight reading in selected stories of Baumbach, Storm, Heyse, Hauff, Riehl.

Prerequisite: German 151 or three years of high school German.

German 153 (6). Classic Drama: Schiller's Wilhelm Tell, Goethe's Hermann und Dorothea, Lessing's Emilie Galotti.

Prerequisite: German 152 or its equivalent.

German 201, 202, 203 (7, 8, 9). Survey of German Literature. This is a general account of the chief writers and their works in chronological order. Outside reading and reports. Composition, one hour a week.

Prerequisite: German 153.

Prerequisite for the following courses: German 203.

German 301. Goethe's Faust, with study of special topics and reports.

German 302. Recent dramatic works.

German 303a. Scientific reading in German.

German 303b. Educational reading in German. A choice is offered between 303a and 303b.

Throughout the entire course, attention is given to the linguistic relations between German and English in the vocabulary and grammar.

LATIN.

College students may begin Latin and receive credit for one or two years. Students having two or more years of high school credit are eligible to college classes.

For advanced students majoring in Latin practice teaching is provided.

Latin 101, 102, 103 (1, 2, 3). Beginning Latin. Smith's Elementary Latin is used, the aim being familiarity with the elements of Latin grammar.

Latin 104, 105, 106 (4, 5, 6). Caesar's Gallic War. The equivalent of four books is read, Walker's Caesar being the text. Scott's Prose Composition.

Latin 151 (13). Advanced Composition. This is useful for teachers and is a convenient review for students. Prerequisite, at least two years.

Latin 152 (14). Cicero's Essays. De Senectute and part of De Amicitia. Prerequisite as for Latin 150.

Latin 153 (15). Livy. Books I and XXI. Prerequisite as for Latin 150.

Latin 201 (16). Phormio of Terence. Prerequisite, 1 year of college Latin.

Latin 202 (17). Horace, Odes and Epodes. Prerequisite as for Latin 201.

Latin 203 (18). Letters of Pliny. Prerequisite as for Latin 201.

Latin 301 (19). Cicero's Letters. Emphasis is laid on the history of the times and the personality of Cicero. Prerequisite, 2 years of college Latin.

Latin 302 (20). Vergil's Eclogues and Georgics. The hexameter is carefully studied and Vergil's spirit and contribution to Rome are considered. Prerequisite as for Latin 301.

Latin 303 (21). Tacitus. The Agricola and Germania. Prerequisite as for Latin 301.

Latin 341 (41). Methods in Latin. A half credit. Deals with the psychology of the subject, objectives, text books, etc. For Senior College students.

In both terms of the summer quarter reading courses are offered for Senior College and for Junior College students.

GEOGRAPHY AND GEOLOGY.

FRANK H. COLYER.
MARJORIE MAE SHANK.
F. W. COX.
ANNEMARIE KRAUSE.

Geography 100. Principles of Geography. This is a prerequisite to all other geography courses. It deals with the essential facts and principles of the subject. This is a laboratory course.

Geography 200 (11a). Geography of North America. This is a regional study of the continent of North America. In this course considerable emphasis is given to the methods of presenting the subject in the grades. This continent is taught in Illinois in the sixth grade and other continents in the seventh and eighth.

Geography 205. Physiography. Students planning to take geology should take this course and all others who have not had physiography in high school. This is a laboratory course.

Geography 210. Economic Geography. Geographic conditions affecting industries, production and world trade. Text: Economic Geography by Whitbeck and Finch.

Geology 300. Physical Geology. This deals with materials composing earth, agencies and processes involved in its physical history. This course is prerequisite to geology 301 and 302. Laboratory and field work required: Text: Pirsson and Schuchert. Part I.

Geology 301. Historical Geology, Rocks and Minerals. First Part of Historical Geology. Laboratory deals with study of chief minerals and rocks. Text: Rocks and Minerals by Pirsson: First Part Historical Geology by Pirsson and Schuchert Part II.

Geology 302. Historical Geology. Continuation of Historical Geology and study of chief animals and plants characteristic of different geologic periods. Text: Historical Geology by Pirsson and Schuchert.

Goegraphy 305. Advanced Economic Geography. A study of staple commodities of the world and factors influencing their production, transportation and marketing conditions.

Geography 310. Meteorology. This treats of the conditions of the atmosphere, changes in meteorological elements. Causes of these changes, factors and laws involved in study of weather and climate.

Geography 315. Geography of Europe. A study of life conditions as influenced by climate, relief features, soils, minerals and natural resources. Political and economic conditions.

Geography 316. Geography of South America. World relations of South America. Population, economic conditions and foreign trade as influenced by location, climate, relief, size, shape, and other natural conditions and resources.

Geography 317. Geography of Africa and Australia. Life conditions as influenced by location, relief, climate, soils, and minerals. Vast mineral resources and rapid development of South Africa. Almost complete domination of European countries in Africa.

Geography 318. Geography of Asia. Life conditions and economic development as influenced by location, climate, relief, size, shape, and other natural conditions.

Geography 319. Geographic Influences in American History. A careful study of the natural environment which has furnished the setting for American History together with an inquiry into the relation between a number of events, movements and developments and their natural environment.

Geography 325. Conservation of Natural Resources. This gives a survey of our natural resources, waste in production and use. What may be done by prevent future waste. Text: Conservation of Our Natural Resources by Van Hise and Havemeyer.

Geography 330. Problems of Political Geography. A study of the political units of the world, which set forth the location and resources of independent political units, dominions, colonies, and mandates and the effect of geographic factors upon the commercial, social and other relations that exist between the various political units. Text: The New World. Bowman.

HISTORY.

EDGAR ALLAN HOLT.
GEORGE W. SMITH.
E. G. LENTZ.
SARA BAKER.
RICHARD L. BEYER.
CHARLES J. PARDEE.
RUSSELL M. NOLAN.

Hist. 105. Modern Europe, 1500-1815. This is a survey course in European History which is designed to give the student an appreciation of the broad outlines of the history of western civilization. Required of all history majors.

Hist. 106 (17). Modern Europe, 1815-1929. This course naturally follows Hist. 105 and is designed to carry forward in their proper sequence and casual relationships those tendencies which exist in the Europe of today. Required of all history majors.

Hist. 110 (14). American History, 1763-1860. This is a survey course in the fundamental aspects of American History from the conquest of New France in 1763 to the southern war for independence in 1861. Required of all students.

Hist. 111. American History, 1865-1929. A fundamental course dealing with the main features of American History from Appomatox to the present time. Required of all history majors.

Hist. 210. Methods of Teaching History. One-half credit. Designed to aid history instructors by providing actual contacts with historical material and by suggesting means for the presentation of history to grade and high school students.

Hist. 305 (15 and 16). Ancient Civilizations. A survey course in the development of Greek and Roman social, economic, and political life.

Hist 310 (23). The Middle Ages. Although feudalism as the outstanding political development of the Middle Ages is stressed, the social phase of European History in this period are not neglected.

Hist. 315 (35). The Renaissance and Reformation. Pre-requisite, 305. This is a treatment of the Renaissance of culture and humanism and of the tremendous social and political influence growing out of the Reformation.

Hist. 320 (24). The French Revolution. Pre-requisite, 105. This course occupies a middle ground between the old and the new order—the final extinction of the remnants of the feudal system. Beginning with the Old Regime the study is carried through the revolutionary cycle concluding with the fall of the Napoleonic Empire.

Hist. 322. English History to 1688. A survey course in English History covering the period from pre-historic Britain to the fall of Stuart absolutism in 1688. Social and economic factors as a basis for political developments are stressed.

Hist. 323. English History, 1688-1929. A survey course in English History from the Bill of Rights in 1689 to the second success of the Labor Party in 1929.

Hist. 325. American Colonial History. This is an advanced course dealing with the transplanting of European institutions to North America but emphasizing those developments which were most important in determining the establishment and development of the English colonies. A close study is made of the British colonial system and of the growth of the movement for independence. Prerequisite, 105.

Hist. 330. Middle Period of American History, 1815-1860. A study of those conflicting sectional and nationalistic forces which characterized this period. Those economic and sectional forces leading to the Civil War are properly stressed. Prerequisite, 110.

Hist. 335 (27). Recent American History, 1865-1929. This is intended to be an intensive study of reconstruction, of all those financial and political problems growing out of the Civil War, and of the factors which have brought the United States into the position of a world power. Prerequisites, 110 and 111.

Hist. 340 (42). History of American Diplomacy. This is an historical treatment of the political relationship between the Government of the United States and the governments of those nations with which we have come into contact from 1774 to 1929. Prerequisites, 110 and 111.

Hist. 345 (25). Contemporary European History. In this course a study is made of the most important social, economic, and political developments in European History from 1870 to the present time. Prerequisites, 105 and 106.

Hist. 342. History of the West. An intensive study of the influence of the frontier on the main trends in American History. Prerequisites, Hist. 110 and Hist. 111.

Hist. 344. European History, 1815-1870. This is an advanced course dealing with the main features of European civilization from the conservative reaction which followed the Napoleonic Wars to the intense period of nationalism marked by the unification of Germany in 1870.

POLITICAL SCIENCE AND ECONOMICS.

WILLIS G. SWARTZ.

(NOTE—Courses in Economics will not count toward a political Science minor.)

Pol. Sci. 210 (44). Principles of Government. An introductory survey of the leading types of governmental organization, their development and operation, with particular reference to the American political system.

Pol. Sci. 360. European Governments. This course is a comparative study of the principal governments of Europe, emphasizing those constitutional developments which took place after the World War. Prerequisites, History 106.

Pol. Sci. 365. American National Government. A survey of the structure, functions and principles of the government of the United States. The development of the federal constitution, the president and his powers; national administration; Congressional organization, powers and procedure; the federal judicial system. Prerequisites, History 110, 111.

Pol. Sci. 366. State and Local Government. A study of the leading problems of government and administration in the American state, with particular attention to the central executive, legislature and judiciary, the county and township system, and problems such as taxation, public health, education, commerce and industry. Prerequisite, Pol. Sci. 365.

Pol. Sci. 367. Municipal Government and Administration. A study of the evolution of city government in the United States; the increasing municipal functions and their development; the various forms of city government, municipal elections, charters, etc. Prerequisites, Pol. Sci. 365, 366.

Pol. Sci. 370 (46). International Relations. A study of modern international organization and the problems of world politics. Special attention is given to such topics as modern imperialism, present day colonial systems, the League of Nations and post-war problems. Prerequisites, History 105 and 106.

Pol. Sci. 375. International Law. A study of the legal rules and practices governing the nations of the world in their relations in peace and war. The case method will be used in studying important legal decisions. Prerequisite, Pol. Sci. 210.

Pol. Sci. 380. Political Parties. The development of political parties in the United States; the fundamental principles underlying party organization and functions; the party platform, nominating systems, campaign methods, civil service reform, etc. Prerequisite, Pol. Sci. 365 or History 110 and 111.

Pol. Sci. 385. Political Thought. A survey of European and American political theories together with their influence and application in modern governments, particularly that of the United States. Prerequisites, Pol. Sci. 365, or History 105, 106, 110, 111.

Economics 305. Principles of Economics. An examination of the fundamental principles of economics, surveying in a general fashion

such basic features of the present economic system as production and consumption of wealth, business organization, value, monopoly, rent, and wages. Not open to students who have had Commerce 315 or 316.

Economics 310. Labor Problems. This course surveys the development of the labor movement in England and the United States and of the relations of organization of employers and employees to each other and to the general public. Open to students who have had Economics 305.

Economics 320. Industrial Combinations and Associations. A study of the various forms of industrial units with especial attention given to the kinds of business for which each is appropriate, the rise of the trust problem and to governmental regulations of business organization. Open to students who have had Economics 305.

MATHEMATICS.

W. T. FELTS.
ALICE KELSEY.
J. R. PURDY.

The Department of Mathematics offers thirteen full two-and-one-half hour courses, and three half-credit or one-and-one-quarter hour courses with a view of meeting three types of needs of students:

(1) The mathematical requirement for graduation from Junior College; (2) A minimum of fifteen hours of college mathematics to meet the requirements for a special certificate to teach mathematics in two and three year high schools; (3) To meet the requirements of a minimum of twenty-two and a half hours college mathematics for a major in the subject in completing the work for a degree.

Freshman.

Math. 101 (91). College Algebra I. A course in the algebraic topics usually found in the third semester of high school algebra treated more extensively than in high school. It is a non-credit course for those offering a year and a half of Algebra from a credited high school and who wish to review the course before taking College Algebra II. This course does not transfer to the University unless followed by Math. 102, College Algebra II. Prerequisite: One year of high school Algebra.

Math. 102 (19a). College Algebra II. A course such as is usually offered as College Algebra in colleges. Prerequisite: College Algebra I or one and a half years of high school algebra.

Math. 105 (25). Trigonometry. The work usually covered in a two and one-half hour course in plane trigonometry. Prerequisite: College Alg. I or one year of High School algebra, and one year of Plane Geometry.

Math. 110 (30). Method Arithmetic. A course in the pedagogy and psychology of arithmetic for those who are planning to teach arithmetic in the elementary grades. Problem solving in this course is illustrative and supplementary.

Sophomore.

Math. 201 (27). Analytics I. Cartesian Coordinates, curve and equation, straight line, circle, polar, coordinates, functions and graphs, transformation of coordinates. Prerequisites: Trigonometry and College Algebra II.

Math. 202 (28). Analytics II. A special study of conic sections, asymptotes, transcendental curves and equations. Prerequisite: Analytics I.

Math. 210. Spherical Trigonometry. Prerequisite: plane trigonometry.

Math. 230. Solid Analytics. A two and a half hour course in such topics as are usually found in such course. Prerequisite: Analytics II.

Math. 205 (36). Descriptive Geometry. A short course in the elements of descriptive geometry to prepare for further work in engineering or mechanical courses and to enlarge and enrich the student's space concepts. Prerequisite: Analytics II.

Math. 301 (44). Calculus I. The elements of differential calculus with applications. Prerequisite: Analytics II.

Math. 302 (45). Calculus II. The elements of intergal calculus with applications and occasional advance forms of differentiation. Prerequisite: Calculus I.

Math. 303 (45a). Calculus III. An extension of Calculus I and II. Multiple differentiations and integrations in connection with special applications.

Math. 304 (45b). Calculus IV. A half-credit course extending the work of Calculus III, Summation, mass, mean, density, moments, centroids singular points, etc. Offered only during First Summer Term. Prerequisite: Calculus III.

Math. 305. Differential Equations. A full credit course covering the topics usually found in a two and a half hour course. Prerequisite: Math. 310.

Math. 310. (1st Half of Math. 46). The Teaching of High School Algebra. A half credit course—one and three quarter hours—in the methods of teaching high school algebra. Prerequisite: Col. Alg. II.

Math. 311. (2nd Half of Math. 46). The Teaching of Plane Geometry. A half credit course in methods of teaching high school geometry.

Math. 315. History of Mathematics. A course in the history of the development of mathematical concepts and processes. Prerequisite: Calculus III.

Math. 320. Theory of Equations. Prerequisites: Calculus II.

CHEMISTRY.

J. W. NECKERS.
GEORGE M. BROWNE.
R. A. SCOTT.
T. W. ABBOTT.

Chemistry 101 (1a). General Chemistry. A course for students with no previous instruction in this science. A study of the common non-metals and their compounds is started in this course.
Mr. Browne, Mr. Scott, Dr. Abbott.

Chemistry 102 (2a). General Chemistry. A continuation of the study of the non-metals and their compounds. Prerequisite: Chem. 101.
Mr. Browne, Mr. Scott, Dr. Abbott.

Chemistry 103 (3a). General Chemistry. This course is an introduction to the chemistry of the common metals. Prereq.: Chem. 102.
Mr. Browne, Mr. Scott, Dr. Abbott.

Chemistry 151 (1b). General Chemistry. A course designed for those who have had a year of high school chemistry. A course in the chemistry of the non-metals. Prereq.: One year of H. S. Chem.
Dr. Neckers, Dr. Abbott.

Chemistry 152 (2b). General Chemistry. A continuation of non-metal study and preparations. Prereq.: Chem. 151.
Dr. Neckers, Dr. Abbott.

Chemistry 153 (3b) General Chemistry. An introduction to the metals and their compounds. Prereq.: Chem. 152.
Dr. Neckers, Dr. Abbott.

Chemistry 201 (7). Qualitative Analysis. A study of the chemistry of the metals and application to the laboratory separation and identification. Prereq.: Chem. 103 or 153. Dr. Neckers.

Chemistry 202 (8). Qualitative Analysis. A continuation of the work started in Chem. 201, also anion analysis. Identification of alloys, ores, and general inorganic compounds. Prereq.: Chem. 201.
Dr. Neckers.

Chemistry 252 (11). Quantitative Analysis. Gravimetric determinations and calculations in the inorganic field. Prereq.: Chem. 201, Math. 105. Dr. Neckers.

Chemistry 253 (10). Quantitative Analysis. Volumetric analysis with the stoichiometrical accompaniments. Prereq.: Chem. 201, Chem. 202 or 252, Math. 105. Dr. Neckers.

Chemistry 301 (13). Organic Chemistry. A study of the compounds of the aliphatic series with laboratory preparations. Prereq.: Chem. 201. Dr. Abbott.

Chemistry 302 (14). Organic Chemistry. A continuation of the study of the aliphatic series and an introduction to the aromatics. Prereq.: Chem. 301. Dr. Abbott.

Chemistry 303 (15). Organic Chemistry. A continuation of the study and preparation of compounds of the aromatic series which was started in the preceding course. Prereq.: Chem. 302. Dr. Abbott.

Chemistry 401 (New). Physical Chemistry. A study of some of the physical aspects of chemical reactions. Prereq.: Chem. 253, Physics 202 or 207. Dr. Abbott.

Chemistry 402 (New). Physical Chemistry. A continuation of the study of physico-chemical relations. Prereq.: Chem. 401. Dr. Abbott.

Chemistry 423 (New). Advanced Quantitative Analysis. A course for chemistry majors interested in this field. A continuation in the volumetric field with an introduction to water analysis. Prereq.: Chem. 253. Dr. Neckers.

Chemistry 443 (New). Advanced Organic Chemistry. A course for majors in chemistry interested in advanced work in this field, especially in more difficult syntheses and preparations. Prereq.: Chem. 303. Dr. Abbott.

Chemistry 463 (New). History of Chemistry. A course to furnish a background to those who expect to teach in this field.

PHYSICS AND ASTRONOMY

S. E. BOOMER.
CHARLOTTE ZIMMERSCHIED.
O. B. YOUNG.

The department is provided with excellent equipment for its work. Two distinct courses of one year in general physics are offered,—one for those who have had no previous training in the subject and one for those who have had one year of high school physics. Beyond these there are eight one term courses, any six of which may be added to 206, 207, 208, to complete a major. Those who have not had high school physics but who desire to take more than one year in college should begin with 206 rather than with 201. Those who plan to major in physics should take the following courses in mathematics as early as practicable, either preceding the courses in physics or simultaneous with them: Numbers 101, 105, 201, 202, 301, 302.

Physics 201 (2), Mechanics and Sound; 202 (3), Magnetism and Electricity; 203 (4), Heat and Light constitute a year's work for those who have had no previous preparation. No mathematics is necessary beyond high school. Millikan, Gale, and Edward's College Physics is the text.

Physics 206, Mechanics and Sound; *207 (7), Magnetism and Electricity; 208 (8), Heat and Light* constitute the years' work for those who have had high school physics. Mathematics 100 and 105 are desirable preceding or accompanying these courses but they are not necessary. Stewart's text and Taylor, Watson, and Howe's manual are used.

Mathematics 101 and 105 should precede the following courses:

Physics 301 (13), Mechanics. Jameson's Elementary Mechanics is the text.

Physics 301A, Analytical Mechanics for Engineers. Seely and Ensign's text. This course is patterned after the first semester's work

of the corresponding course offered at the University of Illinois. No student should take both 301 and 301A. Prerequisite: Calculus or registration therein.

Mathematics 201, 202, 301, and 302 should precede the following courses:

Physics 303 (14), Heat, Draper's text.

Physics 305 (15), Magnetism and Electricity, Timbie's Elements of Electricity for Technical Students is the text.

Physics 306, Magnetic and Electrical Measurements. Various manuals.

Physics 308 (17), Sound. Miller's Science of Musical Sounds is the text.

Physics 310 (16), Light. Robertson's Physical Optics.

Physics 312 (18, formerly half credit.) *Radio,* Loomis' Radio Theory and Operating.

Physics 314 (19, formerly half credit), *Introduction to Modern Physics.* Richtmeyer's text.

Astronomy 201 (1) and Astronomy 202 (2) constitute a two term course. Duncan's text. Five recitations per week, together with frequent evening observations with and without the telescope, constitute the work. As the students go on in their study from the earth to the moon, the sun, the planets, the stars, and the nebulae, their vision is broadened perhaps as rapidly in this enobling science as it can be in any subject. The varying phases of the moon and the inferior planets, the vast distances to the stars, their great magnitude and high velocities, their constitution, temperature, and brilliance appeal especially to those who enjoy thinking along these lines. Those who take the course will find it helpful in presenting the difficult problems of mathematical geography and in vitalizing their nature study work.

Astronomy 301 and 302. A heavier course, similar to above, for senior college students. Text, Russel, Dugan, and Stewart.

BOTANY.

W. M. BAILEY.
MARTHA H. SCOTT.

Botany 101 (Biology 20). An introductory course in botany, consisting of a study of the vegetative organs of the higher seed plants, their form and structure, physiological activities, and their relations and adjustments to their environment. Attention is given to the identification of the more common trees by their leaf and stem characters. Laboratory and field studies, recitations and lectures. Fall Term.

Botany 102 (Biology 21a). A brief study of the morphology of representative plants of the great plant groups, the general classification of plants and the evolution of the Plant Kingdom. Laboratory studies, recitations and lectures. Winter Term.

Botany 103 (Biology 21b). A course in systematic botany, consisting of a study of the principles of classification and the use of manuals, and work in classifying and identifying seed plants and ferns of

the local flora. Field studies, lectures and recitations. Prerequisite. Botany 102. Spring Term.

Botany 301 (Biology 22). Morphology of the Thallophytes. A study of the structures, development and relationship of the groups of the Thallophytes, evolution of the plant body, origin and evolution of sex in plants, parasitism and saprophytism in the bacteria and fungi. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Fall Term.

Botany 302 (Biology 23). Morphology of the Bryophytes and Pteridophytes. A study of the structures, development and relationships of the liverworts and mosses, ferns, equisetum and club-mosses. The problems of evolution of the sporophyte, alteration of generations, and heterospory receive attention. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 301. Winter Term.

Botany 303 (Biology 25). Morphology of the Spermatophytes. A study of the structures, development and relationships of the Gymnosperms and Angiosperms, the vascular anatomy of these plants, the development of flowers, gametophytes, fertilization, embryology, and the structure and development of seeds. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 301, 302. Spring Term.

Botany 315. Genetics. A general course, with experimental work along the lines of breeding, strains, etc., involving the principles of evolution and genetics.

Botany 320 (Biology 26). Plant Physiology. A study of the physiological relationships of plants and the soil, absorption of water and mineral nutrients, water relationships and requirements of plants, functions of mineral nutrients. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Desirable antecedents: General inorganic chemistry, physics.

Botany 325 (Biology 27). Plant Physiology. A study of the constructive metabolism in green plants, the nutritional processes in plants without chlorophyll, movement and storage of materials in plants. Laboratory studies, recitations and lectures. Prerequisites: Botany 320, general inorganic chemistry, organic chemistry, physics.

Botany 330. Plant Physiology. A study of digestion, respiration, fermentation, growth and movement in plants. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 325. Desirable antecedents. Botany 320, general inorganic chemistry, organic chemistry, physics.

Botany 340 (Biology 28). Plant Ecology. An introductory course in Plant Ecology. Plants in relation to their environment; the effects upon the plant of the factors light, heat, air, soil and water; the succession in the time of flowering of the local herbs and the putting out of leaves by the trees; symbiotic phenomena. Field studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Spring Term.

Botany 345. Plant Ecology. The community relationships of plants. Local communities will be studied and the factors influencing their development will be noted. The study of the development of deciduous forest community from bare areas, such as bare rock, bare

clay, and water, will constitute a portion of the field work. Field studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 340.

Botany 350. Plant Geography. This course will consider the distribution, development, floristic composition, environmental factors, agricultural possibilities, etc., of the great plant divisions of the world. Local field studies on the distribution of our native plants will be a feature of the course. Since Southern Illinois is a meeting ground of many northern and southern species of plants, the region is especially suitable for this kind of study. Lectures, recitations and field studies. Prerequisites: Botany, 101, 102, 103, 340.

ZOOLOGY.

MARY M. STEAGALL.
HILDA A. STEIN.

The Zoology Courses are planned primarily to give general information of the principles that govern all animal life, and further for the benefit of those majoring in Zoology or using it as a basis for professional training.

Zool. 101 (1a). General Vertebrate Zoology.

Open to all Junior College students.

It deals with the salient facts of Vertebrate Zoology, taking note of evolutionary development. One form of each Chordate class will be studied, with especial emphasis of the Amphibian type.

Text: Hegner's College Zoology.

Zool. 105 (2). Invertebrate Morphology.

Prerequisite, Zoology 101, or its equivalent.

The complex cell will be studied, its specialization into various types, the rise of tissues, organs and systems characteristic of the various groups of Invertebrates.

Text, as above.

Zool. 110 (12). Field Zoology.

Prerequisites, courses 101 and 105, or equivalents.

It consists of securing and identifying local material, together with elementary experiments in trophisms and environmental changes.

Texts: Hegner's College Zoology; Allee's Synoptic Key; Ward and Whipple, Fresh Water Life.

Zool. 115 (6a). Economic Zoology.

Prerequisites, courses 101 and 105, or equivalents.

Library reading and lecture course in the study of relations of animals to man. Field trips are to include visits to Zoological Gardens, and such industries as orchard spraying, fisheries, furriers, meat markets, etc.

Zool. 200 (3). Comparative Vertebrate Anatomy I.

Prerequisite: Zoology 101, or its equivalent.

Here studies of comparative skeletal and muscular structures are made from a phylogenetic and evolutionary view point.

Text: Walter's, Biology of the Vertebrates.

Manual: Hyman's, Vertebrate Anatomy.

Zool. 201 (3a). Comparative Vertebrate Anatomy II.

Prerequisite: Course 200.

A continuation of the above, taking up a phylogenetic comparison of the organs and systems of Vertebrates.

Text, as above.

Zool. 210 (5). Ornithology.

Prerequisite, Zoology 101, or its equivalent.

Object: To recognize the local birds, and to study the calls, feeding, nesting and migratory habits of birds and their relation to human welfare.

Texts: Reed's Land Birds East of the Rockies.
Chapman's Birds of the Eastern United States.

Zool. 215 (6). Entomology.

Prerequisite, Zoology 105, or its equivalent.

Identification of the local insects, the study of the critical points in the life histories of insects and their relation to human health and wealth.

Text: Fernald's Entomology.

Zool. 300 (8). Vertebrate Embryology.

Prerequisite, Zoology 101, or its equivalent.

Chick and pig embryos are used as types. Emphasis is placed on the ontogeny of the individual in its relation to Vertebrate phylogeny.

Text: Arey's Developmental Anatomy of Vertebrates.

Manual: Lillie and Moore.

Zool. 315 (14). Genetics.

An elementary course, with experimental work along the lines of breeding, strains, etc., involving the principles or evolution and genetics.

Text: Castle's Eugenics and Genetics.

Zool. 305 (2a). Comparative Anatomy of Invertebrates.

Prerequisites, Zoology 100 and 105, or equivalents.

The comparative study of the development of tissues, organs, and systems and their tendencies in Invertebrates.

Library readings and lectures.

Zool. 310 (13). Animal Ecology.

Prerequisite, one year of Zoology including Zoology 110.

Animals in their habitats, relations, formations and associations.

Text: Pearse's or Shelford's Ecology.

Zool. 311 (13a). Advanced Animal Ecology.

A continuation of Zoology 310 with stress on some particular phases of animal relationship, or on some environmental factor.

Zool. 320 (9). Histology of Organs.

Prerequisite, one year of Zoology.

Microscopic study of organs, and tissues, with their origin and development.

Texts: Hill's Organography; or Dahlgren and Kepner, Principles of Animal Histology.

Zool. 321 (9a). Histological Technique.

Prerequisite, Junior College Zoology.

The latest methods of preparing histological material in Biology. The development of a certain amount of technique is required.

Texts: Guyer's Animal Micrology, Chamberlain's Methods in Plant Histology.

Zool. 322 (9b). Advanced Histology.

Prerequisite, Zoology 321.

Serial slide making, and the working out of special problems in technique.

Texts, as above.

Zool. 330. History of Zoology.

A short historical development of the science of Zoology from the time of the early Greek philosophers until the present time. This involves a study of the various theories and their influence upon the rise of Physiology, Embryology, Comparative Anatomy, Genetics and Ecology.

Text: Nordenskiold, The History of Biology.

AGRICULTURE.

R. E. MUCKLEROY.

The aim of the Agriculture Course is to develop a better appreciation of farm life by study of economic production, and to enable those who choose the work to teach it to others or to find a safe and profitable employment in the practice of farming.

The Normal owns a 110 acre farm which lies just south of the campus. In addition to the regular class work, students are required to make observations and to study the various phases of livestock farming on this farm. Demonstration plots are used to illustrate the various methods of soil treatment in relation to crop production.

All the animals kept on the State Farm are pure bred. Percheron horses, Holstein cattle, Poland China hogs, Barred Rock and Single Comb Rhode Island Red chickens, are used for class demonstration and judging work.

Students of the department find it profitable to join the Agricultural Club. While this club is more or less of department work, it is one of the factors promoting student life and the best interests of the institution. The club meets every Wednesday evening of the school year. The programs are made up of music, optionals, studies in soils and crops, livestock production and improvement, and community work.

Agronomy 101 (Agronomy 1). Soil Fertility. Origin, formation, and nature of soils, glaciations, soil types, soil treatment and cropping systems. (Laboratory.)

Agronomy 102 (Agronomy 2). Cereal Crops. Production and harvesting of common farm crops, means of improvement, diseases, insects, weeds, purity of seeds, germination, grades of grain, and judging. (Laboratory.)

Agronomy 103 (Agronomy 3). Forage Crops. Adaptation, culture, plant structure, requirements and characteristics, with special attention given to legumes and crop rotations. (Laboratory.)

Animal Husbandry 105 (Animal Husbandry 32). Livestock Judging. Leading characteristics of the various breeds of livestock, native homes, selection for the feed lot, market requirements, type, utility, show form, breeding and judging.

Animal Husbandry 120 (Animal Husbandry (4a). Poultry. Pigmentation, molting, inheritance of type, breeding, mating, influence of environment, incubation, feeding for early maturity, market conditions, marketing, poultry farming, including ways and means of developing the industry, results of egg laying contests.

Animal Husbandry 205 (Animal Husbandry 5). Principles of Feeding. Relations of plant and animal life, elements of nutrition, composition of plants and animals, digestion, composition of feeds, relative values of balanced rations, feeding trials, value of economic feeding and management. (Prerequisite: Animal Husbandry 105.)

Animal Husbandry 231 (Animal Husbandry 7a). Dairy Cattle. Breed history, feeding, herd testing, breeding, pedigrees, and management. (Prerequisite: Animal Husbandry 105 or 205.)

Animal Husbandry 330. Problems in Dairy Farming. Balance of factory on a dairy farm, building, fields, rotations of crops, pastures, relative value of breeds. (Prerequisites: Agronomy 101 and Animal Husbandry 105 or 231.)

Hort. 212 (Horticulture 8). The principles of fruit growing with special reference to the home orchard; pruning, spraying, and marketing.

Teachers' Course 100. The first six weeks of this course will be devoted to soil study with special reference to fertility problems and crop rotations to meet better livestock production. The last six weeks will be given to a study of livestock on the farm with better methods of care and management as a means of greater profits. Special emphasis will be placed on illustrative materials which may be used in the country schools.

Farm Management 350. Factors in production, types of farming, organization and direction, economic use of farm machinery, balance of crops and livestock, market conditions, sectional and seasonal production. (Prerequisite: Agronomy 101 and Animal Husbandry 330.)

HOUSEHOLD ARTS.

LUCY K. WOODY.
MARY LOUISE FRY.

Household Arts 105 (5a) 106 (6a), 107 (7a). Foods and Cookery. No prerequisites. A year's work divided into three units for Freshmen and unclassified students who wish to elect a general course in foods and cookery.

Household Arts 205 (5), 206 (6), 207 (7). Foods and Cookery. Prerequisites: One year of inorganic chemistry, general botany or zoology. A year's course in the study of production, marketing, relative costs, nutritive values and preparation of food.

Course 205. A consideration of heat, fuels, apparatus, food preservation, fruits, vegetables, starches and sugar.

Course 206. Beverages, dairy products, eggs, meat, fish, poultry, meat substitutes, fats.

Course 207. Flour mixtures salads, desserts, meal planning and service, buying, pure food laws.

Text: Food Products, Sherman; References.

Household Arts 120 (11c) Elementary Nutrition and Cookery. No prerequisites.A term of elementary nutrition combined with fundamental cookery problems especially designed for the first course in foods for nurses. Open to nurses of Holden Hospital, freshmen and unclassified students.

Household Arts 125 (2). Garment Making. This course embraces both hand and machine work. Stress is laid upon the suitability of material and trimmings and upon economical purchasing. The work involves the use and alteration of commercial patterns, some drafting and the various methods of trimming. The work in textiles embraces the history of the industry and the fundamentals of cloth making.

Text: Textiles, Woolman and McGowan.

Household Arts 130 (3). Dress Making. Prerequisites. Household Arts 125. This course involves the making of two summer dresses, a study of materials, color combinations and line in dress, some drafting of patterns and elaboration of plain patterns. In textiles the work includes the study of the important fibers in relation to careful buying.

Text: Textiles, Woolman and McGowan.

Household Arts 320 (11) Nutrition and Dietetics. Prerequisites: Foods and Cookery, 205, 206, 207; General Botany, 101, or Zoology, 101; Physiology, 201; two terms of Organic Chemistry. A study of food and its relation to the body, planning dietaries for infants, children and adults.

Text: The Chemistry of Food and Nutrition, Sherman; Laboratory Manual for Dietetics.

Household Arts 330 (19). Costume Design and Draping. Prerequisites: H. A. 130 and Art 115 and 110.

In this course dresses are constructed in inexpensive materials. These are planned from the standpoint of becomingness to the individual. A study of historic costume accompanies the work and helps to furnish suggestions for the plans.

Household Arts 360 (14). Advanced Dressmaking. Prerequisites: H. A. 330 and H. A. 130.

This course involves the handling of silk and wool in tailoring, draping and the use of commercial patterns. A term paper is required following investigation and discussion.

Household Arts 335. Meal Planning and Table Service. Designed especially for upper classmen. This is a course involving the elementary science of nutrition and its application to meal planning.

Household Arts 375. Senior College Sewing. No prerequisite except senior college standing. A survey course in clothing including

the fundamentals of clothing construction, use of commercial patterns, a brief study of costume design, and the testing of textiles. The course emphasizes the selection, cost, and care of clothing.

ART.

GLADYS P. WILLIAMS.
LULU D. ROACH.

Art 105 (31). Freehand Drawing. Perspective and freehand drawing, using pencil, ink, charcoal and other mediums.

Art 110 (28). Principles of Design. Origin and theory of design; principles applied in costume design, and tooled leather.

Art 115 (27). Theory of Color. A study of the theory and harmony of color. Text: Sargent's The Enjoyment and Use of Color.

Art 205 (4). Public School Drawing. Course for grade teachers in common school art.

Art 210 (21). Commercial Design. Design with reference to its application in the business world; principles of advertising; method of reproduction and printing. Prerequisites: Principles of Design 110.

Art 215 (7). Advanced Design. Continuation of the principles of design and their application to art in the home. Prerequisite: Principles of Design 110.

Art 220 (10). Advanced Water Color. Work from still life and nature. Prerequisite: Theory of Color 115.

Art 225 (5). History of Art. Periods and styles of architecture, sculpture, and painting preceding the Italian Renaissance. Texts: Hamlin's History of Architecture; Van Dyke's History of Painting; Marquand's A History of Sculpture.

Art 230 (13). History of Art. Italian Renaissance to present time. Same texts as Art 225. Prerequisite: History of Art 225.

Art 305 (15). Freehand Drawing. Continuation of Art 105. Some Drawings finished in water color washes.

Art 310 (9a). History of Architecture. Ancient to modern times, considering influence of material, climate, political and economic conditions on styles of architecture; evolution of structural and ornamental forms. Text: Fiske Kimball's A History of Architecture.

Art 315 (30). Home Decorations. Principles of design are studied in terms of the home and its furnished details from the standpoint of the designer. Reference work, color plates, and the compiling of illustrative materials are required. Prerequisite: Advanced Design 215.

Art 320 (7a). Design, Elements of Composition. Elementary study of simple architectural problems. Mediums: pencil, ink, water color. Prerequisite: Advanced Design 215.

Art 325 (21a). Design, Study of Elements. Continuation of Art 320.

Art 330 (7b). Design. Talks and laboratory work dealing with typical problems to illustrate their use in the home. Batik designs studied and developed.

INDUSTRIAL ARTS.

LOUIS C. PETERSEN.

201 (1). Primary Handwork. For teachers of the lower grades. Method in paper cutting and construction, booklet making, applied design, knotting, braiding, weaving, raphia work, simple basketry; representation of tribal camps and Colonial villages. Organization and presentation of subject matter.

Text: Paper Craft Problems, Hammond. One-half credit.

202 (1a). Upper Grade Handwork. Method of designing and weaving reed baskets, light-wood construction, toy-making, lettering, drawing, working out instruction sheets, organization of material of instruction, class management in industrial arts. One-half credit.

101 (11). Mechanical Drawing. This is a course for beginners and includes the use of instruments, applied geometry, lettering, orthographic projection, developed surfaces, intersections of solids, working drawings. Text: Engineering Drawing, French. One credit.

102 (12). Architectural Drawing. Prerequisite: Industrial Arts 101. This course includes architectural lettering, conventions, plans and elevations, study of building materials, specifications, computation of strength of beams, pillars, stairways. Text: Progressive Steps in Architectural Drawing, Seaman. One credit.

103 (13). Machine Drawing. Prerequisite: Industrial Arts 101. In this course the characteristics of metals and machine parts are studied. Typical machine elements are worked out in drawings such as different forms of screw threads, cams, gears, kinematics as applied to machinery. Tracing and blueprinting. Text: Engineering Drawing, French. One credit.

104. Advanced Architectural Drawing. Prerequisite: Industrial Arts 102. Study of the Classic Orders, mechanical perspective, shades and shadows, rendering. Complex architectural problems are worked out. Text: Architectural Drawing, Field. One credit.

105. Advanced Machine Drawing. Prerequisite. Industrial Arts 103. Study of machine design, properties of metals and alloys, working out tables for proportional machine parts, designing of tools and simple machines. Text: Design of Machine Elements, Mease and Nordenholt. One credit.

212. Woodturning. Prerequisite: Industrial Arts 101. Practice in the tool processes used by skilled woodturners, care of power-driven machines and tools, working out designs in wood as applied in furniture construction and pattern making. Text: Problems in Artistic Wood Turning, Ensinger. One credit.

213. Furniture Construction. Prerequisite: Industrial Arts 212. Study of the principles of design and period furniture. Practice in designing and construction of furniture that can be made in school shops. Machine woodworking, care of shop equipment. One credit.

214 (6a). Pattern Making. Prerequisite: Industrial Arts 212. Study of draft, shrinkage, finish, core prints and core boxes. Practice in moulding and core making, casting soft metal, making patterns for small machine parts. Text: Wood Pattern Making, McCaslin. One credit.

221 (8). Art Metal Craft. This course is for beginners in metal work and embodies in the design and construction of useful articles such processes as forming curves, stretching and raising, punching, drilling, riveting, sawing, filing, annealing, hardening, soldering, etching and coloring by heat and chemicals. Text: 101 Metalworking Projects, Petersen. One credit.

222 (9). Machine Metal Work. Study of the engine lathe and drill press, proper cutting speeds and feeds, shaping and grinding cutting tools, straight and taper turning between centers, filing and polishing, thread-cutting, figuring change gears, chuck work, facing, boring, and reaming. Forging and tempering tools. Text: Machine Tool Operation, Burghart. One credit.

223 (10). Machine Shop Practice. Prerequisite: Industrial Arts 222. Practice in fastening work on planer platen and in taking cuts at different angles to produce flat surfaces. Work in scraping and testing true surfaces and in fitting machine parts. One credit.

COMMERCIAL.

T. L. BRYANT.

EDWARD V. MILES, JR.

Commercial 101 (1). Penmanship. This course presents the study of Penmanship in the latest methods of developing the subject. All of the work both in movement drills and in letter and word writing are studied in tempo.

The rhythm is first developed by counting. Drill on the straight line and the ovals, direct and indirect, constitute a part of each recitation.

The pedagogy of the subject as presented in the different compendiums of penmanship is carefully worked out and studied in class. Comparative values of different movements are presented, also the rise and fall of different systems.

A study of the plan as outlined in the State Course of Study is required of all taking this work.

Towards the close of each term opportunity will be given to all who desire to write for a Palmer's Teachers' Certificate. To possess a Palmer's Teachers' Certificate ranks the holder as fully equipped, not only as a master of the art of business writing, but also prepared to teach this subject in the most modern and up-to-date method. One-half credit is given for each twelve week term. Text: The Palmer Method of Business Writing.

Commercial 205 (7). Accounting. This course in introductory bookkeeping is planned for those who have never studied the subject. The double entry system is introduced in the beginning and all the laws governing the debit and credit of business transactions are fully explained and mastered. The journal, day book, sales book, purchase book, and the auxiliary books are introduced and their use in accounting fully demonstrated. A complete line of business transactions is placed in the books of original entry, posted to the ledger, trial balance taken, inventories entered, and accounts closed. A comprehensive

study of the financial statement is made. Text: McKinsey's Accounting Principles.

Commercial 206 (8). Accounting. Partnership accounting is studied and several sets are worked out. This course embodies all the principles taught in Commercial 205. The student is familiarized with negotiable instruments and their use. Text: McKinsey's Accounting Principles. Prerequisite, Commercial 205.

Commercial 207 (9). Accounting. Corporation and Manufacturing Accounting are offered in this course. It takes up the changing of books from single proprietorship and partnership to a corporation. In this work the latest systems of accounting are presented. Text: McKinsey's Accounting Principles. Prerequisite, Commercial 206.

Commercial 210 (13). Commercial Law. The aim of this course is to give a comprehensive training in the law pertaining to business. In the text the fundamental and governing principles of law are stated; differences in fundamental principles of dissenting authorities are referred to. Leading illustrative cases are given.

Contracts, Sales, Negotiable Instruments, Agency, and Bankruptcy are among the topics studied. Text: Child's Business Law.

Commercial 211 (14). Commercial Law. This course is a continuation of Commercial 210, covering Bailments, Partnership, Corporations, Insurance and Property.

Commercial 212 (15). Commercial Iaw. A continuation of Commercial 211 covering internal relation and control in Agency, Partnership and Corporations; dissolution and accounting in agency, partnership and corporations. The case method will be used in this course.

Commercial 305, 306 and 307 (26, 27, 28). Advanced Accounting. A second year course in accounting designed to give intensive study in theory and practice. This course deals with partnerships and ventures, corporations, investments, stocks and bonds, depreciation, reserves, surplus, dividends, corporate obligations, balance sheet, and profit and loss statement; statement analysis for credit purposes, statement analysis for investment purposes, Mergers vs. Consolidations, Parent vs. Holding Companies, consolidated statements and fiduciary statements. Text: Advanced Accounting, Sherwood. Prerequisite, Commercial 207.

Commercial 325 (32). Business Administration. A study of business problems from the standpoint of the manager. The course covers location of plant, administration of personnel, marketing, finance, production, risk-bearing, and the selection of the best adapted business unit for a certain industry or business. Text: Business Administration, Marshall.

MUSIC.

DAVID S. MC INTOSH.
JULIA D. CHASTAINE.
HELEN E. MATHES.
WENDELL MARGRAVE.

Music 105 (Music I). Sight Singing, Ear Training. This course is offered to those students who have not had elementary training in

music. It consists mainly of sight-reading simple songs and exercises; but also includes drill in pitch, rhythm, and theory; formal ear training (response, oral and written); song singing by use of syllables; and appreciation of music (listening lessons). Text: School Music Handbook, by Cundiff-Dykema.

Music 107. Song Leading and Community. The social aspects of music. Daily practice in the simpler phases of conducting, stressing song leading. Elementary instruction on simple instruments for camps and playgrounds. Organizing of musical activities for the student body. Aims to prepare students as teachers and citizens to broaden the appeal of music. Open to students with slight musical training for ½ credit.

Music 110 (Music II). Primary Music Methods. This course is designed to meet the music requirements demanded of the primary grade teacher. The work covers the following topics, the child voice, rhythm development, note singing, sight singing, music appreciation. Prerequisite: Music 105, or previous training equivalent to that course. Text: School Music Handbook, by Cundiff-Dykema.

Music 215 (Music 2). Intermediate Music Methods. This course is designed to meet the music requirements demanded of the Intermediate Grade Teacher. The work covers the following topics, two part singing, sight reading, three part singing, practical use of the minor mode, music appreciation. Prerequisite: Music 105, or previous training equivalent to that course.

Music 125 (Music 5). Harmony. The work covers the formation of major and minor scales, a thorough study of intervals, the common chord, and harmonic progressions. Prerequisites: Music 1 or equivalent.

Music 230 (Music 6). Harmony. A continuation of Music 5. The course covers harmonic progressions, the chord of the sixth and the six-four, the dominant seventh and its inversions, and natural modulations.

Music 235 (Music 10). History of Music. A general course covering the important movements of the following periods: uncivilized and ancient music, medieval music, the nineteenth century, the seventeenth century, the eighteenth and early nineteenth century.

Music 305 (Music 8). Junior High and Senior High School Methods. The problems of vocal music and instrumental music relating to the Junior High School and Senior High School are studied. Practical instruction in conducting is given. Prerequisite: Music 105 or equivalent.

Music 310 (Music 9). Band and Orchestra Methods. This course offers a study of all the orchestral instruments, the common band instruments, and scoring for the orchestra. The entire course is outlined and conducted in terms of the grade school and high school band and orchestra. Prerequisite: Music 125.

Music 312. Musical Form and Harmonic Analysis. Analysis of compositions is made the basis of the study and classification of the various types of musical form, including the sonata form. Prerequisite: Music 230.

Music 315 (Music 11). Harmony. (Second Year). A study of the dominant seventh and its inversions, diminishing sevenths, secondary chords of the seventh; chords of the ninth, eleventh and thirteenth. Text: Modern Harmony, by Foote and Spalding.

Music 320 (Music 12). Harmony. A continuation of Music 315 Chromatically altered chords, suspensions, ornamental tones, and modulations. Text: Modern Harmony, by Foote and Spalding.

Applied Music.

Class instruction in piano, violin, and other orchestral instruments is elective. Classes recite three days each week, one credit being given for three terms' work.

Music 150-151-152 (Music 21, 22, 23). Violin, First Year. The subject matter of the text used is correlated with the singing lesson wherever possible. Emphasis is placed upon the mechanics of the instrument by employing: (1) short and easily memorized exercises in rhythmic form for the development of the bow, hand and arm; and (2) technical exercises suitable for young beginners designed for the purpose of training the left hand. Text: Max Fischel's Graded Course, Book 1 and Book 2.

Music 160-161-162 (Music 24, 25, 26). Violin, Second Year. The work of the second year provides for the presentation and the development of the third position, the more difficult keys, rhythms, bowings, and the easier harmonies; during the latter part of the year the seven positions in scale form are used. Text: Elementary Violin Lessons by Eugene Gruenberg and Max Fischel's Book 3.

Music 170-171-172 (Music 40, 41, 42). Piano, First Year. Teaching of the rudiments of piano playing from one of the most approved methods for beginners. Careful attention is given to hand culture, touch, music notation, rhythm and ear training. Text: Standard Graded Course of Studies by W. S. B. Mathews.

Music 180-181-182 (Music 43, 44, 450. Piano, Second Year. The W. S. B. Mathews Standard Graded Course continued.

Music 190. Applied Music. Elementary voice training. This work is done in class and is open to all students.

The University maintains a band, orchestra, and a chorus. Students who are especially interested in music are urged to apply for membership in at least one of these organizations. Students who qualify for either Orchestra or Band will have their tuition refunded.

PHYSICAL EDUCATION FOR MEN.

WM. MC ANDREW.
LELAND LINGLE.
VINCENT DI GIOVANNA.

Physical Education 151 (7). Fall Term. Marching tactics, calisthenics, group games, individual combative contests.

Physical Education 152 (8). Winter term. Boxing, wrestling, tumbling, apparatus work, and group games.

Physical Education 153 (9). Spring term. Track, baseball, and group games.

All freshmen are required to take physical education throughout the year, three times per week. Unless a student is a member of one of the team squads he will be required to take the above three courses.

Illinois law requires 144 forty-minute periods of physical education for graduation from normal schools.

Physical Education 170 (11). The school supports a foot ball team during the fall term. Physical training credit is given to the men who remain on the squad. Students are not dropped from the squad because they have no chance of making the team. They are encouraged to work for the physical benefits and to learn the game.

Physical Education 171 (12). A basket ball team represents the school during the winter term. The statement above concerning the foot ball team holds true for basket ball.

Physical Education 172 (14). Track. The same facts hold for this branch of sport as for courses 170 and 171.

Physical Education 173 (15). The men who make the tennis squad are given credit.

Physical Education 154. Football. Theory and practice on the field. Each student is given individual instruction and practice in all the fundamentals for linemen and backs. Team play is emphasized in the latter part of the course. Students participate in actual scrimmage. Texts: Football, by K. K. Rockne; Football Technique and Tactics by R. C. Zuppke.

Three hours per day, five days per week, one term, one credit.

Physical Education 155. Basketball. Theory and practice on the floor. The basic fundamentals of the game are studied and practiced. The first part of the course is devoted to the learning of the fundamentals and the latter part of the course gives attention to the analysis of offensive and defensive systems and team work. Text: Basketball by Craig Ruby.

Three hours per day, five days per week, one term, one credit.

Physical Education 156. Track and Field. Instruction and practice in all the individual track events and the separate field events. Actual performance in all events required of the student. How to organize and conduct track and field meets is a part of the course. Text: Track and Field by Tom Jones.

Three hours per day, five days per week, one term, one credit.

Physical Education 201. Boxing. The theory and practice of the art of self defense with special emphasis on fundamentals. Attention will be given to conditioning and training procedures and to the management of tournaments and exhibitions. Text: Boxing by Jack O'Brien and S. E. Billik.

One hour per day, four days per week, one term, one-half credit.

Physical Education 202. Wrestling. Modern and scientific methods of offensive and defensive tactics in wrestling with special emphasis on mat generalship. Text: Wrestling by Paul Prehn.

One hour per day, four days per week, one term, one-half credit.

Physical Education 203. Gymnasium Activities 1. This course aims principally to develop individual technique in the activities listed. The materials covered are as follows: first, the practice of single line marching maneuvers; second, the practice of calisthenics; third, the practice of simple stunts, self testing activities, on the more popular pieces of heavy apparatus and the tumbling mats; fourth, games, contests, and relays adapted to the interests, needs and capacities of the group.

Two hours per day, four days per week, one term, one credit.

Physical Education 301. Gymnasium Activities 2. A progressive continuation of gymnasium activities 1, which, in addition to the practice for development of individual technique, includes the theory and pedagogy involved in the activities. Prerequisite: Physical Education 203. Texts: Calisthenics by S. C. Staley; Marching Tactics by S. C. Staley; Exercises on the Apparatus, Tumbling and Stunts, by W. J. Wittich and H. C. Reuter; Games, Contests, and Relays by S. C. Staley.

Two hours per day, four days per week, one term, one credit.

Physical Education 250. Materials and Methods for Teaching Physical Education in the Elementary Schools. This course is a study, demonstration, and practice of the physical education activities of children from six to fourteen years of age. It includes first, a presentation and study of graded lists of activities adapated to the age periods of the child and second, the organization, management, and methods in the leadership of the activities. Text: Physical Education for Public Schools by F. W. Maroney.

One hour per day, four days per week, one term, one credit.

Physical Education 302. Materials and Methods for Teaching Physical Education Activities in Junior and Senior High Schools. A study, demonstration, and practice of the "total-body" activities adapted to the age needs, interests, and capacities of junior and senior high school boys. Emphases is placed on the principles of leadership in an organized schedule of outdoor and indoor developmental activities which will necessitate a thorough knowledge of the purpose, aims, the remote and immediate objectives of physical education, and the changing factors which are involved in building a school program. Texts: School Program in Physical Education by C. W. Hetherington; Education by Plays and Games by G. E. Johnson; The Practice of Organized Play by W. Bowen.

One hour per day, four days per week, one term, one credit.

Physical Education 303. Kinesiology. This course deals with the mechanical analysis of physical education activities through the study of joint and muscle action. Text: The Action of Muscles by W. C. Mackenzie. Prerequisites: one term each of Anatomy and Physiology.

One hour per day, four days per week, one term, one credit.

PHYSICAL EDUCATION FOR WOMEN.

FRANCES ETHERIDGE.
DOROTHY MUZZEY.
AILEEN CARPENTER.

Practical Courses:

101 (1). Physical Education. General course required of freshmen. Fall term. Three days a week. (3/9) credit.

102 (2). Physical Education. Continuation of 101. Winter term. Three days a week. (3/9) credit.

103 (3). Physical Education. Continuation of 102. Spring term. Three days a week. (3/9) credit.

101A. Physical Education. Individual course for such students as are unable to take regular physical education work. Fall term. Three days a week. (3/9) credit.

102A. Physical Education. Continuation of 101A. Winter term. Three days a week. (3/9) credit.

103A. Physical Education. Continuation of 102A. Spring term. Three days a week. (3/9) credit.

201A. Physical Education. Individual course for sophomores unable to take regular physical education work. Fall term. Two days a week. (2/9) credit.

202A. Physical Education. Continuation of 201A. Winter term. Two days a week. (2/9) credit.

203A. Physical Education. Continuation of 202A. Spring term. Two days a week. (2/9) credit.

210. Soccer and Volley Ball. Fall term. Two days a week. (2/9) credit.

211. Hockey. Fall term. Two days a week. (2/9) credit.

212. Basketball. Winter term. Two days a week. (2/9) credit.

213. Baseball. Spring term. Two days a week. (2/9) credit.

214. Archery. Fall, Winter and Spring terms. Two days a week. (2/9) credit.

216. Tennis. Fall and spring terms. Two days a week. (2/9) credit.

220. Gymnastics and Stunts. Fall term. Two days a week. (2/9) credit.

221. Gymnastics and stunts. Continuation of 220. Winter term (2/9) credit.

222. Gymnastics and stunts. Continuation of 221. Spring term (2/9) credit.

226. Track and field athletics. Spring term. Two days a week. (2/9) credit.

230. Folk dancing. Fall term. Two days a week. (2/9) credit.

231. Folk dancing. Winter term. Two days a week. (2/9) credit.

232. Folk dancing. Spring term. Two days a week. (2/9) credit.

233. Interpretative dancing. Fall term. Two days a week. (2/9) credit.

234. Interpretative dancing. Winter term. Two days a week. (2/9) credit.

235. Interpretative dancing. Spring term. Two days a week. (2/9) credit.

236. Clog and Character dancing. Fall, Winter or Spring terms. Two days a week. (2/9) credit.

237. Advanced Clog and Character dancing. Fall, Winter or Spring terms. Two days a week. (2/9) credit.

240. Group games. Fall term. Two days a week. (2/9) credit.

241. Group games. Continuation of 240. Winter term. (2/9) credit.

242. Singing and Playground Games. Spring term. Two days a week. (2/9) credit.

Theory Courses:

245 (6). Playground. A general course for play leaders in the organization and management of play. The nature of play, its origin, and the growth of the play movement is studied in connection with the practice of games and playground activities. Spring term. Four periods a week. One credit.

Prerequisite: Two terms of physical education work or consent of instructor.

205. Physical Education Method I. (215.) Principles, aims, and objectives of physical education. Adaptation of activities according to the age interests of elementary school children. Principles and technique of teaching and officiating hockey and soccer. Fall term. 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite: Sophomore standing.

206. Physical Education Method II. (225.) Principles and theory of selecting and teaching gymnastic material. Elementary rhythm work and dramatic play for small children. Practice in folk and national dances, clog, and character dances. Principles and technique of teaching and officiating volley ball and basketball. Winter term. 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite Method I. or equivalent.

207. Physical Education Method III. Methods of selecting and adapting material to the building of a physical education curriculum. Principles of teaching elementary tumbling and stunts. Organization and conduct of festivals, meets, and demonstrations. Principles and technique of teaching and officiating baseball and track. Spring term. 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite Method II or equivalent.

208. Kinesiology. Analysis of the joint and muscular mechanism of various movements involved in gymnastic games and dancing. Study of the movements of everyday life in relation to the problem of bodily development and efficiency. Fall term. One credit. Prerequite: College physiology.

223. Corrective gymnastic and First Aid. Application of posture examination procedure to schoolroom conditions. Exercises which

tend to counteract and prevent faulty postural conditions. Elementary study of first aid. Winter term. One credit.

15/9 credit in practical courses is required for graduation.

PHYSIOLOGY AND HEALTH EDUCATION.

DELIA CALDWELL.
FLORENCE DENNY.

P. & H. 201 (Biology 4a). College Physiology. This course covers a study of the development of the human body and of the anatomy, physiology and hygiene of the great systems which carry on its work. Besides giving to teachers the necessary knowledge of the human mechanism, it will form the basis for the more extended study of Human Anatomy and Physiology for students taking the professional courses of Medicine and Dentistry. Lectures, recitations and laboratory work. Prerequisites: One term of either Freshman Botany or Freshman Zoology. Fall term.

P. & H. 301 (Biology 24). Bacteriology and Sanitation. An introduction to the study of sanitary science, including a study of the morphology and physiology of microorganisms and their relationship to human interests. The following phases of the subject are considered: sterilization and disinfection; preparation and use of culture media; microscopic examination of microorganisms; bacteriology of soil, milk and water, and the pathogenic organisms and their relations to the production of communicable diseases. Lectures, recitations and laboratory work. Prerequisites: Freshman Botany or Freshman Zoology or College Physiology. Winter term.

P. & H. 202 (Biology 43). Health Education. This course will teach the meaning of health, its value to the individual and to the community, how it may be attained and how preserved. Special attention will be given to the hygiene of the mouth and teeth and to the organs of special sense. The principles of the prevention of communicable diseases will be taught and their application to the individual and to the community clearly demonstrated. This teaching will be adapted to the needs of the students themselves, for the improvement of their own health and detailed instruction will be given for the application of this work to the teaching of health in all of the grades of public schools. Lectures and recitations. Offered at every term.

THE TRAINING SCHOOLS.

The Training Schools include the following branches:

1. The University High School, which provides the practice teaching required for Senior College graduation, is located on the campus.

2. The Allyn Training School, which gives elementary school practice for Junior College graduation, is located on the campus.

3. The Brush Training School, which gives elementary school practice and training for grade principalships, is located in the city. The practice is for Junior College graduation.

4. The Rural Practice Schools, which give practice for Junior College Graduation, include five rural schools, located in near-by districts.

General Information.

Past experience in teaching will receive no practice credit.

Three units of practice work are required for Junior College graduation. This work will usually be done in the elementary grades.

Three units of actual practice work are required for Senior College graduation. This work will usually be done in the University High School, and one unit must be done in the student's major subjects.

Application for practice work, except Practice 1, must be made at the beginning of the term preceding the term in which the practice teaching is desired. Assignments in practice teaching will be made on the basis of the student's scholastic attainment and demonstrated ability.

The University High School.

A senior high school department with an enrollment limited to 55 in each year except the fourth, is maintained on the campus. Here a well trained faculty offers a program of studies typical of the best Southern Illinois High Schools. This school provides training facilities for the senior college practice teaching. Each of the four quarters, about 60 college students are enabled to do senior college training work. It also provides an opportunity for those who have not met all the college entrance requirements to make up their deficiencies. The requirements for graduation are the same as for college entrance given on page 28.

The following Senior high school courses are offered:

Sophomore Year	*Junior Year*	*Senior Year*
English II	English III	English IV
Geometry	Solid Geometry	Physics
Agriculture	Advanced Algebra	Sociology
Biology	Chemistry	Economics
Latin II	Latin III	Civics
French	French II	Latin IV
World History	U. S. History	Typewriting II
Manual Training I	Manual Training II	Shorthand II
Home Economics	Home Economics	
Commercial Arithmetic	Commercial Law	
Bookkeeping	Commercial Geography	
Music	Typewriting I	
Art	Shorthand I	

The Allyn Training School.

This school consists of the elementary grades, one to six inclusive, and the junior high school, grades seven to nine inclusive. These groups of pupils furnish opportunities for practice teaching and for directed observation required in Practice One; also for demonstration lessons for classes doing professional college work. In organization, equipment, and opportunities, the school does not differ from the best public schools.

Practice One is a prerequisite to teaching in the Allyn Building. In this course an effort is made to fit the student teacher to take up the work of teaching a definite class and subject without too great a

loss to the class and with a minimum loss to himself. Brief studies are made during the first half of the term in professionalizing the subject-matter of typical lines of work, and adapting it to the learning mind at different stages of development. Various school practices as embodied in the problem and project methods, directing study, etc. are presented as fully as time will permit. The work consists of library reading, reports, discussions, tests, lectures, and the making of a guide book for practice teaching.

The second half of the term is devoted to plan writing, directed observation of demonstration lessons, given by critics in several different grades, and discussions. The observation in this course is directed to a few of the most elemental and fundamental aspects involved in teaching—the subject-matter, the adaptation to the child's progress, the assignment, the teacher in the recitation, and the pupil reciting; the teacher's purpose and plan, the child's problem, and the application of the law of readiness are especially sought by the observers.

The required additional Junior College practice should follow practice one immediately. In this work the student teacher is led by progressive steps from the simple activities to those requiring greater insight and more technical skill. Here the teacher gets experience in using tests—intelligence, standard achievement, and new type. Visual education is prominent. The student gets experience in directing study. handling individual differences, and conducting extra-curricular activities. The work requires reading in the literature of the subject taught, plan writing on daily or longer units of work, and consultation with the supervisor. Elementary and junior high school group meetings are frequently held; other meetings as needed.

The student teacher is guided in his daily practice by a general rating card and has frequent comparisons of ratings with his supervisor. Rating scales in several subjects adapted to primary, intermediate, and junior high school grades are in daily use as guides.

The Brush Practice School.

The purpose of the Brush Practice School is to give Junior College students an opportunity to practice under typical graded school conditions. The school is located in the best residential portion of the city and is a little over half mile from the normal campus. It is housed in a good substantial building, which is well lighted and decorated, and fairly well equipped as an educational work shop. The enrollment is just a little under 500. The school includes grades one to seven each in charge of a regular teacher or critic.

Students spend half of each day at the Brush and receive two credits for the term. They plan their work under guidance of the critic and teach only after such plans have been corrected or approved by the critic. Directed observation is carried on twice each week during the entire term. Such observation is made after study of reading references assigned and discussion of points to be observed.

Close conferences on subject matter and methods of presentation are held as often as deemed best by the critic. These may become fewer in number as the student shows proficiency in his work. Sets of

pedagogical points and teaching concepts are presented regularly by the critics so that the student may become acquainted with the commonly accepted teaching procedures. Weekly or bi-weekly teachers' meetings are held throughout the term which serve as a clearing house for harmonizing the work of the school and for the presentation of discussions of general interest.

Students are supervised closely at all times, and especially during the beginning of the term. Gradually more responsibility is given them until they are allowed to take full charge of the room for stated periods. They work in a typical situation and when they go out to teach they feel at home in the school room.

Last year over one hundred forty students took their practice teaching work at the Brush Training School.

Rural Practice Schools.

During the year we have had charge of seven rural schools for the purpose of giving rural practice teaching to those who have elected to teach in the country, or in small villages:

The Glade School, Dist. No. 96, Jackson County.
The Wagner School, Dist. No. 136, Jackson County.
The Bridge School, Dist. No. 92, Jackson County.
The Foreville School, Dist. No. 38, Williamson County.
The Pleasant Grove School, Dist. No. 104, Jackson County.
The Buckles School, Dist. No. 98, Jackson County.
The Pleasant Hill School, Dist. No. 94, Jackson County.

One credit is given for six weeks of practice teaching. During this time the teacher puts in three and one-half sixty minute periods each day in the school. In addition to the above, students are required to submit a note book containing anything received from the course which they think might help them when they go out to teach for themselves. Plans, also, for two distinct recitations daily must be submitted and approved by the critic teachers.

For the coming year we have agreed to teach the following five rural schools, and provide each with a full-time critic:

The Wagner, Dist. No. 136, Jackson County.
The Pleasant Grove, Dist. No. 104, Jackson County.
The Bridge, Dist. No. 92, Jackson County.
The Buckles, Dist. No. 98, Jackson County.
The Pleasant Hill, Dist. No. 94, Jackson County.

All of these schools are to begin in September, one week before the opening of the College.

The course in rural practice will consist in—

(a) Attention to the purely physical phases of rural or small village schools; such as, the proper heating, lighting and ventilating of rooms; cleanliness in all its aspects; water supply; blackboards; maps; globes; libraries; toilets, etc.

(b) The beautifying of school premises, clean up days, patrons days, parent-teacher associations, club work for boys and girls.

(c) Rural health problems, play and playground activities with a touch of rural sociology.

(d) All routine factors of school management, as, the passing of lines, passing of work materials and other factors in time-saving.

(e) The use of the state course of study and some supervised study and individual instruction.

(f) The proper use of maps, globe and other apparatus.

(g) The technique of teaching Reading, Spelling, Writing, Arithmetic, Language, Geography, and History.

(h) Methods of control, proper questions to ask, etc.

Spring Quarter and Mid-Spring Term, 1932, close Friday, June 3.

First Summer Session, 1932, opens Monday, June 6.

First Summer Session, 1932, closes Friday, July 15.

Second Summer Session, 1932, opens Monday, July 18.

Second Summer Session, 1932, closes Friday, August 26.

HOMECOMING.

November
~~October~~ 20-21, 1931.

Every year one Friday and Saturday are set aside in the school's calendar when former students and friends gather for two days of fun and renewal of old acquaintenances. The big features are always the homecoming play on Friday evening, the Zetetic and Socratic Society reunions, 9:30 A. M. Saturday, and the football game at 2:30 P. M. Additional features such as athletic stunts, alumni breakfast at Anthony Hall, downtown parade, etc., are often provided.

FACULTY.

1931–32.

College.

Henry William Shryock, President

Preparation: Ph. B., Illinois Wesleyan.

Experience: Taught 3 years in public schools; 9 years in Campbell College; 18th year, S. I. S. N. U.

Martha Scott

Preparation: A. B., Park College; M. S., University of Chicago; beyond the M. S., 4 quarters of doctoral work, University of Chicago.

Experience: Taught 1 year Oregon, Ill., H. S., 2 years Park College; 3rd year, S. I. S. N. U.

CHEMISTRY

J. W. Neckers, Head of Department

Preparation: A. B., Hope College; M. S., Ph. D., University of Illinois.

Experience: Taught 2 years as student assistant, Hope College; 3 years as half-time graduate assistant, University of Illinois; 5th year, S. I. S. N. U.

George Mervin Browne

Preparation: Graduate, Massachusetts State Normal, Westfield, Mass.; 2 years, special student at Harvard; 2 years, research work in chemistry with Arthur Michaels (Tufts College).

Experience: Taught 2 years, Cook County Normal; 8 years, Oshkosh State Normal; 29th year, S. I. S. N. U.

R. A. Scott

Preparation: B. S., M. S., University of Illinois; beyond the M. S., one year of doctoral work, University of Illinois.

Experience: 9th year, S. I. S. N. U.; on leave of absence to do graduate work, University of Illinois.

T. W. Abbott

Preparation: A. B., Indiana University; A. M., Harvard University; Ph. D., University of Illinois.

Experience: Taught 5 years in public schools; 1 year, assistant at Harvard University; 2 years, instructor at Georgia School of Technology; 4th year, S. I. S. N. U.

K. A. Van Lente

Preparation: A. B., Hope College; M. S., Ph. D., University of Michigan.

Experience: Taught 4 years as graduate assistant at University of Michigan; 2nd year, S. I. S. N. U.

COMMERCIAL

T. L. Bryant, Head of Department

Preparation: B. Ed., Southern Illinois State Normal University; 18 semester hours of graduate work, State University of Iowa.

Experience: 14th year, S. I. S. N. U.

Edward V. Miles, Jr., Business Agent

Preparation: B. Ed., Southern Illinois State Normal University.

Experience: 13th year, S. I. S. N. U.

Susie Ogden

Preparation: B. Ed., Southern Illinois State Normal University; M. S., University of Illinois.

Experience: 11 years, public schools of Illinois, 4 summer sessions student assistant, S. I. S. N. U.; 1st year regular member of faculty.

EDUCATION

G. D. Wham, Head of Department, Dean of Faculty

Preparation: B. Ed., Southern Illinois State Normal University.

Experience: Taught 12 years in public schools, including 10 years as principal of high school and superintendent of schools, Olney, Ill.; 26th year, S. I. S. N. U.

Wellington A. Thalman

Preparation: A. B., Ellsworth College; A. M., Ph. D., Cornell University.

Experience: Superintendent of schools 1 year; principal and normal training critic 8 years in Iowa public schools; instructor in psychology and education in the extension schools of Iowa State Teachers College for 5 summers; instructor in education, Cornell College 1 summer; 3rd year, S. I. S. N. U.

F. G. Warren

Preparation: A. B., McKendree College; A. M., University of Chicago.

Experience: Served 1 year as Principal, Pinckneyville, Ill., H. S.; taught 3 years, Mt. Vernon, Ill., Township H. S.; 19th year, S. I. S. N. U.

Ted R. Ragsdale

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Illinois.

Experience: Seventh year, S. I. S. N. U.

ENGLISH

Emma L. Bowyer, Head of Department

Preparation: A. B., A. M., University of Chicago; 23⅓ semester hours beyond the A. M., University of Chicago.

Experience: Taught 7 years in public schools of Illinois; 20th year, S. I. S. N. U.

Elizabeth A. Cox

Preparation: A. B., A. M., Kansas University.

Experience: Taught 5 years in public schools of Kansas; 5 years in college; 12th year, S. I. S. N. U.

Frances Barbour

Preparation: A. B., A. M., Washington University, St. Louis, Mo.; one semester graduate work, Radcliff College; one year graduate work, Kings College, University of London.

Experience: Taught 2 years in public schools of Illinois, 2 years in public schools of California; 7th year, S. I. S. N. U.

Julia Jonah

Preparation: A. B., A. M., Washington University, St. Louis, Mo.; one year graduate work, Kings College, University of London.

Experience: Taught 5 years in public schools of Illinois; 1 quarter in Missouri Normal; 6th year, S. I. S. N. U.

Mary Crawford
Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Illinois.
Experience: Taught 7 years Jonesboro, Ill. H. S.; 7 years Jonesboro-Anna Community H. S.; 4th year, S. I. S. N. U.

Esther M. Power
Preparation: A. B., Colby College; A. M., Columbia University; 2 years, Oxford University, B. A. honors.
Experience: 1 year Department Head, Montreat Normal School, Montreat, N. C.; 2 years Associate Professor and Department Head, Hanover College; 1 summer State Teachers College, Maryville, Mo.; 3rd year, S. I. S. N. U.

W. Elizabeth Burk
Preparation: A. B., DePauw University; A. M., University of Chicago; 43⅓ semester hours beyond the A. M., University of Chicago.
Experience: Taught 3 years, Kansas State College; 1 year part time, University of Chicago; 1 year, University of Texas; 2 years, Butler College; 3 years, State Teachers College, Kirksville, Mo.; 1 year, Eureka College; 3rd year, S. I. S. N. U.

Thelma L. Kellogg
Preparation: A. B., A. M., University of Maine; A. M., Ph. D., Radcliffe; Summer School, Oxford University.
Experience: Taught 3 years in public schools; 5 years in the University of Maine; 3rd year, S. I. S. N. U.

Edith Smith Krappe
Preparation: A. B., A. M., State University of Iowa; 37 semester hours beyond the A. M., all work for Ph. D. completed except thesis, State University of Iowa.
Experience: 2 years graduate teaching assistant, 1 year full time instructor, University of Iowa; 3rd year, S. I. S. N. U.

Robert Dunn Faner
Preparation: A. B., Allegheny College; M. A., State University of Iowa; one summer Columbia University.
Experience: 1 year reader in English, University of Iowa; 1 year member of faculty, University of Oregon; 2nd year, S. I. S. N. U.

Charles D. Tenney
Preparation: A. B., Gooding College; A. M., Ph. D., University of Oregon.
Experience: 1 year graduate assistant, 2 years teaching fellowship, University of Oregon; 1st year S. I. S. N. U.

FOREIGN LANGUAGES

Vera Louise Peacock, Head of Department, *French*
Preparation: A. B., A. M., Ph. D., Cornell University; 1 year, University of Grenoble; Summer School, University of Perugia.
Experience: 3½ years in the public schools of New York state; 2nd year, S. I. S. N. U.

J. M. Pierce, *German*
Preparation: A. B., Washington University, St. Louis, Mo.; A. M., Harvard.
Experience: Taught 5 years in public schools of Illinois and Missouri; 1 year in Boston High School; 34th year, S. I. S. N. U.

Helen A. Baldwin, *Latin*
Preparation: A. B., Denison; A. B., University of Chicago; A. M., Denison; 7 majors beyond the A. M., University of Chicago.
Experience: Taught 15 years, Joliet Twp. H. S.; 14th year, S. I. S. N. U.

Fuller Combs, *Latin*
Preparation: A. B., Wabash College; A. M., Indiana University; beyond the A. M., 2 semester hours University of Washington and 11 units University of California.
Experience: Taught 16 years in public high schools of Indiana, Montana, and Oregon; 9th year S. I. S. N. U.

Madeleine Smith, *French*
Preparation: A. B., A. M., Northwestern University; 1 summer, Sarbonne.
Experience: 3rd year, S. I. S. N. U.

GEOGRAPHY

Frank H. Colyer, Head of Department
Preparation: A. B., University of Indiana; M. S., University of Chicago.
Experience: Taught 8 years in public schools; 35th year, S. I. S. N. U.

Marjorie Mae Shank
Preparation: A. B., University of North Dakota; A. M., Clark University; six weeks, University of Chicago; one quarter, London School of Economics.
Experience: Taught 3 years in public schools of North Dakota; 9th year, S. I. S. N. U.

Flemin W. Cox
Preparation: A. B., M. A., University of Illinois; beyond the M. A., two years of doctoral work, one at University of Illinois; one as fellow in geography in Graduate School of Geography, Clark University, 1927-1928.
Experience: Principal and superintendent in public schools of Illinois 9 years; taught 6 years, University of Illinois; 2 summer terms at State Teachers College, Emporia, Kansas; 2 summer terms, George Peabody College for Teachers; 3rd year, S. I. S. N. U.

Annemarie E. Krause
Preparation: B. S., University of Minnesota; M. S., University of Illinois.
Experience: Taught 3 years in public schools; 2 years at the University of Illinois; 2nd year, S. I. S. N. U.

HISTORY

Richard L. Beyer, Head of Department

Preparation: A. B., Allegheny College; M. A., Ph. D., State University of Iowa.

Experience: 2 years as conference instructor, State University of Iowa; 3rd year, S. I. S. N. U.

George W. Smith

Preparation: 18 weeks, Cook County Normal School; 2 years Blackburn University; A. M. (Honorary) Blackburn University.

Experience: Taught 13 years in public schools; 7 years in Training School, S. I. S. N. U.; 35th year, History Department, S. I. S. N. U.

E. G. Lentz

Preparation: A. B., Indiana University. On leave of absence for graduate work, University of Illinois.

Experience: Served 11 years as principal and superintendent of public schools; 17th year, S. I. S. N. U.

Sara Baker

Preparation: B. Ed., Southern Illinois State Normal University; M. A., Columbia University.

Experience: Taught 6 years in public schools of Illinois; 4th year, S. I. S. N. U.

Charles J. Pardee

Preparation: A. B., Hiram College, Hiram, Ohio; B. D., Union Theological Seminary, New York City; A. M., University of Chicago.

Experience: 3rd year, S. I. S. N. U.

Russell M. Nolan

Preparation: A. B., M. A., Missouri University; 8 semester hours beyond the M. A., Missouri University. On leave of absence to do graduate work, Washington University.

Experience: 6 years high school teaching; 3rd year, S. I. S. N. U.

Clarence H. Cramer

Preparation: A. B., B. S. in Ed., A. M., Ph. D, Ohio State University

Experience: 2 years graduate assistant, Ohio State University; 1st year, S I. S. N. U.

HOUSEHOLD ARTS

Lucy K. Woody, Head of Department

Preparation: B. S., M. A., Teachers College, Columbia University.

Experience: Two summers, Teachers College, Columbia University; 20th year, S. I. S. N. U.

Mary Louise Fry

Preparation: A. B., University of Illinois; 18 semester hours graduate work, Iowa State College of Agriculture and Mechanic Arts. On leave of absence the fall term to complete work for a master's degree.

Experience: 3rd year, S. I. S. N. U.

INDUSTRIAL ARTS

Louis C. Petersen, Head of Department

Preparation: B. S., Northwestern University; beyond the B. S., 6 weeks, Cornell University.

Experience: Taught 1 year N. W. Military Academy; 1 year in high school, Seattle, Washington; 3 years, Oklahoma State Normal; 23rd year, S. I. S. N. U.

MATHEMATICS

W. T. Felts, Head of Department

Preparation: B. Ed., Southern Illinois State Normal University; should receive Ph. B., University of Chicago, Fall Convocation, 1931.

Experience: Taught 9 years in public schools; 31st year, S. I. S. N. U.

Alice Kelsey Wright

Preparation: A. B., Indiana University; A. M., University of Illinois.

Experience: Taught 1 year in Indiana public schools, 2 years in University of Illinois; 7th year, S. I. S. N. U.

J. R. Purdy

Preparation: B. S., M. A., Kenyon College; Ph. D., University of Illinois.

Experience: Taught 1 year in public school; 4 years part time assistant in mathematics, University of Illinois; 3rd year, S. I. S. N. U.

MUSIC

David S. McIntosh, Head of Department

Preparation: B. M. E., Northwestern University, School of Music; six weeks graduate work, University of Iowa.

Experience: Taught 2 years in public schools of Indiana; 2 years in public schools of Illinois; 5th year, S. I. S. N. U.

Julia Chastaine

Preparation: Graduate, Chicago Musical College; B. Ed., Southern Illinois State Normal University; 1 minor, University of Chicago.

Experience: 17th year, S. I. S. N. U.

Helen E. Matthes

Preparation: 1 year, Chicago Musical College.

Experience: 11th year, S. I. S. N. U.

Wendell Margrave
Preparation: B. Ed., Southern Illinois State Normal University; 30 weeks of graduate work, University of Chicago.
Experience: 3rd year, S. I. S. N. U.

PHYSICAL EDUCATION FOR MEN

William McAndrew, Head of Department
Preparation: A. B., Vincennes University; LL. B., Cumberland University; 20 weeks of special summer work in coaching courses.
Experience: Taught 1 year, Vincennes University; 2 years Lawrenceville Twp. H. S.; 15th year, S. I. S. N. U.

Leland P. Lingle
Preparation: B. Ed., Southern Illinois State Normal University; M. S., University of Iowa.
Experience: Served 4 years as Principal, Sikeston, Mo., H. S.; 5th year, S. I. S. N. U.

Vincent G. DiGiovanna
Preparation: B. P. E., Springfield College; M. A., New York University.
Experience: Coach of baseball, Berkshire School, 1 year; 3rd year, S. I. S. N. U.

PHYSICAL EDUCATION FOR WOMEN

Frances D-L. Etheridge, Head of Department
Preparation: A. B., B. S., University of Illinois.
Experience: Taught 1 year in public schools of Kentucky; 7th year, S. I. S. N. U.

Dorothy M. Muzzey
Preparation: B. A., Iowa State Teachers College; 28 semester hours graduate work, State University of Iowa.
Experience: Taught 3 years, Iowa State Teachers College; 4th year, S. I. S. N. U.

Aileen Carpenter
Preparation: B. S., A. M., Iowa State University.
Experience: 3rd year, S. I. S. N. U.

PHYSICS AND ASTRONOMY

S. E. Boomer, Head of Department
Preparation: A. B., A. M., University of Illinois.
Experience: Taught 10 years in public schools; 2 years in University of Illinois Academy; 21st year, S. I. S. N. U.

Charlotte Zimmerschied
Preparation: A. B., A. M., University of Minnesota; 4 majors beyond the A. M., University of Chicago and University of Minnesota.
Experience: Taught 2 years, University of Minnesota; 3 years in public schools; 1 year in private school; 5th year, S. I. S. N. U.

O. B. Young

Preparation: A. B., Wabash College; A. M., Ph. D., University of Illinois.

Experience: Taught 3 years in public high schools; 3 years part time graduate assistant, University of Illinois; 2 summer terms, Illinois State Normal University; 1 year, McKendree College; 3rd year, S. I. S. N. U.

PHYSIOLOGY AND HEALTH EDUCATION

Delia Caldwell

Preparation: M. D., Northwestern University.

Experience: Taught 7½ years in public schools; practiced medicine 25 years; 11th year S. I. S. N. U.

Florence E. Denny, School Nurse

Preparation: B. Ed., Southern Illinois State Normal University; graduate, School of Nursing, Beth-El Hospital, Colorado Springs, Colorado; affiliated 3 months with Children's Hospital, Denver; registered nurse, Colorado and Illinois.

Experience: Taught 5 years in public schools of Kansas; instructor of nurses 1 year, Beth-El Hospital; 4 years, Holden Hospital, Carbondale, Ill.; 3rd year, S. I. S. N. U.

POLITICAL SCIENCE

Willis G. Swartz, Head of Department

Preparation: B. A., M. A., Ph. D., State University of Iowa; 1 year graduate work, Clark University.

Experience: Head of department two years, Sterling College; taught 10 weeks Penn College; 1 year at Oregon State College; 2nd year, S. I. S. N. U.

ZOOLOGY

Mary M. Steagall, Head of Department

Preparation: Ed. B., Ph. B., M. S., Ph. D., University of Chicago.

Experience: Taught 11 years in public schools; 8 years, State Normal, Ypsilanti, Mich.; 24th year, S. I. S. N. U.

Hilda A. Stein

Preparation: B. Ed., Southern Illinois State Normal University; M. S., University of Illinois; beyond the M. S., one summer Marine Station, Friday Harbor, Wash, 1 year of doctoral work, University of Illinois.

Experience: 10 years, public schools of Illinois; 7th year, S. I. S. N. U.

PRACTICE DEPARTMENT.

Bruce W. Merwin, Supervisor of Student Teaching

Preparation: A. B., B. S. of Education, A. M., Ph. D., Kansas University.

Experience: Served 11 years as principal and superintendent of public schools; 3 years as assistant curator, University of Pennsylvania Museum; 1 year as instructor in Education, University of Kansas 5th year, S. I. S. N. U.

Senior High School.

ENGLISH

Florence A. Wells

Preparation: B. Ed., Southern Illinois State Normal University; 24 semester hours of graduate work, University of Illinois.

Experience: Taught 6 years in grade schools of Illinois; 3 years, Marissa Twp. H. S.; 8 years, principal, Coulterville High School; 5th year, S. I. S. N. U.

CHEMISTRY AND AGRICULTURE

C. C. Logan

Preparation: B. S., University of Illinois.

Experience: 6 years in soil investigations and research in Illinois; 12 years in Agricultural Extension Service in Illinois; and North Carolina; 9th year, S. I. S. N. U.

HISTORY

John I. Wright

Preparation: Ph. B., University of Chicago; 20 semester hours beyond the Ph. B., University of Chicago.

Experience: Taught 4 years in public schools of Illinois; 7th year, S. I. S. N. U.

MATHEMATICS

Alberta Gibbons

Preparation: A. B., University of Illinois; A. M., Columbia University; beyond the A. M., 8 semester hours, Columbia University, University of Chicago; George Peabody College for Teachers.

Experience: Taught 3 years in public schools of Illinois including 2 years as superintendent of schools; 1 year, State Teachers College, Kearney, Nebraska; 6th year, S. I. S. N. U.

FOREIGN LANGUAGE

J. Cary Davis

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Chicago.

Experience: Taught 2 years in public schools; 2nd year, S. I. S. N. U.

MANUAL TRAINING

J. Henry Schroeder

Preparation: B. Ed., Southern Illinois State Normal University; 11 semester hours of graduate work, State University of Iowa.

Experience: Taught 3 years in public schools; 2 years, Community High School, Carbondale, Illinois; 9th year, S. I. S. N. U.

COMMERCIAL

Emma Francis

Preparation: B. Ed., Southern Illinois State Normal University.

Experience: 8th year, S. I. S. N. U.

Allyn Training School.

W. A. Furr, Superintendent

Preparation: A. B., A. M., Indiana University.

Experience: Superintendent of Schools, Veedersburg, Ind., 4 years; Superintendent of Schools, Ottawa, Ill., 6 years; Superintendent of Schools, Jacksonville, Ill., 8 years; lecturer in Education, Illinois College, 2 years; 19th year, S. I. S. N. U.

Dilla Hall, Principal and Critic, Junior High School

Preparation: B. Ed., Southern Illinois State Normal University; residence work for M. S. complete, University of Chicago.

Experience: Taught 4 years in public schools; 8th year, S.I.S.N.U.

Madge Troutt, Critic, Junior High School

Preparation: B. Ed., Southern Illinois Normal University; A. M., University of Chicago.

Experience: Taught 3 years in public schools; 8th year S. I. S. N. U.

Lydia Ragsdale, Critic, Junior High School

Preparation: B. Ed., Southern Illinois State Normal University; A. M., University of Illinois.

Experience: 7th year, S. I. S. N. U.

Ora Rogers, Critic, 6th Grade

Preparation: B. Ed., Southern Illinois State Normal University; 18 semester hours of graduate work, University of Illinois.

Experience: Taught 10 years in public schools; 4th year, S. I. S. N. U.

Mary E. Entsminger, Critic, 5th Grade

Preparation: Graduate, Junior College, Southern Illinois State Normal University; Ph. B., University of Chicago.

Experience: Taught 9 years in public schools 10th year, S. I. S. N. U.

Theresa Keidel, Critic, 4th Grade
Preparation: A. B., A. M., University of Chicago.
Experience: Taught 6 years in public schools; principal of an elementary school 5 years; 3rd year, S. I. S. N. U.

Lulu R. Clark, Critic, 3rd Grade
Preparation: Graduate, Junior College, Southern Illinois State Normal University; 30 semester hours, Teachers College, Columbia University.
Experience: Taught 17 years in public schools; 15th year, S. I. S. N. U.

May S. Hawkins, Critic, 2nd Grade
Preparation: B. Ed., Southern Illinois State Normal University; 35 semester hours, University of Chicago.
Experience: Taught 9¾ years in public schools; served 20 years as county superintendent of schools; 5th year, S. I. S. N. U.

Florence R. King, Critic, 1st Grade
Preparation: Graduate, State Normal and Training School, Oswego, N. Y.; 6 weeks, University of Minnesota; 24 weeks, University of Chicago.
Experience: Taught 3 years in State Normal School, Stevens Point, Wis.; 21st year, S. I. S. N. U.

Brush Training School

W. G. Cisne, Superintendent
Preparation: Ph. B., University of Wisconsin; 20 semester hours of graduate work, University of Chicago.
Experience: Taught 11 years in public schools; served as county superintendent 8 years; 16th year, S. I. S. N. U.

Mae L. Fox, Critic
Preparation: B. Ed., Southern Illinois State Normal University; 15 semester hours of graduate work, University of Chicago.
Experience: Taught 11 years in public schools; 8th year, S. I. S. N. U.

Grace Wilhelm, Critic
Preparation: B. Ed., Southern Illinois State Normal University; 5 semester hours of graduate work, University of Chicago.
Experience: Taught 9 years in public schools; 8th year, S. I. S. N. U.

Verna Gent, Critic
Preparation: B. Ed., Southern Illinois State Normal University.
Experience: Taught 9 years in public schools; 7th year, S. I. S. N. U.

Mary Goddard
Preparation: B. Ed., Southern Illinois State Normal University; on leave of absence for graduate work, University of Chicago.
Experience: Taught 8 years in public schools; 3rd year, S. I. S. N. U.

Mabel Eads, Critic
Preparation: B. Ed., Southern Illinois Normal University; 5 semester hours of graduate work, University of Chicago.
Experience: Taught 3 years in public schools; 3rd year, S. I. S. N. U.

Jewell Trulove
Preparation: B. Ed., Southern Illinois State Normal University.
Experience: 2nd year, S. I. S. N. U.

Dora Bevis, Critic
Preparation: B. Ed., Southern Illinois State Normal University.
Experience: Taught 3 years in public schools; 6th year, S. I. S. N. U.

Maude Mayhew, Critic
Preparation: Ph. B., University of Chicago; 6 weeks, Teachers College, Columbia University.
Experience: Taught 13 years in public schools; 8th year, S. I. S. N. U.

Tina Goodwin, Critic
Preparation: B. Ed., Southern Illinois State Normal University; 10 semester hours of graduate work, University of Chicago; 6 weeks, Teachers College, Columbia University.
Experience: Taught 11 years in public schools; 7th year, S. I. S. N. U.

Rural Training Schools.

W. O. Brown, Superintendent
Preparation: A. B., Dixon College, Dixon, Ill.; 12 weeks, University of Wisconsin; 6 weeks, Columbia University; 24 weeks, University of Chicago.
Experience: Taught 17 years in public schools of Illinois; served 12 years as county superintendent of schools; 18th year, S. I. S. N. U.

Troy Stearns, Critic
Preparation: B. Ed., Southern Illinois State Normal University. On leave of absence for one year to do graduate work, University of Michigan.
Experience: 3rd year, S. I. S. N. U.

Ruth Husband, Critic
Preparation: B. S., University of Illinois; 16 semester hours graduate work, University of Illinois.
Experience: Taught 1 year in public schools; 3rd year, S. I. S. N. U.

Emerson Hall, Critic
Preparation: B. Ed., Southern Illinois State Normal University; 11 semester hours of graduate work, University of Iowa; on leave of absence to do graduate work.
Experience: Taught 6½ years in public schools of Illinois; 3rd year, S. I. S. N. U.

Mabel Goddard Bracewell, Critic
Preparation: B. Ed., Southern Illinois State Normal University.
Experience: 3 years in public schools of Illinois; 2nd year, S. I. S. N. U.

Gladys Smith, Critic
Preparation: B. Ed., Southern Illinois State Normal University; A. M., Teachers College, Columbia University.
Experience: 10 years in public schools of Illinois; 1st year, S. I. S. N. U.

George Bracewell, Critic
Preparation: B. Ed., Southern Illinois State Normal University; A. M. University of Michigan.
Experience: 2 years in public schools of Illinois; 1st year, S. I. S. N. U.

LIBRARY

Fay Hart
Preparation: A. B., Illinois College; B. L. S., University of Illinois School of Library Service.
Experience: 2 years, assistant in loan department, University of Illinois Library; 1 year, head of circulation department; 1 year, branch librarian, Hibbing Public Library, Hibbing, Minnesota.

Opal Stone
Preparation: B. S. in Ed., Northwest Mo. State Teachers College; B. S. in Library Science, University of Illinois.
Experience: Taught 5 years in high schools of Missouri; 2nd year, S. I. S. N. U.

Estella Roy
Preparation: A. B., Oberlin College; B. S. in Library Science, University of Illinois; 1 year, circulation department, University of Illinois Library; 2nd year, S. I. S. N. U.

Katherine Fox
Preparation: A. B., University of Illinois; B. S. in Library Science, University of Illinois.
Experience: Taught 1 year in public school; 1st year, S. I. S. N. U.

GENERAL INFORMATION.

History.

According to a volume entitled "History of Jackson County," published by S. E. Harwood in 1878, it appears that the idea of a training school for teachers in southern Illinois had its earliest inception in 1868 in a meeting of teachers at an institute at Salem, Illinois. In 1870 the General Assembly passed a bill for the appropriation of $75,000 for the construction of a building.

Citizens of Carbondale and other residents of Jackson County who were interested in the establishment of a normal school here contributed enough money to increase the original available funds to a total of $210,000. The first building was erected on the present campus, a thirteen-acre tract of land at the southern limits of Carbondale. It was completed in 1874 at a cost of $265,000. On July 2 of that year instruction began with Dr. Robert Allyn as President of the Faculty.

On the afternoon of November 26, 1883, this original building was almost completely destroyed by fire. Within sixty days a temporary building was completed and occupied. The original building was soon restored and was occupied in February 1887, the present Main Building.

In 1892 Dr. Allyn retired and was succeeded by Professor John Hull, who had been a member of the faculty since 1875. Mr. Hull was succeeded as President by Dr. H. W. Everest, whose term of service extended to 1897. Within his administration the Science Building was erected. Dedication exercises were held December 22, 1896.

In 1897 Dr. Daniel B. Parkinson, who had been a member of the faculty since the opening of the college, succeeded Dr. Everest to the presidency. On June 6, 1904, Judge S. P. Wheeler, President of the Board, dedicated the library building, which was later named in his honor because of his assistance in securing the appropriation for its erection. The training school building, later named in honor of Dr. Allyn, was dedicated January 11, 1909. A woman's building, now called Anthony Hall after Susan B. Anthony, was dedicated by President H. W. Shryock on October 23, 1913 as part of the ceremonies of his installation as president.

The State Farm, a ninety-eight acre tract, lying to the south of the campus, and separated from it by a row of houses on Harwood Avenue, was purchased in part under the Parkinson administration and the remainder under the present one. The Auditorium, Gymnasium, and Chemical and Manual Arts buildings were successively occupied in 1918, 1925, and 1930. In 1930, as a result of a movement started by members of the alumni, the Normal School Board approved the naming of the auditorium after President Shryock.

When the Southern Illinois Normal University opened for its first regular session on September 6, 1874, the only requirement

for admission was graduation from the eighth grade. Through a long period of struggle the requirements were gradually raised until high school graduation was required for entrance. In 1913 the Southern Illinois Normal University obtained recognition by the North Central Association as a teacher training institution, but not until 1931 was it transferred to the fully accredited list of Colleges and Universities. In 1928 it received class A rating in the American Association of Teachers Colleges, and in 1930 this same rating was accorded it by the University of Illinois.

The number of students and graduates has increased as the standards have been raised. Between July 1, 1930 and June 30, 1931, 100 degrees were conferred, a larger number than the total number of diplomas issued to all the graduates of the Four-Year Course for eighth grade graduates in the first thirty-five years of the history of the institution.

Terms of Admission.

All applicants for admission must present evidence of good moral character and, to secure free tuition, they must agree to teach in the public schools of the State for a time not less than that covered by their attendance upon the school. This agreement must not be entered upon unless the applicant fully intends to teach. It may become void, however, if engagement to teach cannot be secured by reasonable effort. In case of a permanent change in plan, the individual is expected to pay to the registrar of the Institution the difference between the regular tuition for the entire time and the incidental fees he has paid.

All other entrance requirements and all graduation requirements are provided for in the following rules adopted by the Board of Trustees of the five Normal Schools:

1. Graduates of any recognized four-year high school or academy may be admitted to any standard two-year or other curriculum of college rank.

2. Fifteen units of entrance credit from a recognized high school shall be the minimum requirement for admission to such standard curriculums of college rank.

All credentials shall be filed in advance of registration.

Following are the requirements for college entrance:

List A—Required.

English I, II, III	3 years
Algebra I	1 year
Plane Geometry	1 year
	5 years

List B—Elective.

English IV	1 year
Advanced Algebra	½ year
Solid Geometry	½ year

Latin	2 to 4 years
German	2 to 4 years
French	2 to 4 years
Spanish	2 to 4 years
Italian	1 to 2 years
Ancient History	1 year
Mediaeval and Modern History	1 year
English History	½ to 1 year
American History	½ to 1 year
Civics	½ to 1 year
Economics and Economic History	½ to 1 year
Commercial Geography	½ to 1 year
Physiography	½ to 1 year
Physics	1 to 2 years
Chemistry	1 to 2 years
Zoology	½ to 1 year
Botany	½ to 1 year
Physiology	½ to 1 year

List C—Additional Electives.

General Science	½ to 1 year
Astronomy	½ year
Geology	½ to 1 year
Drawing, Art and Design	½ to 1 year
Drawing, Mechanical	½ to 1 year
Manual Training	1 to 2 years
Agriculture	1 to 3 years
Domestic Science	1 to 3 years
Music	1 to 2 years
Bookkeeping	1 year
Business Law	½ year
Commercial Arithmetic (only after Algebra)	½ year
Shorthand and Typewriting (together)	1 to 2 years

Of 15 year credits required for entrance, the 5 units of List A are prescribed for all courses. Of the 10 units that remain, 6 must be selected from List B. The remaining 4 units may be selected from List B or List C or both.

ADVANCED STANDING.

1. Credits for advanced standing may be obtained:
   a. By transfer from recognized higher institutions.
   b. By examination.
      (In order to pass off a subject by examination the student must apply to the President for permission, and no examination may be given to any student except at the beginning of the student's school year).
   c. By earning the credit by work done in, or under the direction of the normal school.

2. Students coming from state normal schools in other states whose standards are the same as obtain in Illinois, may receive full credit for the work accomplished in such schools.

3. Students from city teacher-training schools in Illinois shall receive credit only after the training school has been inspected by a member of the faculty of the normal school in whose supervision district the training school lies, and his recommendation confirmed by the action of the normal school presidents' council.

4. No credits shall be given for high school work in excess of the units required for graduation.

5. No credit except by examination shall be given for work done in business college or like unrecognized institutions unless such credit is recommended by the teacher in the normal school in whose class the student has done one term's work.

6. Graduates of recognized colleges and universities may be admitted to a one-year curriculum.

7. Undergraduates of recognized colleges and universities may enter the normal school and receive credit for such of their college work as will apply to the curriculum upon which they enter.

College Entrance Examinations.

College entrance examinations may be taken only at the beginning of the student's school year. Students who wish to enter the college but whose high school work is incomplete may make up by these examinations any deficiency, provided it does not exceed 10 of the 15 year credits required for entrance. Entrance examinations are not given in the laboratory subjects such as Chemistry, Physics, Biology, Manual Arts, Agriculture, Domestic Science.

Any person who wishes to take these examinations must apply in writing at least two weeks before the examinations, submitting an official list of the high school credits already earned and stating the subjects in which the candidate wishes to be examined. No examination may be taken in a subject for which the student already holds college credit.

The student's credits earned in high school and by these examinations must satisfy the entrance requirements of the college which are given on page 22 of this catalog.

The questions of these examinations will be based on the description of courses in the high school manual of the University of Illinois. A copy of this manual may be seen in the office of the local high school principal or in some cases may be obtained from the University. Additional information may be obtained by writing this school.

Graduation.

Every candidate for graduation must file application with the Registrar not later than the beginning of the Spring Term.

Each candidate should appear before the Committee on Graduation to have his record checked at least ninety days before the date of his expected graduation.

Course Numbers.

The course numbering system is as follows: 100-199 freshman courses; 200-299 sophomore courses; 300-400 junior and senior courses. As a matter of convenience, for the present, the old numbers are printed immediately following the new.

Unit of Credit.

A term-credit represents the work done by a student in a course pursued for a term of twelve weeks, four hours a week, and is the equivalent of four quarter hours, or two and one-half semester hours. Since September, 1930, the periods have been one hour in length. Previous to that time one term-credit represented the work done by a student in a course pursued for a term of twelve weeks, five forty-five minute periods a week.

Failures.

At the first opportunity a student must repeat in class a required course in which he has failed. In a course continuing through two or more quarters, a failure in any quarter must be removed by successful repetition in class before the student will be admitted to the work of the succeeding quarter.

Certification.

You are asked to note carefully following sections from the certificating law:

Sec. 6. Limited certificates shall be as follows:

First. A limited supervisory certificate shall be valid for four years for teaching and supervising in any and all grades of the common schools. It shall be issued to persons who have completed 120 semester hours of work in a recognized higher institution of learning including 15 semester hours in education and who have taught successfully for four years in the common schools. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 60 semester hours of work in a recognized higher institution of learning and who have taught successfully for four years in the common schools. The examination shall include English, educational psychology, sociology, the principles and methods of teaching and school administration. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 90 semester hours and a second time upon certified evidence that the applicant has completed the requirements for a bachelor's degree in a recognized higher institution of learning with a minimum of 120 semester hours. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Second. A limited high school certificate shall be valid for four years for teaching and supervising in the higher six grades of the com-

mon schools. It shall be issued to graduates of a recognized higher institution of learning with a bachelor's degree whose college credits shall include the following: Fifteen semester hours in education, and electives sufficient to make up 120 semester hours. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 60 semester hours of work in a recognized higher institution of learning. The examination shall include English, educational psychology, the principles and methods of secondary education and seven high school subjects chosen from a list prescribed by the Examining Board, one subject shall be chosen from each of the following groups: (1) mathematics, (2) history, (3) science, (4) foreign language or English literature, or American literature. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 90 semester hours, and a second time upon certified evidence that the applicant has completed the requirements for a bachelor's degree in a recognized higher institution of learning with a minimum of 120 semester hours. Thereafter it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Third. A limited special certificate shall be valid for four years for teaching and supervising the special subject or subjects named in the certificate in any and all grades of common schools. It shall be issued to persons who have completed 60 semester hours of work in a recognized higher institution of learning including 12 semester hours in education and 20 semester hours in each subject named in the certificate. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized higher institution of learning. The examination shall include English, the principles and methods of secondary education and the special subject or subjects named in the certificate. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 60 semester hours of work in a recognized higher institution of learning including not less than 20 semester hours in each of the special subjects named in the certificate. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Fourth. A limited kindergarten-primary certificate shall be valid for four years for teaching and supervising in the kindergarten and in the first and second grades of the common schools. It shall be issued to graduates of a recognized kindergarten-primary training school who have completed 60 semester hours of work in such institution. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized kindergarten-primary training school. The examination shall in-

clude English and the theory and practice of kindergarten and primary work. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed the remaining 30 semester hours of work required for graduation from a recognized kindergarten-primary training school. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Fifth. A limited elementary school certificate shall be valid for four years for teaching and supervising in the lower ten grades of the common schools. It shall be issued to persons who have completed 60 semester hours of work in a recognized higher institution of learning including 10 semester hours in education, 5 of which shall be practice teaching. It shall be renewable for periods of four years upon successful teaching experience and professional growth.

This certificate shall be issued upon a successful examination to applicants who have completed 30 semester hours of work in a recognized higher institution of learning including 5 semester hours in education. The examination shall include: Physiology, penmanship, grammar, reading, orthography, geography, History of the United States, Illinois history and civics, arithmetic, the State Course of Study, principles and methods of teaching, general science, algebra, English, European history, and two of the five sciences; botany, zoology, physics, chemistry and physiography. When obtained by examination this certificate shall be renewable once upon certified evidence that the applicant has completed a total of 60 semester hours of work in a recognized higher institution of learning. Thereafter, it shall be renewable for periods of four years upon successful teaching experience and professional growth.

Expenses.

The State Normal School Board has established the following regulations in the matter of fees paid by students enrolled in any of the State Teachers Colleges of Illinois. The paragraphs below are taken from the minutes of the Normal School Board meeting held at Carbondale, Ill., April 29, 1926:

1. The total fees to be charged a student in any of the Normal Schools shall not exceed the maximum sum of $15.00 per term.

2. A pledge shall be exacted from all students attending any of the Normal Schools of the State of Illinois to teach in the public schools of Illinois for a period equal to the time spent in said schools.

3. While the Normal Schools are organized primarily for the training of teachers, the demands at present seem to justify admitting students who do not pledge themselves to teach, and all such students shall be required to pay tuition fee of not less than $25.00 per term, which is the same fee as that provided for high school students.

4. The following is a schedule of fees for special services:

GENERAL FEES.

	Amount.	
1. Registration fee (paid by all except ex-service men and holders of township scholarships)	$3.00	Uniform
2. Towel fee (paid by all students taking gymnasium courses)	1.00	Uniform
3. Library fee	1.00	Uniform

PENALTIES.

1. Late Registration	$1.00	Uniform
2. Change of program after third day	1.00	Uniform
3. Original transcript and carbon copy	1.00	Optional
4. Library Fines		Optional
5. Breakage, etc.		Optional

STUDENT ACTIVITY FEES.

The student activity fees are set by the various student bodies. They have been fixed for 1931-32, to be collected during the Fall, Winter, and Spring quarters.

1. Athletic fee	2.00 ~~$1.00~~
2. Egyptian fee	.25
3. Obelisk fee	1.00

FEES FOR SPECIAL SERVICES.

1. Chemistry	Not to exceed actual cost	Optional
2. Physics		
3. Biology		
4. Home Economics		
5. Manual Training		
6. Art		
7. Use of Typewriter		
8. Lessons in Voice		
9. Lessons on Violin, Piano, Organ, etc.		
10. Extension Courses		
11. Correspondence Courses		

5. There shall be no fee for diploma.

Anthony Hall.

With the beginning of the Fall Term, 1913, the Woman's Building, Anthony Hall, was opened. This model school home for girls will accommodate about seventy students. It was erected and furnished at a cost of $75,000, and every possible provision has been made for the comfort, safety and well being of its inmates. Board and lodging in this ideal boarding house will be furnished at $7.00 per week. We reserve the right to charge a higher rate if it becomes necessary.

A deposit fee of $5.00 must accompany each application for room, and this deposit will under no circumstances be refunded.

Other Student Homes in Carbondale.

Much of a student's success depends upon the conditions at his boarding and rooming place. He must have not only fresh air, pure water, wholesome food, even temperature and good light in his study room, but also favorable conditions for study and for sleep. The following conditions as applied to rooming places meet the approval of the faculty:

On the part of the householder—

1. Men and women not to room in the same house.
2. Premises hygienically clean and supplied with good, sanitary water.
3. Good light in study rooms and rooms heated to not less than 68 degrees.
4. Telephone accessible.
5. Parlor furnished at reasonable times.
6. Reports to the University authorities of the illness of students, and of habits of study, sleep, or recreation on the part of students if these are likely in any way to injure the health, reputation or character of the student, or to interfere with the success of his work in school, or to bring discredit upon the school.

On the part of the student—

1. Quiet and order in the house at all times.
2. Proper care of furniture and premises.
3. Repair of damages beyond ordinary wear.
4. Householder to be notified when students expect to be away from the house later than 10:30 P. M.
5. Absence from town to be reported to the householder and address left.
6. Vigorous co-operation on the part of both student and householder, in cases of contagious diseases within the house, to prevent the exposure of others and the spread of the disease.

There are three modes of living practiced by the students.

1. Board and room in the same house. The cost of board and room is from $6.00 to $9.00 per week.
2. Room with light-housekeeping. Students who practice light-housekeeping are able to reduce their living expenses as low as $4.00 a week.
3. Rooms without the privilege of light-housekeeping. Such rooms, two persons to the room, cost $1.50 to $2.50 per week per person.

Except in unusual cases, the committee believe that two occupants in a room secures the best results. Be sure to have it clearly understood how many are to occupy a room with you and how many occupants there will be in the house.

No contract for a room will be considered binding unless a deposit amounting to one week's rental shall be paid. Said deposit need not be returned unless the renter has good reasons for failing in his part, and not then except he notify said landlady three days before the term of school opens.

Many serious complications will be avoided if students will consult the Housing Committee before engaging rooms. Some houses, now open to students, *are not recommended by the committee.* The committee urges students to secure a copy of the house regulations:

Committee:

E. G. Lentz, 520 S. Normal Ave.
W. M. Bailey, 506 S. Poplar St.
George M. Browne, 902 S. Normal Ave.
Lucy K. Woody, 716 S. Normal Ave.

Literary Societies.

Zetetic and Socratic.

Within the first term of the first year of the Institution, September, 1874, the Zetetic Literary Society was organized. Later in the year a sister organization was planned for, and in due time was thoroughly established and christened the Socratic Literary Society. These have a large membership and are well attended.

The more elaborate exhibition of what these societies are able to do is annually given to the public on Monday and Tuesday evenings of Commencement Week.

The varied programs of these literary societies from week to week add very materially to the work of the English department in securing additional practice in the delivery of original and other matter, and in the opportunity for becoming acquainted with parliamentary usages, thus fitting the student for more intelligent service in the communities in which he may labor.

The Faculty and Board of Trustees foster, with much care, the best interests of these valuable adjuncts to the literary work of the Institution. Their usual time of meeting is on Wednesday evening of each week in the halls provided by the School.

Attendance Upon Church.

Students are urged to identify themselves at an early date after entering the Normal School, with some church of the city. It is assumed, of course, that the student will affiliate with the church to which he belongs at home, or with which he is most in sympathy as to doctrine and modes of worship.

Christian Associations.

The Young Men's Christian Association and the Young Women's Christian Association both have well-conducted organizations, which meet weekly in rooms fitted for their use on the third floor in the new Chemical and Manual Arts Building. Their committees look after new students upon their arrival, and those who may be sick while attending school, and in many ways minister to the wants of their fellow students. Several classes in Bible study are maintained by these societies. The State college secretaries of each of these branches of Christian work pay the Institution a visit twice a year, or oftener, for conference and

direction of work. New students upon their arrival may recognize the representatives of these associations by special badges worn, indicating their willingness to render their kindly services whenever needed. These persons may be trusted implicitly in directing strangers to boarding houses and clubs.

School Health Service.

DELIA CALDWELL, M. D.

FLORENCE DENNY, R. N., B. ED.

This department was established at the beginning of the school year 1920-21 and was placed in charge of a graduate physician of wide experience in general practice.

It is the province of the department to have a general supervision of the health of the students. The physician in charge has an office in the school, keeping office hours, during which any student may have the benefit of diagnosis and advice on any medical point. Instructions will be given about the care of the health and methods of treating cases of simple illness. It is not the policy of the department to prescribe or to give specific professional assistance, except to render first aid in cases of accidental injury or sudden illness occurring during school activities. All students requiring medical services beyond this are referred to outside physicians, wherever possible, to the family physician of the student.

An important part of the work of this department is to guard against the spread of communicable disease in the school. Every effort is made to detect such diseases in their incipiency and to promptly exclude such cases from the school, in accordance with the requirements of the State Department of Health.

Another part of the health service of the school is the physical examination of every student who registers in the school, which was initiated at the beginning of the school year 1926-27, and is a required part of the school work.

The value of this department has been increased by the addition, the past year, of a registered, graduate nurse. The nurse has assisted in caring for cases of illness in the school and in helping in the carrying out of such cases of quarantine as were necessary. She has had especial care and supervision of the health of the children in our training school.

THE LIBRARY.

Wheeler Library has a working collection of 31,200 books and 2,075 pamphlets. Both books and pamphlets are classified according to the Dewey decimal system. The dictionary catalog has three entries (author, title, and subject) for each book, and many also have analytical subject headings. Books have been selected with reference to the needs of the various departments, and include standard works in literature, travel, history, science, philosophy, education, and art, as well as

general reference books such as dictionaries, encyclopedias, year books, and atlases.

Periodical literature of permanent value is bound and made accessible by the use of the Readers' Guide. The library receives 125 of the best current periodicals. Bibliographical material on children's literature and children's illustrated books are available, in addition to a large collection of classified pictures for the use of all departments.

The library is open on school days from 7:30 A. M. to 5 P. M., evenings from 7 to 9 P. M., and on Saturday mornings. Special hours are announced for the Summer Terms.

EXTENSION COURSES.

A limited number of courses is offered in night classes by regular members of the college faculty. These courses are the same as those taken by students in residence, and the numbers and descriptions may be found in the catalog. The students registered in night classes pay the same registration fee as do the resident students. The classes meet one period of 120 minutes each week for a period of fifteen weeks. One term-credit is allowed for each course, the equivalent of two and one-half semester hours.

COURSES OF STUDY.

Two basic courses are provided: the Four-Year Course leading to the Degree of Bachelor of Education and the High School Certificate; and the Two-Year Course designed for those preparing for elementary teaching, and leading to a diploma and the Limited Elementary Certificate. Each of these courses is adapted through choice and assignment of subjects to the individual needs of the prospective teacher.

THE FOUR-YEAR COURSE.

Requirements for the Degree of Bachelor of Education.

College Requirements—Each candidate must meet the general college requirements with respect to registration and residence, and must also secure credit in approved courses amounting to an aggregate of forty-eight term-credits, (the equivalent of one hundred and twenty semester hours, one hundred and eight sixty minute periods of Physical Training not counted). A term-credit represents twelve weeks' work, four periods a week, except in the case of laboratory sciences which require the usual additional periods each week for laboratory work.

In order to receive his bachelor's degree a student must have secured grades not lower than C in subjects aggregating at least three-fourths of the work, prescribed or elective, required for the degree. The system of grading is as follows: A, excellent; B, good; C, fair; D,

poor (but passing); E, failure. At least sixteen of the forty-eight credits required for the degree must be of Senior College rank.

A graduate of the two-year course who later continues for the degree will lose four credits (ten semester hours) as follows: Penmanship, one-half credit; Construction, one-half credit; Arithmetic, one credit; Special Methods, one credit by those who have two or more such credits; and Practice Teaching, one credit.

(A) Prescribed Subjects—Rhetoric, 3 terms; Practice Teaching, 3 terms; Health Education, 1 term; Physical Education, 144 forty-minute periods taken without credit.

(B) Group Requirements—Every candidate must offer the minimum of work specified in each of the following groups:

I. English—At least 2 terms in English and American Literature.

II. Foreign Language—College French, German, or Latin. At least 3 terms. A student taking a beginning required foreign language in his senior year must present four terms in place of three.

III. History, Political and Social Science—History, Economics, Political Science, Sociology. At least 3 terms, including History 110.

IV. Mathematics, and Physical Science—Mathematics, Astronomy, Physics, Chemistry. At least 2 terms.

NOTE—Every candidate for the degree of B. Ed., shall offer a minimum total of 6 terms in Groups IV, and V, combined, with a minimum of 2 terms in each.

V. Biology and Earth Science—Botany, Bacteriology, Entomology, Geography, Geology, Physiology, Zoology. At least 2 terms. See note under IV.

VI. Education—At least 9 terms (including 3 terms of Practice, 2 terms of which must be in the High School).

NOTE—Not fewer than three of the six required courses in Education must be taken in the Senior College. At least one term of Practice Teaching must be done in the student's major subject.

(C) Major Subjects—Each candidate must select some one subject as his major. A major consists of courses amounting to nine terms chosen from among those designated by the Department and approved by the Faculty.

The subjects at present recognized as majors in this college are: Art, Botany, Chemistry, Commerce, English, French, Geography and Geology, German, History, Latin, Mathematics, Music, Physics, Zoology.

To major in Latin a student must complete five years of college Latin, if he has had no high school Latin; four years of college Latin, if he has had only two years of high school Latin; three years of college Latin, if he has had three or more years of high school Latin.

To major in French or German, a student with no previous work in the language chosen must complete four years of college work. If a student comes with two or more years of high school work in the language chosen, he must complete three years of college work.

(D) Minor Subjects—Each candidate must offer in addition to his major, a minor of at least six terms in some one department designated by the major department and approved by the Faculty.

To minor in a foreign language, a student must meet the requirements of the major, less one year of college work.

(E) Elective Subjects—

1. Not more than nine terms in any one subject may be counted for graduation, except in foreign languages, and in special cases with the approval of the Examiners and the Committee on Graduation.

2. A limited amount of credit toward the B. Ed. Degree will be given for courses offered in the special departments of the school, as follows:

Department of Agriculture—Agriculture 212 (Horticulture), Agriculture 105 (Livestock Judging), Agriculture 101 (Soil Fertility), Agriculture 102 (Cereal Crops), Agriculture 103 (Forage Crops), Agriculture 100 (Teachers' Court in Agriculture), Agriculture 205 (Principles of Feeding), Agriculture 231 (Dairy Cattle), Agriculture 330 (Problems of Dairy Farming), Agriculture 350 (Farm Management).

The total credit in the Department of Agriculture may not exceed six terms.

Household Arts Department—Household Arts 105, 106, and 107 (Foods and Cookery), Household Arts 205, 206, and 207 (Foods and Cookery), Household Arts 125, 130, and 330 (Clothing), Household Arts 120, 320 (Nutrition and Dietetics), Household Arts 335 (Meal Planning and Table Service), Household Arts 360 (Advanced Dressmaking), Household Arts 375 (Senior College Sewing).

The total credit in the Household Arts Department may not exceed six terms.

Manual Arts Department—Manual Arts 222 and 223 (Machine Shop Practice), Manual Arts 101, 102, 103, 104, 105 (Mecanical Drawing).

The total credit in the Manual Arts Department may not exceed six terms.

Physical Education Department—

For Men: Physical Education 154 (Football), Physical Education 155 (Basketball), Physical Education 156 (Track and Field), Physical Education 201 (Boxing), Physical Education 202 (Wrestling), Physical Education 203 (Gymnasium Activities 1), Physical Education 301 (Gymnasium Activities 2), Physical Education 250 (Methods and Materials for Teaching Physical Education in the Ele-

mentary Schools), Physical Education 302 (Materials and Methods for Teaching Physical Education Activities in Junior and Senior High Schools), Physical Education 303 (Kinesiology).

For Women: Physical Education 215 (Coaching), Physical Education 225 (Methods and Materials), Physical Education 245 (Playground Course).

The total credit in the Physical Education Department may not exceed six terms for men and three terms for women.

6. Health Education		

It is understood of course that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

Four courses a term constitute the regular assignment. Three terms of rhetoric are required in the freshman year. One term of Health Education is required in the sophomore year. The remaining

courses each term are selected with a view to meeting the group requirements as listed above, and furthering the student toward the accomplishment of his major and minor work.

While the work of the freshman and sophomore years is offered in full-year courses, a student may after two terms of a subject (with the exception of the foreign languages), be allowed to substitute a term from some other course for the third term prescribed.

Studies of the Junior and Senior Years.

THE TWO-YEAR COURSE.

The two-year course is designed specifically for those who are to teach in the elementary school. A student securing twenty-four term-credits of freshman and sophomore work as outlined below will be graduated with a diploma, and may be recommended for a Limited Elementary Certificate.

A. Subjects Available in the Two-Year Course: Rhetoric 3 terms; Education 3 terms; Practice Teaching 3 terms; Geography 1 or 2 terms; History 2 terms; Literature 1 or 2 terms; Biology 1 or 2 terms; Chemistry or Physics 1 or 2 terms; Method Music 1 or 2 terms; Drawing 1 or 2 terms; Method Arithmetic 1 term; Method English (Primary or Advanced) 1 term; Method Geography and Method History 1 term; Penmanship and Manual Arts (Primary or Advanced) 1 term; Elective subjects from Agriculture, Household Arts, and Physical Education 3 terms; Health Education 1 term; Physical Education (without credit) 3 terms.

The student will take note of the opportunity afforded to get as much as two terms of a number of subjects. This is of particular importance to those who expect to continue their college work beyond the two-year course.

B. Subjects Prescribed for All: Rhetoric 3 terms; Education 3 terms; Practice Teaching 3 terms; United States History 2 terms; Arithmetic 1 term; Geography 1 term; Literature 1 term; Biology 1 term; Health Education 1 term; Chemistry or Physics 1 term; Penmanship and Manual Arts 1 term of each with a half-credit in each; Physical Education 144 forty-minute periods (without credit).

The remaining 6 credits are to be so selected as to afford the largest amount of definite preparation for the kind of teaching the graduate expects to do.

C. Provision for Differentiation:

I. Those fitting for primary work should include in their program the following subjects: Primary Education; Primary Method English; Primary Elementary Construction; Method Music; Public School Drawing; Practice teaching in the primary grades; and such other prescribed and elective work as is necessary to make up the 24 credits required for graduation.

II. Those fitting for intermediate and upper-grade teaching should, in the main, include the following subjects: School Management or Measurements; Upper-grade Method English; Upper-grade Manual Arts; Method History and Geography (one-half credit each); Method Music; Public School Drawing; Practice Teaching in the intermediate and grammar grades; and such other prescribed and elective work as may be necessary to make up the 24 credits.

III. Those preparing for rural school teaching should include the following: Rural Education; Rural Practice Teaching; Method English; Method History and Geography; Method Music; Public School Drawing; and some work in Agriculture, or Household Arts, or both.

IV. As a means of adapting the two-year course still further to the needs of teachers, the Examiner may, with the consent of the President, make substitutions. In this way, subjects, excepting those in the prescribed group, may in special cases be set aside for additional work in subjects already taken, and for credits (not to exceed three in number) from the Departments of Agriculture, Household Arts, and Physical Education.

D. An Illustrative Program:

Freshman Year.

FALL	WINTER	SPRING
Rhetoric	Rhetoric	Rhetoric
Geography	History	History or Music
Arithmetic	Pen. & Man. Arts (½ Cr. each)	Drawing or Elective
Biology	Biology or Geography	Literature
Physical Education	Physical Education	Physical Education

Sophomore Year.

FALL	WINTER	SPRING
		Health Education
Chemistry or Physics	Chemistry or Physics Elective	Measurements or Elementary Method
Psychology	Principals of Education	Method English
Music or Literature	Method Geog. & Hist. (½ cr. each)	Practice
Practice	Practice	

It is understood of course, that most of the subjects listed above will be offered in terms other than those in which they are scheduled.

ADVISORY COURSE FOR CHEMISTRY MAJORS.

The following course is strongly urged by the Chemistry Department for those majoring in that science. It fulfills all requirements for the B. Ed. degree, follows the proper order for prerequisites, and gives the minimum overlapping of Junior and Senior College courses. If any difficulties arise in the following of this course the student is advised to consult immediately with his advisor or the Chemistry Department.

FIRST YEAR

Fall Term	*Winter Term*	*Spring Term*
Chem. 101 or 151	Chem. 102 or 152	Chem. 103 or 153
College Algebra 101	College Algebra 101	Trigonometry
German 101 or 151	German 102 or 152	German 103 or 153
Rhetoric	Rhetoric 102	Rhetoric 103
Physical Education	Physical Education	Physical Education

SECOND YEAR

Chemistry 201 (Qual.)	Chemistry 202	Chemistry 253
History or Economics	Chemistry 252 (Quant.)	History or Economics
Health Education	History or Economics	Natural Science
English	Natural Science	English
Physical Education	Physical Education	Physical Education

THIRD YEAR

Chemistry 301 (Organic)	Chemistry 302	Chemistry 303
Education	Education	Education
Math. 201 (Analytics)	Math. 202 (Analytics)	Elective
Physics 201	Physics 202	Physics 203

FOURTH YEAR

Education	Education	Education
Practice	Practice	Practice
Math. 301 (Calculus)	Math. 302 (Calculus)	Math. 303 (Calculus)
Elective	Chemistry 401 (Physical)	Chemistry 402

ADVISORY COURSE IN CHEMISTRY FOR TWO-YEAR PRE-MEDICAL STUDENTS.

First Year	General Chemistry	3 terms
	Qualitative Analysis	1 summer session (12 weeks, double time)
Second Year	Organic Chemistry	3 terms

By following this course the student will have obtained 20 hours of chemistry by the end of the second year (sufficient to enter medical school) and will have time for a transfer of credits so that he may start his professional studies in the fall of his third college year.

AGRICULTURE.

R. E. MUCKLEROY.

The aim of the Agriculture Course is to develop a better appreciation of farm life by study of economic production, and to enable those who choose the work to teach it to others or to find a safe and profitable employment in the practice of farming.

The Normal owns a 110 acre farm which lies just south of the campus. In addition to the regular class work, students are required to make observations and to study the various phases of livestock farming on this farm. Demonstration plots are used to illustrate the various methods of soil treatment in relation to crop production.

Students of the department find it profitable to join the Agricultural Club. While this club is more or less of department work, it is one of the factors promoting student life and the best interests of the institution. The club meets every Wednesday evening of the school year. The programs are made up of music, optionals, studies in soils and crops, livestock production and improvement, and community work.

Agronomy 101 (Agronomy 1). Soil Fertility. Origin, formation, and nature of soils, glaciations, soil types, soil treatment and cropping systems. (Laboratory.)

Agronomy 102 (Agronomy 2). Cereal Crops. Production and harvesting of common farm crops, means of improvement, diseases, insects, weeds, purity of seeds, germination, grades of grain, and judging. (Laboratory.)

Agronomy 103 (Agronomy 3). Forage Crops. Adaptation, culture, plant structure, requirements and characteristics, with special attention given to legumes and crop rotations. (Laboratory.)

Animal Husbandry 105 (Animal Husbandry 32). Livestock Judging. Leading characteristics of the various breeds of livestock, native homes, selection for the feed lot, market requirements, type, utility, show form, breeding and judging.

Animal Husbandry 120 (Animal Husbandry (4a). Poultry. Pigmentation, molting, inheritance of type, breeding, mating, influence of environment, incubation, feeding for early maturity, market conditions, marketing, poultry farming, including ways and means of developing the industry, results of egg laying contests.

Animal Husbandry 205 (Animal Husbandry 5). Principles of Feeding. Relations of plant and animal life, elements of nutrition, composition of plants and animals, digestion, composition of feeds, relative values of balanced rations, feeding trials, value of economic feeding and management. (Prerequisite: Animal Husbandry 105.)

Animal Husbandry 231 (Animal Husbandry 7a). Dairy Cattle. Breed history, feeding, herd testing, breeding, pedigrees, and management. (Prerequisite: Animal Husbandry 105 or 205.)

Animal Husbandry 330. Problems in Dairy Farming. Balance of factory on a dairy farm, building, fields, rotations of crops, pastures, relative value of breeds. (Prerequisites: Agronomy 101 and Animal Husbandry 105 or 231.)

Hort. 212 (Horticulture 8). The principles of fruit growing with special reference to the home orchard; pruning, spraying, and marketing.

Teachers' Course 100. The first six weeks of this course will be devoted to soil study with special reference to fertility problems and crop rotations to meet better livestock production. The last six weeks will be given to a study of livestock on the farm with better methods of care and management as a means of greater profits. Special emphasis will be placed on illustrative materials which may be used in the country schools.

Farm Management 350. Factors in production, types of farming, organization and direction, economic use of farm machinery, balance of crops and livestock, market conditions, sectional and seasonal production. (Prerequisite: Agronomy 101 and Animal Husbandry 330.)

ART.

GLADYS P. WILLIAMS.

LULU D. ROACH.

Art 105 (31). Freehand Drawing. Perspective and freehand drawing, using pencil, ink, charcoal and other mediums.

Art 110 (28). Principles of Design. Origin and theory of design; principles applied in costume design.

Art 115 (27). Elementary Water Color. A study of the theory and harmony of color. Text: Sargent's The Enjoyment and Use of Color.

Art 205 (4). Public School Drawing. Course for grade teachers in common school art.

Art 210 (21). Commercial Design. Design with reference to its application in the business world; principles of advertising; method of reproduction and printing. Prerequisites: Principles of Design 110.

Art 215 (7). Advanced Design. Continuation of the principles of design and their application to art in the home. Prerequisite: Principles of Design 110.

Art 220 (10). Advanced Water Color. Work from still life and nature. Prerequisite: Theory of Color 115.

Art 225 (5). History of Art. Periods and styles of architecture, sculpture, and painting preceding the Italian Renaissance. Texts: Hamlin's History of Architecture; Van Dyke's History of Painting; Marquand's A History of Sculpture.

Art 230 (13). History of Art. Italian Renaissance to present time. Same texts as Art 225. Prerequisite: History of Art 225.

Art 235. Stage Craft. Principles of Art applied to the stage. Prerequisites: Art 105, 115.

Art 305 (15). Freehand Drawing. Continuation of Art 105. Some Drawings finished in water color washes.

Art 310 (9a). History of Architecture. Ancient to modern times, considering influence of material, climate, political and economic conditions on styles of architecture; evolution of structural and ornamental forms. Text: Fiske Kimball's A History of Architecture.

Art 315 (30). Interior Decorations. Principles of design are studied in terms of the home and its furnished details from the standpoint of the designer. Reference work, color plates, and the compiling of illustrative materials are required. Prerequisite: Advanced Design 215.

Art 320 (7a). Elements of Composition. Still life painting is used as a means for the study of design in pictorial composition. Medium: Oil paints. Prerequisite: Art 110 or 215.

Art 325 (21a). A Study of Elements. A continuation of 320, including still life, landscape composition, and the costumed figure. Medium: Oil paints.

Art 330 (7b). Design. Talks and laboratory work dealing with typical problems to illustrate their use in the home. Batik designs studied and developed.

Art 335. History of Sculpture. A survey course covering periods from primitive work to the present day.

Art 340. General Survey of the History of Painting. A study of the great art epochs and their leaders. To determine the epochal developments and influences, analysis of paintings from Giotto to Cezanne will be made according to Speed's "Practice and Science of Drawing."

BOTANY.

W. M. BAILEY.

MARTHA H. SCOTT.

Botany 101 (Biology 20). An introductory course in botany, consisting of a study of the vegetative organs of the higher seed plants, their form and structure, physiological activities, and their relations and adjustments to their environment. Attention is given to the identification of the more common trees by their leaf and stem characters. Laboratory and field studies, recitations and lectures. Fall Term.

Botany 102 (Biology 21a). A brief study of the morphology of representative plants of the great plant groups, the general classification of plants and the evolution of the Plant Kingdom. Laboratory studies, recitations and lectures. Winter Term.

Botany 103 (Biology 21b). A course in systematic botany, consisting of a study of the principles of classification and the use of manuals, and work in classifying and identifying seed plants and ferns of the local flora. Field studies, lectures and recitations. Prerequisite Botany 102. Spring Term.

Botany 250. Development and Heredity. A general course in the study of the facts and theories of the development of the plant and animal kingdoms, and heredity in plants and animals. Lectures, reading, and recitation. Prerequisites: Botany 102 and Zoology 105.

Botany 301 (Biology 22). Morphology of the Thallophytes. A study of the structures, development and relationship of the groups of the Thallophytes, evolution of the plant body, origin and evolution of sex in plants, parasitism and saprophytism in the bacteria and fungi. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Fall Term.

Botany 302 (Biology 23). Morphology of the Bryophytes and Pteridophytes. A study of the structures, development and relationships of the liverworts and mosses, ferns, equisetum and club-mosses. The problems of evolution of the sporophyte, alteration of generations, and heterospory receive attention. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 301. Winter Term.

Botany 303 (Biology 25). Morphology of the Spermatophytes. A study of the structures, development and relationships of the Gymnosperms and Angiosperms, the vascular anatomy of these plants, the development of flowers, gametophytes, fertilization, embryology, and the structure and development of seeds. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 301, 302. Spring Term.

Botany 315. Genetics. A general course, with experimental work along the lines of breeding, strains, etc., involving the principles of evolution and genetics.

Botany 320 (Biology 26). Plant Physiology. A study of the physiological relationships of plants and the soil, absorption of water

and mineral nutrients, water relationships and requirements of plants, functions of mineral nutrients. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Desirable antecedents. General inorganic chemistry, physics.

Botany 325 (Biology 27). Plant Physiology. A study of the constructive metabolism in green plants, the nutritional processes in plants without chlorophyll, movement and storage of materials in plants. Laboratory studies, recitations and lectures. Prerequisites: Botany 320, general inorganic chemistry, organic chemistry, physics.

Botany 330. Plant Physiology. A study of digestion, respiration, fermentation, growth and movement in plants. Laboratory studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 325. Desirable antecedents. Botany 320, general inorganic chemistry, organic chemistry, physics.

Botany 340 (Biology 28). Plant Ecology. An introductory course in Plant Ecology. Plants in relation to their environment; the effects upon the plant of the factors light, heat, air, soil and water; the succession in the time of flowering of the local herbs and the putting out of leaves by the trees; symbiotic phenomena. Field studies, recitations and lectures. Prerequisites: Botany 101, 102, 103. Spring Term.

Botany 345. Plant Ecology. The community relationships of plants. Local communities will be studied and the factors influencing their development will be noted. The study of the development of deciduous forest community from bare areas, such as bare rock, bare clay, and water, will constitute a portion of the field work. Field studies, recitations and lectures. Prerequisites: Botany 101, 102, 103, 340.

Botany 350. Plant Geography. This course will consider the distribution, development, floristic composition, environmental factors, agricultural possibilities, etc., of the great plant divisions of the world. Local field studies on the distribution of our native plants will be a feature of the course. Since Southern Illinois is a meeting ground of many northern and southern species of plants, the region is especially suitable for this kind of study. Lectures, recitations and field studies. Prerequisites: Botany, 101, 102, 103, 340.

CHEMISTRY.

J. W. NECKERS.

GEORGE M. BROWNE.

R. A. SCOTT.

T. W. ABBOTT.

K. A. VAN LENTE.

Chemistry majors and pre-medical students should follow the suggested curriculum in Chemistry on page

Chemistry 101 (1a). General Chemistry. A course for students with no previous instruction in this science. A study of the common non-metals and their compounds is started in this course.

Mr. Browne, Dr. Abbott.

Chemistry 102 (2a). General Chemistry. A continuation of the study of the non-metals and their compounds. Prerequisite: Chem. 101.
Mr. Browne, Dr. Abbott.

Chemistry 103 (3a). General Chemistry. This course is an introduction to the chemistry of the common metals. Prereq.: Chem. 102.
Mr. Browne, Dr. Abbott.

Chemistry 151 (1b). General Chemistry. A course designed for those who have had a year of high school chemistry. A course in the chemistry of the non-metals. Prereq.: One year of H. S. Chem.
Dr. Neckers, Dr. Van Lente.

Chemistry 152 (2b). General Chemistry. A continuation of non-metal study and preparations. Prereq.: Chem. 151.
Dr. Neckers, Dr. Van Lente.

Chemistry 153 (3b). General Chemistry. An introduction to the metals and their compounds. Prereq.: Chem. 152.
Dr. Neckers, Dr. Van Lente.

Chemistry 201 (7). Qualitative Analysis. A study of the chemistry of the metals and application to the laboratory separation and identification. Prereq.: Chem. 103 or 153. Dr. Neckers.

Chemistry 202 (8). Qualitative Analysis. A continuation of the work started in Chem. 201, also anion analysis. Identification of alloys, ores, and general inorganic compounds. Prereq.: Chem. 201.
Dr. Neckers.

Chemistry 252 (11). Quantitative Analysis. Gravimetric determinations and calculations in the inorganic field. Prereq.: Chem. 201, Math. 105. Dr. Neckers.

Chemistry 253 (10). Quantitative Analysis. Volumetric analysis with the stoichiometrical accompaniments. Prereq.: Chem. 201, Chem. 202 or 252, Math. 105. Dr. Neckers.

Chemistry 301 (13). Organic Chemistry. A study of the compounds of the aliphatic series with laboratory preparations. Prereq.: Chem. 201. Dr. Abbott.

Chemistry 302 (14). Organic Chemistry. A continuation of the study of the aliphatic series and an introduction to the aromatics. Prereq.: Chem. 301. Dr. Abbott.

Chemistry 303 (15). Organic Chemistry. A continuation of the study and preparation of compounds of the aromatic series which was started in the preceding course. Prereq.: Chem. 302 Dr. Abbott.

Chemistry 401 (New). Physical Chemistry. A study of some of the physical aspects of chemical reactions. Prereq.: Chem. 253, Physics 202 or 207. Dr. Van Lente.

Chemistry 402 (New). Physical Chemistry. A continuation of the study of physico-chemical relations. Prereq.: Chem. 401.
Dr. Van Lente.

Chemistry 423 (New). Advanced Quantitative Analysis. A course for chemistry majors interested in this field. A continuation in the volumetric field with an introduction to water analysis. Prereq.: Chem. 253. Dr. Neckers.

Chemistry 443 (New). Advanced Organic Chemistry. A course for majors in chemistry interested in advanced work in this field, especially in more difficult syntheses and preparations. Prereq.: Chem. 303.
Dr. Abbott.

Chemistry 463 (New). History of Chemistry. A course to furnish a background to those who expect to teach in this field.

COMMERCE AND ECONOMICS.

T. L. BRYANT.

EDWARD V. MILES, JR.

Commercial 101 (1). Penmanship. This course presents the study of Penmanship in the latest methods of developing the subject. All of the work both in movement drills and in letter and word writing are studied in tempo.

The rhythm is first developed by counting. Drill on the straight line and the ovals, direct and indirect, constitute a part of each recitation.

The pedagogy of the subject as presented in the different compendiums of penmanship is carefully worked out and studied in class. Comparative values of different movements are presented, also the rise and fall of different systems. One-half credit is given for each twelve week term.

Commercial 205 (7). Accounting. This course in introductory bookkeeping is planned for those who have never studied the subject. The double entry system is introduced in the beginning and all the laws governing the debit and credit of business transactions are fully explained and mastered. The journal, day book, sales book, purchase book, and the auxiliary books are introduced and their use in accounting fully demonstrated. A complete line of business transactions is placed in the books of original entry, posted to the ledger, trial balance taken, inventories entered, and accounts closed. A comprehensive study of the financial statement is made.

Commercial 206 (8). Accounting. Partnership accounting is studied and several sets are worked out. This course embodies all the principles taught in Commercial 205. The student is familiarized with negotiable instruments and their use. Prerequisite, Commercial 205,

Commercial 207 (9). Accounting. Corporation and Manufacturing Accounting are offered in this course. It takes up the changing of books from single proprietorship and partnership to a corporation. In this work the latest systems of accounting are presented. Prerequisite, Commercial 206.

Commercial 210 (13). Commercial Law. The aim of this course is to give a comprehensive training in the law pertaining to business. In the text the fundamental and governing principles of law are stated; differences in fundamental principles of dissenting authorities are referred to. Leading illustrative cases are given.

Commercial 211 (14). Commercial Law. This course is a continuation of Commercial 210, covering Bailments, Partnership, Corporations, Insurance and Property.

Commercial 212 (15). Commercial Law. A continuation of Commercial 211 covering internal relation and control in Agency, Partnership and Corporations; dissolution and accounting in agency, partnership and corporations. The case method will be used in this course.

Commercial 305, 306 and 307 (26, 27, 28). Advanced Accounting. A second year course in accounting designed to give intensive study in theory and practice. This course deals with partnerships and ventures, corporations, investments, stocks and bonds, depreciation, reserves, surplus, dividends, corporate obligations, balance sheet, and profit and loss statement; statement analysis for credit purposes, statement analysis for investment purposes, mergers vs. consolidations, parent vs. holding companies, consolidated statements and fiduciary statements.

Commercial 325 (32). Business Administration. A study of business problems from the standpoint of the manager. The course covers location of plant, administration of personnel, marketing, finance, production, risk-bearing, and the selection of the best adapted business unit for a certain industry or business.

Commercial 335 (31). The Financial Organization of Society. A broad general survey of the whole financial system. It includes a study of the nature and work of the various types of financial institutions, of the forces that have led to their development, and of their relation to the organization of industrial society. The principal forms of financial institutions covered are: coinage and monetary systems; credit; commercial banks; saving banks; bond houses; trust companies; stock exchanges; and various forms of co-operative credit associations. One credit.

Economics 305. Principles of Economics. An examination of the fundamental principles of economics, surveying in a general fashion such basic features of the present economic system as production and consumption of wealth, business organization, value, monopoly, rent, and wages. Not open to students who have had Commerce 315 or 316.

Economics 310. Labor Problems. This course surveys the development of the labor movement in England and the United States and of the relations of organization of employers and employees to each other and to the general public. Open to students who have had Economics 305.

Economics 320. Industrial Combinations and Associations. A study of the various forms of industrial units with especial attention given to the kinds of business for which each is appropriate, the rise of the trust problem and to governmental regulations of business organization. Open to students who have had Economics 305.

EDUCATION.

GEORGE D. WHAM.

F. G. WARREN.

WELLINGTON A. THALMAN.

TED R. RAGSDALE.

Education 205 (2). Educational Psychology. A study of the facts and laws of mental life with special reference to the learning and teaching processes. The various principles that underlie effective teaching are developed and illustrated by concrete exercises and problems. Text: Colvin and Bagley's Human Behavior, or its equivalent.

Education 206 (5a). General Psychology. An introductory course for students of the four-year curriculum, consisting of a study of the fundamental facts and principles of human behavior. Text: Pillsbury's Essentials of Psychology, or its equivalent.

Education 210 (3). Principles of Education. A brief study of the fundamental principles of education, and their application in the interpretation and criticism of current and proposed educational theory and practice. A detailed study of the various processes of teaching and learning involved in elementary education. Text: Thomas's The Principles and Technique of Teaching, or its equivalent. Prerequisite: Education 205 or 206.

Education 220 (10). Elementary Measurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for elementary school pupils. Text: Monroe, DeVoss, and Kelley's Educational Tests and Measurements. Prerequisite: Education 205 or 206.

Education 230 (12). Rural Education. A course for those who expect to teach or supervise country schools. It consists of rural school organization and management, rural school methods, an outline of the state course of study, the maintenance of the rural school library, together with about two weeks of rural sociology. Texts: Eels, Mueller and Swain's Rural School Management, and Ritter and Wilmarth's Rural School Methods. Prerequisite: Education 205 or 206.

Education 235 (8). Primary Education. A course designed especially for those who expect to teach in the lower grades. A description of the child mind, phenomena of growth, and the instinctive interests of childhood, followed by a detailed consideration of materials and methods. Text: Parker and Temple's Unified Kindergarten and First-Grade Teaching or its equivalent. Prerequisite: Education 205 or 206.

Education 305 (5). Advanced Educational Psychology. A description of the bodily organs and mechanisms upon which behavior depends; a discussion of instinctive activities and capacities; a formulation of the general laws of learning and their application to teaching; a study of individual differences. Text: Gates' Psychology for Students of Education, or its equivalent. Prerequisite: Education 205 or 206.

Education 310 (7a). Principles of Secondary Education. A study of such topics as adolescence; the history and aims of secondary education; high school courses of study; high school equipment; and the problems of organization, management, and discipline peculiar to the high school. Text: Koos' The American Secondary School, or its equivalent. Prerequisite: Education 305.

Education 315 (7). High School Method. A detailed study of the various processes of learning and teaching involved in high school education. Texts: Parker's Methods of Teaching in High Schools, and Parker's Exercises for Methods of Teaching in High Schools, or their equivalents. Prerequisite: Education 305.

Education 320 (10a). High School Measurements. A course including a study of both intelligence tests and educational tests, involving the classroom use of the important test materials for high school pupils. Text: Odell's Educational Measurements in High School, or its equivalent. Prerequisite: Education 305.

Education 325 (9). School Administration. This course is designed primarily for those who look forward to positions as supervisors, principals, or superintendents. Texts: Cubberley's The Principal and His School, and The Eighth Year Book of the Department of Elementary School Principals, or their equivalents. Prerequisite: Education 305.

Education 330 (4). History of Education. The chief aim is to afford the teacher the sanity of judgment that comes only by seeing present-day education in perspective against its historical background. It traces the evolution of educational ideals and practice in response to social needs and to the contributions of philosophic and scientific thought: Texts: Graves' A Student's History of Education, or its equivalent. Additional readings in Cubberly's Book of Readings. Prerequisite: Education 305.

Education 365 (15). Psychology of High School Subjects. An analysis of the mental processes exhibited by pupils in studying the various high school subjects, with parallel consideration of effective teaching processes. Text: Judd's Psychology of Secondary Education, or its equivalent. Prerequisite: Education 305, 310 and 315.

Education 370 (6). Educational Sociology. A consideration of the origin, nature, and functions of society and social institutions. A special study of the relation between society and the individual, and of the practical social problems growing out of the complexity and the rapid development of modern society. Text: Smith's Principles of Educational Sociology, or its equivalent. Prerequisites: Education 305, 310, and 315.

Education 420. Educational Statistics. A course planned especially for superintendents, principals, and supervisors. It includes such topics as: definition and objectives of statistical procedures; methods of securing and arranging educational data; methods of tabulating; a study of the median, mean, mode, and range; mean deviation; standard deviation; variability; coefficient of correlation; measures of reliability; graphic methods; problems of school publicity; and how to

use educational statistics in educational work. The laboratory method will be employed in the teaching of this course. Manual: Greene's Work-Book in Educational Measurements. Text: Greene and Jorgensen's Use and Interpretation of Educational Tests. Prerequisites: Education 205 or 206, 305, 310, and 220 or 320.

ENGLISH.

EMMA L. BOWYER.
ELIZABETH COX.
FRANCES BARBOUR.
JULIA JONAH.
MARY CRAWFORD.
ESTHER M. POWER.
W. ELIZABETH BURK.
THELMA L. KELLOGG.
EDITH S. KRAPPE.
ROBERT DUNN FANER.
CHARLES D. TENNEY.

English 101, 102, 103 (9, 9a 9b). Freshman Rhetoric. Three terms. Texts: Freshman Rhetoric and Practice Book—Jefferson, Peckham, and Wilson; Challenging Essays in Modern Thought—Bachelor and Henry. Theory and practice of the types of composition; weekly conferences.

English 201 (7a). History of English Literature to 1700. Text: Manly's Prose and Poetry. Prerequisite—three terms of rhetoric.

English 202 (7b). History of English Literature from 1700. Text: Manly's Prose and Poetry. Prerequisite, 201.

English 203. History of American Literature. Text: A book of American Literature—Snyder. Prerequisite—three terms of rhetoric.

English 205a (10a) English Poetry, Technique; 205b (10b) Classics. Macbeth, Paradise Lost, Idylls of the King, Princess. Prerequisite—three terms of rhetoric.

English 206a (11a) English Prose, Technique; 206b (11b) Classics. Text: Pancoast's English Prose and Verse; illustrative material drawn from the works of DeQuincey, Macaulay, and Carlyle. Novels studied: Silas Marner, Kenilworth, House of Seven Gables, Henry Esmond, and David Copperfield. Technique of fiction, one-half credit; classics, one-half credit. Prerequisite—three terms of rhetoric.

English 210 (8). Public Speaking. Emphasis on organization of speeches and their presentation with confidence and interest. Text: Phillips' Effective Speaking.

English 213. Children's Literature. A study of literature such as fairy stories, fables, myths, and romance cycles and legends. The

course will consist of an analysis of the literary qualities of the selections, a discussion of authors, and a study of the folk-loristic background. Text: Children's Literature—Curry and Clippinger.

English 215 (6). English Method. Theme: How the child works out the problems of expression. This covers the first twelve years of the child's life and extends through the primary and intermediate grades. Observation lessons in reading and language in the Training School constitute an important part of the work.

English 216 (6a). Advanced English Method. (Junior High School). In primary methods, of course, much of the emphasis must be placed upon the mechanics of reading. In advanced method the major emphasis passes over the content of the reading material. Attention is paid to the technique of poetry—to the poet's handling of rhythm, tone, color, and rhyme. In the stories that are used the attention of the class is drawn to the use of scene and setting, plot construction, accessories, character portraiture, use of dramatization, dialogue, humor, etc. Methods in grammar and composition are stressed. Some time is devoted to the study of public speaking.

English 300 (25), Senior College Composition. Practice in writing under criticism with emphasis on the development of an individual style.

English 305 (21). Contemporary American Literature. A survey of the chief literary tendencies among our living writers. Readings and lectures concerned chiefly with the fields of poetry and fiction. Text: Recent American Literature—Foerster.

English 310 (42). Emerson's Essays and Poems. A study of Emerson's philosophy in prose and poetry.

English 314. Seventeenth Century Literature. A study of the poetry mainly in the Donne tradition; of the prose, with emphasis on Sir Thomas Browne, Bunyan, and Dryden; and briefly of the Restoration Drama. Texts: A Book of Seventeenth Century Prose—Coffin and Witherspoon; Seventeenth Century Lyrics—Judson.

English 315 (31). Eighteenth Century Literature. (a) Poetry—A study of Neoclassicism and the genesis of the Romantic Movement. Text: Poets of the Eighteenth Century—Bernbaum. (b) Prose—Text: Readings in the Prose of the Eighteenth Century—R. M. Alden.

English 320 (30). British Poets, 1798 to 1830. Text: Romantic Prose and Poetry—Woods.

English 321. British Poets, 1830-1880. Text: Poetry of the Victorian Period—Woods.

English 324. Elizabethan Non-dramatic Literature. Material classified according to types and authors. Special emphasis on Spenser. Text: Elizabethan Verse and Prose—Potter.

English 326. Nineteenth Century Prose. A study of representative writers of England's great prose age, exclusive of fiction, as they appear in relation to nineteenth century life and thought. Text: Masters of Nineteenth Century Prose—Reilly.

English 330 (22). Modern British Poetry. Tendencies in British Poetry from 1880 to the present. Text: Modern British Poetry—Untermeyer.

English 335 (15). The Short Story. A comparative study of the growth of the short story as a literary form.

English 340 (23). The English Essay. A study of the development of the English essay through a close examination of thought trends and changing technique.

English 341 (8b). Advanced Public Speaking. The study and delivery of types and speeches. Text: Models of Speech Composition —O'Neill.

English 354 (19). Development of the Novel. A study of representative novels from Defoe through Scott.

English 355 (20). Victorian Novel. A study of representative Victorian novelists.

English 360 (26). Development of the Drama. Lecture and reading course. A syllabus in the hands of each student will direct the library work. Representative plays will be read showing the development of the drama from the Greek and Roman down to the present period.

English 363 (24). Modern Drama. This course will include a study of the technique of the Modern Drama, together with the reading of thirty modern plays.

English 365 (14). Shakespeare. The course consists of a thorough study of King Lear, Othello, Hamlet, Midsummer Night's Dream, Taming of the Shrew, As You Like It, and The Tempest, with a brief survey of other plays.

English 366 (38). Shakespeare. This course consists of an intensive study of Twelfth Night, Richard III, King Henry IV Part I, and Winter's Tale, together with readings in the textual critics. Texts: Globe Edition of Shakespeare's Complete Works; Neilson and Thorndike, The Facts about Shakespeare.

English 370 (38). Milton. A study of the poetry of Milton with emphasis on the forms, influences, and ethical values. Texts: Cambridge Edition of Milton's Complete Poems; Hanford's Milton Handbook.

English 375 (41). Wordsworth. A specialized course in Wordsworth—a study, of the man, his theories, practice, and philosophy, with emphasis on the *Prelude.*

English 380 (17). Old English. Grammar and easy reading. Text: Bright's Anglo-Saxon Reader. Some reading of Old English will be done, but principally we shall trace the development of our language, and account for the presence in it of many irregular forms. Prerequisite—one year of foreign language.

English 383. Middle English. A general introduction to Middle English literature exclusive of Chaucer. Translation and the elements of Middle English grammar. Texts: Emerson's Middle English

Reader, and Moore's Historical Outline of English Phonology and Middle English Grammar.

English 384. History of the English Language. A historical survey of the beginnings of the language, foreign influences, and their effect upon the vocabulary and grammar.

English 385 (18). English Method. This course is open to those who have had two terms of college literature. The methods in teaching grammar, composition, and the technique and content of poetry and of prose are all stressed.

English 386. Chaucer. Rapid reading of representative works with introductory study of Chaucerian grammar and versification. Emphasis on general social and literary background of the fourteenth century.

FOREIGN LANGUAGES.

VERA L. PEACOCK, French.
J. M. PIERCE, German.
MADELEINE SMITH, French.
HELEN BALDWIN, Latin.
FULLER COMBS, Latin.
J. CARY DAVIS, French.

FRENCH.

Major: Three years of French, excluding courses 101, 102 and 103.

Minor: Two years of French, excluding the above courses.

French 101, 102, 103 (1, 2, 3). Elementary Course. Grammar; pronunciation; composition; conversation; reading of modern prose.

Prerequisite: 101 open to students who have had no previous work in French; 102, prerequisite: 101, or one year of high school French.

(Students lacking two or more credits of required beginning French at the end of the Junior year must take course 151 without credit).

French 151 (4). Second-Year Composition and Reading. Grammar; composition; oral practice; rapid reading of modern authors.

Prerequisite: French 103 or two years of high school French.

French 152 (5). Second-Year Composition and Reading (continued). Grammar; composition; oral practice. Intensive class reading from the works of Hugo, Balzac, Daudet, Loti and Anatole France.

Prerequisite: French 151 or three years of high school French.

French 153 (6). Intermediate Composition and Reading. Grammar review; conversation; themes; study of nineteenth century prose and poetry. Conducted largely in French.

Prerequisite: French 152 or its equivalent.

French 201, 202, 203 (7, 8, 9). Survey of French Literature. A study of the important currents of French literature from the beginning to the present time. Outside reading and reports. One hour each week will be devoted to French composition.

Prerequisite: French 153.

French 301. The French Novel of the Eighteenth and Nineteenth Centuries. A study of the French novel from 1700 to 1900. Lectures, collateral reading and reports.

Prerequisite: French 203.

French 302. Seventeenth and Eighteenth Century Drama. Intensive study of Corneille, Racine, Moliere, Lesage, Voltaire, Marivaux and Beaumarchais. Outside reading of minor dramatists.

Prerequisite: French 203.

French 303. French Lyric Poetry. French versification; Romantic, Parnassian and Symbolist schools; contemporary poets. Weekly reports on outside reading.

Prerequisite: French 203.

French 351. Advanced Composition. Rapid grammar review; study of idiomatic construction; weekly themes. Course conducted in French.

Prerequisite: French 203.

French 352. French Conversation and Phonetics. A thorough study of the phonetic alphabet and of the formation of French sounds. Course conducted in French.

Prerequisite: French 203.

French 353. Advanced Composition and Conversation. Oral and written composition of a practical nature for advanced students. Intensive study of idiomatic expression and current usage.

Prerequisite: French 351 and 352.

GERMAN.

Major: Three years of German, excluding courses 101, 102, and 103.

Minor: Two years of German, excluding the above courses.

German 101, 102, 103 (1, 2, 3). Elementary Course. Grammar; pronunciation; composition; conversation; reading of simple prose. Deutsche Lieder.

Prerequisite: 101 is open to students who have had no previous work in German; 102 is open to those who have had 101 or one year of high school German.

(Students lacking two or more credits of required beginning German at the end of the Junior year must take course 151 without credit).

German 151 (4). Second-year texts: reading of modern authors. Composition and conversation in connection with the texts.

Prerequisite: German 103 or two years of high school German.

German 152 (5). Second-year texts (continued). Sight reading in selected stories of Baumbach, Storm, Heyse, Hauff, Riehl.

Prerequisite: German 151 or three years of high school German.

German 153 (6). Classic Drama: Schiller's Wilhelm Tell, Goethe's Hermann and Dorothea, Lessing's Emilie Galotti.

Prerequisite: German 152 or its equivalent.

German 201, 202, 203 (7, 8, 9). Survey of German Literature. This is a general account of the chief writers and their works in chronological order. Outside reading and reports. Composition, one hour a week.

Prerequisite: German 153.

Prerequisite for the following courses: German 203.

German 301. Goethe's Faust, with study of special topics and reports.

German 302. Recent dramatic works.

German 303a. Scientific reading in German.

German 303b. Educational reading in German. A choice is offered between 303a and 303b.

Throughout the entire course, attention is given to the linguistic relations between German and English in the vocabulary and grammar.

LATIN.

College students may begin Latin and receive credit for one or two years. Students having two or more years of high school credit are eligible to college classes.

For advanced students majoring in Latin practice teaching is provided.

Latin 101, 102, 103 (1, 2, 3). Beginning Latin. Smith's Elementary Latin is used, the aim being familiarity with the elements of Latin grammar.

(Students lacking two or more credits of required beginning Latin at the end of the Junior year must take course 104 without credit.)

Latin 104, 105, 106 (4, 5, 6). Caesar's Gallic War. The equivalent of four books is read, Walker's Caesar being the text. Scott's Prose Composition.

Latin 151 (13). Advanced Composition. This is useful for teachers and is a convenient review for students. Prerequisite, at least two years.

Latin 152 (14). Cicero's Essays. De Senectute and part of De Amicitia. Prerequisite as for Latin 150.

Latin 153 (15). Livy. Books I and XXI. Prerequisite as for Latin 151.

Latin 201 (16). Phormio of Terence. Prerequisite, 1 year of college Latin.

Latin 202 (17). Horace, Odes and Epodes. Prerequisite as for Latin 201.

Latin 203 (18). Letters of Pliny. Prerequisite as for Latin 201.

Latin 301 (19). Cicero's Letters. Emphasis is laid on the history of the times and the personality of Cicero. Prerequisite, 2 years of college Latin.

Latin 302 (20). Vergil's Eclogues and Georgics. The hexameter is carefully studied and Vergil's spirit and contribution to Rome are considered. Prerequisite as for Latin 301.

Latin 303 (21). Tacitus. The Agricola and Germania. Prerequisite as for Latin 301.

Latin 341 (41). Methods in Latin. A half credit. Deals with the psychology of the subject, objectives, text books, etc. For Senior College students.

In both terms of the summer quarter reading courses are offered for senior College and for Junior College students.

GEOGRAPHY AND GEOLOGY.

FRANK H. COLYER.

MARJORIE MAE SHANK.

F. W. COX.

ANNEMARIE KRAUSE.

Geography 100. Principles of Geography. This is a prerequisite to all other geography courses. It deals with the essential facts and principles of the subject. This is a laboratory course.

Geography 200 (11a). Geography of North America. This is a regional study of the continent of North America. In this course considerable emphasis is given to the methods of presenting the subject in the grades. This continent is taught in Illinois in the sixth grade and other continents in the seventh and eighth.

Geography 205. Physiography. Students planning to take geology should take this course and all others who have not had physiography in high school. This is a laboratory course.

Geography 210. Economic Geography. Geographic conditions affecting industries, production and world trade. Text: Economic Geography by Whitbeck and Finch.

Geology 300. Physical Geology. This deals with materials composing earth, agencies and processes involved in its physical history. This course or 205 is prerequisite to geology 301 and 302. Laboratory and field work required: Text: Pirsson and Schuchert. Part I.

Geology 301. Historical Geology, Rocks and Minerals. First Part of Historical Geology. Laboratory deals with study of chief minerals and rocks. Text: Rocks and Minerals by Pirsson; First Part Historical Geology by Pirsson and Schuchert Part II.

Geology 302. Historical Geology. Continuation of Historical Geology and study of chief animals and plants characteristic of different geologic periods. Text: Historical Geology by Pirsson and Schuchert.

Geography 305. Advanced Economic Geography. A study of staple commodities of the world and factors influencing their production, transportation and marketing conditions.

Geography 310. Meteorology. This treats of the conditions of the atmosphere, changes in meteorological elements. Causes of these changes, factors and laws involved in study of weather and climate.

Geography 315. Geography of Europe. A study of life conditions as influenced by climate, relief features, soils, minerals and natural resources. Political and economic conditions.

Geography 316. Geography of South America. World relations of South America. Population, economic conditions and foreign trade as influenced by location, climate, relief, size, shape, and other natural conditions and resources.

Geography 320. Geography of Africa and Australia. Life conditions as influenced by location, relief, climate, soils, and minerals. Vast mineral resources and rapid development of South Africa. Almost complete domination of European countries in Africa.

Geography 318. Geography of Asia. Life conditions and economic development as influenced by location, climate, relief, size, shape, and other natural conditions.

Geography 319. Geographic Influences in American History. A careful study of the natural environment which has furnished the setting for American History together with an inquiry into the relation between a number of events, movements and developments and their natural environment.

Geography 325. Conservation of Natural Resources. This gives a survey of our natural resources, waste in production and use. What may be done to prevent future waste. Text: Conservation of Our Natural Resources by Van Hise and Havemeyer.

Geography 330. Problems of Political Geography. A study of the political units of the world, which set forth the location and resources of independent political units, dominions, colonies, and mandates and the effect of geographic factors upon the commercial, social and other relations that exist between the various political units. Text: The New World. Bowman.

HISTORY.

RICHARD L. BEYER.
GEORGE W. SMITH.
E. G. LENTZ.
SARA S. BAKER.
CHARLES J. PARDEE.
RUSSELL M. NOLEN.
CLARENCE H. CRAMER.

History 105 and History 106 are pre-requisites for advanced courses in European History, while History 110 and History 111 are pre-requisites for advanced courses in American History.

Hist. 105. Modern Europe, 1500-1815. This is a survey course in European History which is designed to give the student an appreciation of the broad outlines of the history of western civilization. Required of all history majors. Beyer and Smith.

Hist. 106 (17). Modern Europe, 1815-1930. This course naturally follows Hist. 105 and is designed to carry forward in their proper

sequence and causal relationships those tendencies which exist in the Europe of today. Required of all history majors. Pardee and Cramer.

Hist. 110 (14). American History, 1763-1860. This is a survey course in the fundamental aspects of American History from the conquest of New France in 1763 to the southern war for independence in 1861. Required of all students. Beyer, Baker, Pardee.

Hist. 111. American History, 1865-1930. A fundamental course dealing with the main features of American History from Appomatox to the present time. Required of all history majors. Lentz, Baker, Cramer.

Hist. 210. Methods of Teaching History. One-half credit. Designed to aid history instructors by providing actual contacts with historical material and by suggesting means for the presentation of history to grade and high school students. Beyer.

Hist. 305 (15 and 16). Ancient Civilizations. A survey course in the development of Greek and Roman social, economic, and political life. Pardee.

Hist. 310 (23). The Middle Ages. This is an examination of Europe from the Ancient World to approximately 1300. Feudalism is emphasized but a treatment of the religious and intellectual life of Europe is included. Cramer.

Hist. 315 (35). Renaissance and Reformation. Pre-requisite, 305. This is a treatment of the Renaissance of culture and humanism and of the tremendous social and political influence growing out of the Reformation.

Hist. 320 (24). The French Revolution. Pre-requisite, 105. This course occupies a middle ground between the old and the new order—the final extinction of the remnants of the feudal system. Beginning with the Old Regime the study is carried through the revolutionary cycle concluding with the fall of the Napoleonic Empire. Lentz.

Hist. 322. English History to 1603. A study of England from ancient times to the death of Elizabeth, the course emphasizing the evolution of the various phases of institutional life of the State. Lentz.

Hist. 323. English History, 1603-1815. A careful tracing of Stuart and Hanoverian England to the end of the Napoleonic Wars. Attention will be devoted to the beginnings of imperialism, the development and collapse of absolutism, and the progress of constitutional government. Lentz.

Hist. 324. English History, 1815-1930. An investigation of the Era of Reform, the building of the second British Empire, pre- and post-war Britain. A study will be made of recent British problems and the Commonwealth of Nations. Lentz.

Hist. 325. American Colonial History. This is an advanced course dealing with the transplanting of European institutions to North America but emphasizing those developments which were most important in determining the establishment and development of the English colonies. A close study is made of the British colonial system and of the growth of the movement for independence. Prerequisite, 105. Beyer.

Hist. 330. Middle Period of American History, 1815-1860. A study of those conflicting sectional and nationalistic forces which characterized this period. Those economic and sectional forces leading to the Civil War are properly stressed. Prerequisite, 110. Baker.

Hist 335 (27). Recent American History, 1865-1930. This is intended to be an intensive study of reconstruction, of all those financial and political problems growing out of the Civil War, and of the factors which have brought the United States into the position of a world power. Prerequisites, 110 and 111. Baker, Cramer.

Hist. 340 (42). History of American Diplomacy. This is an historical treatment of the political relationship between the Government of the United States and the governments of those nations with which we have come into contact from 1774 to 1929. Prerequisites, 110 and 111. Cramer.

Hist. 342. History of the West. An intensive study of the influence of the frontier on the main trends in American History. Prerequisites, Hist. 110 and Hist. 111. Beyer.

Hist. 344. European History, 1815-1870. This is an advanced course dealing with the main features of European civilization from the conservative reaction which followed the Napoleonic Wars to the intense period of nationalism marked by the unification of Germany in 1870. Cramer.

Hist. 345. Contemporary European History. In this course a study is made of the most important social, economic, and political developments in European History from 1870 to the present time. Prerequisites, 105 and 106. Beyer.

Hist. 350. World War and Reconstruction. A study of the fundamental and immediate causes of the World War, the peace settlements, the Succession States, the League of Nations, the Communist experiment in Russia and other post-war problems. Cramer.

HOUSEHOLD ARTS.

LUCY K. WOODY.

MARY LOUISE FRY.

Household Arts 105 (5a) 106 (6a), 107 (7a). Foods and Cookery. No prerequisites. A year's work divided into three units for Freshmen and unclassified students who wish to elect a general course in foods and cookery.

Household Arts 205 (5), 206 (6), 207 (7). Foods and Cookery. Prerequisites: One year of inorganic chemistry, general botany or zoology. A year's course in the study of production, marketing, relative costs, nutritive values and preparation of food.

Course 205. A consideration of heat, fuels, apparatus, food preservation, fruits, vegetables, starches and sugar.

Course 206. Beverages, dairy products, eggs, meat, fish, poultry, meat substitutes, fats.

Course 207. Flour mixtures salads, desserts, meal planning and service, buying, pure food laws.

Text: Food Products, Sherman; References.

Household Arts 120 (11c) Elementary Nutrition and Cookery. No prerequisites. A term of elementary nuttrition combined with fundamental cookery problems especially designed for the first course in foods for nurses. Open to nurses of Holden Hospital, freshmen and unclassified students.

Household Arts 125 (2). Garment Making. This course embraces both hand and machine work. Stress is laid upon the suitability of material and trimmings and upon economical purchasing. The work involves the use and alteration of commercial patterns, some drafting and the various methods of trimming. The work in textiles embraces the history of the industry and the fundamentals of cloth making.

Text: Textiles, Woolman and McGowan.

Household Arts 130 (3). Dress Making. Prerequisites. Household Arts 125. This course involves the making of two summer dresses, a study of materials, color combinations and line in dress, some drafting of patterns and elaboration of plain patterns. In textiles the work includes the study of the important fibers in relation to careful buying.

Text: Textiles, Woolman and McGowan.

Household Arts 320 (11) Nutrition and Dietetics. Prerequisites: Foods and Cookery, 205, 206, 207; General Botany, 101, or Zoology, 101; Physiology, 201; two terms of Organic Chemistry. A study of food and its relation to the body, planning dietaries for infants, children and adults.

Text: The Chemistry of Food and Nutrition, Sherman; Laboratory Manual for Dietetics.

Household Arts 325. Organization and Management of the Household. A study of family incomes, household equipment and activities with special emphasis on the economic aspects of managing a home. No prerequisite.

Household Arts 326. Art in the Home. A course without prerequisite in fine arts, planned for students who desire to know the art principles in their application to the house. One-half credit.

Household Arts 330 (19). Costume Design and Draping. Prerequisites: H. A. 130 and Art 115 and 110.

In this course dresses are constructed in inexpensive materials. These are planned from the standpoint of becomingness to the individual. A study of historic costume accompanies the work and helps to furnish suggestions for the plans.

Household Arts 335. Meal planning and Table Service. Designed especially for upper classmen. This is a course involving the elementary science of nutrition and its application to meal planning.

Household Arts 360 (14). Advanced Dressmaking. Prerequisites: H. A. 330 and H. A. 130.

This course involves the handling of silk and wool in tailoring, draping and the use of commercial patterns. A term paper is required following investigation and discussion.

Household Arts 375. Senior College Sewing. No prerequisite except senior college standing. A survey course in clothing including

INDUSTRIAL ARTS.

LOUIS C. PETERSEN.

201 (1). Primary Handwork. For teachers of the lower grades. Method in paper cutting and construction, booklet making, applied design, knotting, braiding, weaving, raphia work, simple basketry; representation of tribal camps and Colonial villages. Organization and presentation of subject matter.

Text: Paper Craft Problems, Hammond. One-half credit.

202 (1a). Upper Grade Handwork. Method of designing and weaving reed baskets, light-wood construction, toy-making, lettering, drawing, working out instruction sheets, organization of material of instruction, class management in industrial arts. One-half credit.

101 (11). Mechanical Drawing. This is a course for beginners and includes the use of instruments, applied geometry, lettering, orthographic projection, developed surfaces, intersections of solids, working drawings. Text: Engineering Drawing, French. One credit.

102 (12). Architectural Drawing. Prerequisite: Industrial Arts 101. This course includes architectural lettering, conventions, plans and elevations, study of building materials, specifications, computation of strength of beams, pillars, stairways. Text: Progressive Steps in Architectural Drawing, Seaman. One credit.

103 (13). Machine Drawing. Prerequisite: Industrial Arts 101. In this course the characteristics of metals and machine parts are studied. Typical machine elements are worked out in drawings such as different forms of screw threads, cams, gears, kinematics as applied to machinery. Tracing and blueprinting. Text: Engineering Drawing, French. One credit.

104. Advanced Architectural Drawing. Prerequisite: Industrial Arts 102. Study of the Classic Orders, mechanical perspective, shades and shadows, rendering. Complex architectural problems are worked out. Text: Architectural Drawing, Field. One credit.

105. Advanced Machine Drawing. Prerequisite. Industrial Arts 103. Study of machine design, properties of metals and alloys, working out tables for proportional machine parts, designing of tools and simple machines. Text: Design of Machine Elements, Mease and Nordenholt. One credit.

212. Woodturning. Prerequisite: Industrial Arts 101. Practice in the tool processes used by skilled woodturners, care of power-driven machines and tools, working out designs in wood as applied in furniture construction and pattern making. Text: Problems in Artistic Wood Turning, Ensinger. One credit.

213. Furniture Construction. Prerequisite: Industrial Arts 212. Study of the principles of design and period furniture. Practice in designing and construction of furniture that can be made in school shops. Machine woodworking, care of shop equipment. One credit.

214 (6a). Pattern Making. Prerequisite: Industrial Arts 212. Study of draft, shrinkage, finish, core prints and core boxes. Practice in moulding and core making, casting soft metal, making patterns for

small machine parts. Text: Wood Pattern Making, McCaslin. One credit.

221 (8). Art Metal Craft. This course is for beginners in metal work and embodies in the design and construction of useful articles such processes as forming curves, stretching and raising, punching, drilling, riveting, sawing, filing, annealing, hardening, soldering, etching and coloring by heat and chemicals. Text: 101 Metalworking Projects. Petersen. One credit.

222 (9). Machine Metal Work. Study of the engine lathe and drill press, proper cutting speeds and feeds, shaping and grinding cutting tools, straight and taper turning between centers, filing and polishing, thread-cutting, figuring change gears, chuck work, facing, boring, and reaming. Forging and tempering tools. Text: Machine Tool Operation, Bughart. One credit.

223 (10). Machine Shop Practice. Prerequisite: Industrial Arts 222. Practice in fastening work on planer platen and in taking cuts at different angles to produce flat surfaces. Work in scraping and testing true surfaces and in fitting machine parts. One credit.

MATHEMATICS.

W. T. FELTS.

ALICE KELSEY.

J. R. PURDY.

The Department of Mathematics offers fifteen full two-and-one-half hour courses, and three half-credit or one-and-one-quarter hour courses with a view of meeting three types of needs of students:

(1) The mathematical requirement for graduation from Junior College; (2) A minimum of necessary college mathematics to meet the requirements for a special certificate to teach mathematics in two and three year high schools; (3) To meet the requirements of a minimum of twenty-two and a half hours college mathematics for a major in the subject in completing the work for a degree.

Freshman.

Math. 101 (91). College Algebra I. A course in the algebraic topics usually found in the third semester of high school algebra treated more extensively than in high school. It is a non-credit course for those offering a year and a half of Algebra from a credited high school and who wish to review the course before taking College Algebra II. This course does not transfer to the University unless followed by Math. 102, College Algebra II. Prerequisite: One year of high school Algebra.

Math. 102 (19a). College Algebra II. A course such as is usually offered as College Algebra in colleges. Prerequisite: College Algebra I or one and a half years of high school algebra.

Math. 105 (25). Trigonometry. The work usually covered in a two and one-half hour course in plane trigonometry. Prerequisite: College Alg. I or one and one half years of high school algebro, and one year of Plane Geometry.

Math. 110 (30). Method Arithmetic. A course in the pedagogy and psychology or arithmetic for those who are planning to teach arithmetic in the elementary grades. Problem solving in this course is illustrative and supplementary.

Math. 201 (27). Analytics I. Cartesian Coordinates, curve and equation, straight line, circle, polar, coordinates, functions and graphs, transformation of coordinates. Prerequisites: Trigonometry and College Algebra II.

Math. 202 (28). Analytics II. A special study of conic sections, asymptotes, transcendental curves and equations. Prerequisite: Analytics I.

Math. 230. Solid Analytics. A two and a half hour course in such topics as are usually found in such course. Prerequisite: Analytics II.

Math. 205 (36). Descriptive Geometry. A short course in the elements of descriptive geometry to prepare for further work in engineering or mechanical courses and to enlarge and enrich the student's space concepts. Prerequisite: Analytics II.

Math. 300. College Geometry. This is a course in synthetic geometry. It continues and expands the study of the basic topics of plane geometry, such as the locus, the triangle, transversals, poles and polars, proportion, inversion, etc. Its aim is to strengthen the teacher of high school geometry. Prerequisite: 7½ hours of college mathematics.

Math. 301 (44). Calculus I. The elements of differential calculus with applications. Prerequisite: Analytics II.

Math. 302 (45). Calculus II. The elements of intergal calculus with applications and occasional advance forms of differentiation. Prerequisite: Calculus I.

Math. 303 (45a). Calculus III. An extension of Calculus I and II. Multiple differentiations and integrations in connection with special applications.

Math. 304 (45b). Calculus IV. A half-credit course extending the work of Calculus III, Summation, mass, mean, density, moments, centroids singular points, etc. Offered only during First Summer Term. Prerequisite: Calculus III.

Math. 305. Differential Equations. A full credit course covering the topics usually found in a two and a half hour course. Prerequisite: Math. 310.

Math. 310. (1st Half of Math. 46). The Teaching of High School Algebra. A half credit course—one and three quarter hours—in the methods of teaching high school algebra. Prerequisite: Col. Alg. II.

Math. 311. (2nd Half of Math. 46). The Teaching of Plane Geometry. A half credit course in methods of teaching high school geometry.

Math. 315. History of Mathematics. A course in the history of the development of mathematical concepts and processes. Prerequisite: Calculus III.

Math. 320. Theory of Equations. Prerequisites: Calculus II.

MUSIC.

DAVID S. MC INTOSH.
JULIA D. CHASTAINE.
HELEN E. MATHES.
WENDELL MARGRAVE.

Music 105 (Music I). Sight Singing and Theory. This course is offered to those students who have not had elementary training in music. It consists mainly of sight-reading simple songs and exercises; but also includes drill in pitch, rhythm, and theory.

Music 107. Song Leading and Community Singing. The social aspects of music. Daily practice in the simpler phases of conducting, stressing song leading. Elementary instruction on simple instruments for camps and playgrounds. Organizing of musical activities for the student body. Aims to prepare students as teachers and citizens to broaden the appeal of music. Open to students with slight musical training for ½ credit.

Music 110 (Music II). Study of Primary Music Materials. This course is designed to meet the music requirements demanded of the primary grade teacher. The work covers the following topics: the child voice, rhythm development, note singing, sight singing, music appreciation. Prerequisite: Music 105, or previous training equivalent to that course.

Music 215 (Music 2). Study of Intermediate Music Materials. This course is designed to meet the music requirements demanded of the Intermediate Grade Teacher. The work covers the following topics: two-part singing, sight reading, three part singing, practice use of the minor mode, music appreciation. Prerequisite: Music 105, or previous training equivalent to that course.

Music 125 (Music 5). Harmony. The work covers the formation of major and minor scales, a thorough study of intervals, the common chord, and harmonic progressions. Prerequisites: Music 1 or equivalent.

Music 230 (Music 6). Harmony. A continuation of Music 5. The course covers harmonic progressions, the chord of the sixth and the six-four, the dominant seventh and its inversions, and natural modulations.

Music 231. Harmony. A continuation of Music 230. A study of the dominant seventh and its inversions, diminished sevenths, secondary chords of the seventh, altered chords, mixed chords and modulation.

Music 235 (Music 10). History of Music. A general course covering the important movements of the following periods: uncivilized and ancient music, medieval music, the nineteenth century, the seventeenth century, the eighteenth and early nineteenth century.

Music 305 (Music 8). Junior High and Senior High School Music Materials. The problems of vocal music and instrumental music relating to the Junior High School and Senior High School are stud-

ied. Practical instruction in conducting is given. Prerequisite: Music 105 or equivalent.

Music 310 (Music 9). Technic of School Orchestras and Bands. This course offers a study of all the orchestral instruments, the common band instruments, and scoring for the orchestra. The entire course is outlined and conducted in terms of the grade school and high school band and orchestra. Prerequisite: Music 125.

Music 312. Musical Form and Harmonic Analysis. Analysis of compositions is made the basis of the study and classification of the various types of musical form, including the sonata form. Prerequisite: Music 230.

Music 320 (Music 12). Harmony. A continuation of Music 315 Chromatically altered chords, suspensions, ornamental tones, and modulations. Text: Modern Harmony, by Foote and Spalding.

Applied Music.

Class instruction in piano, violin, and other orchestral instruments is elective. Classes recite three days each week, one credit being given for three terms' work.

Music 150-151-152 (Music 21, 22, 23). Violin, First Year. The subject matter of the text used is correlated with the singing lesson wherever possible. Emphasis is placed upon the mechanics of the instrument by employing: (1) short and easily memorized exercises in rhythmic form for the development of the bow, hand and arm; and (2) technical exercises suitable for young beginners designed for the purpose of training the left hand. Text: Max Fischel's Graded Course, Book 1 and Book 2.

Music 160-161-162 (Music 24, 25, 26). Violin, Second Year. The work of the second year provides for the presentation and the development of the third position, the more difficult keys, rhythms, bowings, and the easier harmonies; during the latter part of the year the seven positions in scale form are used. Text: Elementary Violin Lessons by Eugene Gruenberg and Max Fischel's Book 3.

Music 170-171-172 (Music 40, 41, 42). Piano, First Year. Teaching of the rudiments of piano playing from one of the most approved methods for beginners. Careful attention is given to hand culture, touch, music notation, rhythm and ear training. Text: Standard Graded Course of Studies by W. S. B. Mathews.

Music 180-181-182 (Music 43, 44, 45). Piano, Second Year. The W. S. B. Mathews Standard Graded Course continued.

Music 190. Applied Music. Elementary voice training. This work is done in class and is open to all students.

The University maintains a band, orchestra, and a chorus. Students who are especially interested in music are urged to apply for membership in at least one of these organizations. Students who qualify for either Orchestra or Band will have their tuition refunded.

PHYSICAL EDUCATION FOR MEN.

WM. MC ANDREW.

LELAND LINGLE.

VINCENT DI GIOVANNA.

Physical Education 151 (7). Fall Term. Marching tactics, calisthenics, group games, individual combative contests.

Physical Education 152 (8). Winter term. Boxing, wrestling, tumbling, apparatus work, and group games.

Physical Education 153 (9). Spring term. Track, baseball, and group games.

All freshmen are required to take physical education throughout the year, three times per week. Unless a student is a member of one of the team squads he will be required to take the above three courses.

Illinois law requires 144 forty-minute periods of physical education for graduation from normal schools.

Physical Education 170 (11). The school supports a foot ball team during the fall term. Physical training credit is given to the men who remain on the squad. Students are not dropped from the squad because they have no chance of making the team. They are encouraged to work for the physical benefits and to learn the game.

Physical Education 171 (12). A basket ball team represents the school during the winter term. The statement above concerning the foot ball team holds true for basket ball.

Physical Education 172 (14). Track. The same facts hold for this branch of sport as for courses 170 and 171.

Physical Education 173 (15). The men who made the tennis squad are given credit.

Physical Education 154. Football. Theory and practice on the field. Each student is given individual instruction and practice in all the fundamentals for linemen and backs. Team play is emphasized in the latter part of the course. Students participate in actual scrimmage. Texts: Football, by K. K. Rockne; Football Technique and Tactics by R. C. Zuppke.

Three hours per day, five days per week, one term, one credit.

Physical Education 155. Basketball. Theory and practice on the floor. The basic fundamentals of the game are studied and practiced. The first part of the course is devoted to the learning of the fundamentals and the latter part of the course gives attention to the analysis of offensive and defensive systems and team work. Text: Basketball by Veenker.

Three hours per day, five days per week, one term, one credit.

Physical Education 156. Track and Field. Instruction and practice in all the individual track events and the separate field events. Actual performance in all events required of the student. How to organize and conduct track and field meets is a part of the course. Text: Track and Field by Tom Jones.

Three hours per day, five days per week, one term, one credit.

Physical Education 201. Boxing. The theory and practice of the art of self defense with special emphasis on fundamentals. Attention will be given to conditioning and training procedures and to the management of tournaments and exhibitions. Text: Boxing by Jack O'Brien and S. E. Billik.

One hour per day, four days per week, one term, one-half credit.

Physical Education 202. Wrestling. Modern and scientific methods of offensive and defensive tactics in wrestling with special emphasis on mat generalship. Text: Wrestling by Paul Prehn.

One hour per day, four days per week, one term, one-half credit.

Physical Education 203. Gymnasium Activities 1. This course aims principally to develop individual technique in the activities listed. The materials covered are as follows: first, the practice of single line marching maneuvers; second, the practice of calisthenics; third, the practice of simple stunts, self testing activities, on the more popular pieces of heavy apparatus and the tumbling mats; fourth, games, contests, and relays adapted to the interests, needs and capacities of the group.

Two hours per day, four days per week, one term, one credit.

Physical Education 250. Materials and Methods for Teaching Physical Education in the Elementary Schools. This course is a study, demonstration, and practice of the physical education activities of children from six to fourteen years of age. It includes first, a presentation and study of graded lists of activities adapted to the age periods of the child and second, the organization, management, and methods in the leadership of the activities. Text: Physical Education for Public Schools by F. W. Maroney.

One hour per day, four days per week, one term, one credit.

Physical Education 301. Gymnasium Activities 2. A progressive continuation of gymnasium activities 1, which, in addition to the practice for development of individual technique, includes the theory and pedagogy involved in the activities. Prerequisite: Physical Education 203. Texts: Calisthenics by S. C. Staley; Marching Tactics by S. C. Staley; Exercises on the Apparatus, Tumbling and Stunts, by W. J. Wittich and H. C. Reuter; Games, Contests, and Relays by S. C. Staley.

Two hours per day, four days per week, one term, one credit.

Physical Education 302. Materials and Methods for Teaching Physical Education Activities in Junior and Senior High Schools. A study, demonstration, and practice of the "total-body" activities adapted to the age needs, interests, and capacities of junior and senior high school boys. Emphasis is placed on the principles of leadership in an organized schedule of outdoor and indoor development activities which will necessitate a thorough knowledge of the purpose, aims, the remote and immediate objectives of physical education, and the changing factors which are involved in building a school program. Texts: School Program in Physical Education by C. W. Hetherington; Education by Plays and Games by G. E. Johnson; The Practice of Organized Play by W. Bowen.

One hour per day, four days per week, one term, one credit.

Physical Education 303. Kinesiology. This course deals with the mechanical analysis of physical education activities through the study of joint and muscle action. Text: The Action of Muscles by W. C. Mackenzie. Prerequisites: one term each of Anatomy and Physiology.

One hour per day, four days per week, one term, one credit.

PHYSICAL EDUCATION FOR WOMEN.

FRANCES ETHERIDGE.

DOROTHY MUZZEY.

AILEEN CARPENTER.

Practical Courses:

101 (1). Physical Education. General course required of freshmen. Fall term. Three days a week. (3/9) credit.

102 (2). Physical Education. Continuation of 101. Winter term. Three days a week. (3/9) credit.

103 (3). Physical Education. Continuation of 102. Spring term. Three days a week. (3/9) credit.

101A. Physical Education. Individual course for such students as are unable to take regular physical education work. Fall term. Three days a week. (3/9) credit.

102A. Physical Education. Continuation of 101A. Winter term. Three days a week. (3/9) credit.

103A. Physical Education. Continuation of 102A. Spring term. Three days a week. (3/9) credit.

201A. Physical Education. Individual course for sophomores unable to take regular physical education work. Fall term. Two days a week (2/9) credit.

202A. Physical Education. Continuation of 201A. Winter term. Two days a week. (2/9) credit.

203A. Physical Education. Continuation of 202A. Spring term. Two days a week. (2/9) credit.

210. Soccer and Volley Ball. Fall term. Two days a week. (2/9) credit.

211. Hockey. Fall term. Two days a week. (2/9) credit.

212. Basketball. Winter term. Two days a week. (2/9) credit.

213. Basketball. Spring term. Two days a week. (2/9) credit.

214. Archery. Fall, Winter and Spring terms. Two days a week. (2/9) credit.

216. Tennis. Fall and spring terms. Two days a week. (2/9) credit.

220. Gymnastics and Stunts. Fall term. Two days a week. (2/9) credit.

221. Gymnastics and stunts. Continuation of 220. Winter term (2/9) credit.

222. Gymnastics and stunts. Continuation of 221. Spring term (2/9) credit.

226. Track and field athletics. Spring term. Two days a week. (2/9) credit.

230. Folk dancing. Fall term. Two days a week. (2/9) credit.

231. Folk dancing. Winter term. Two days a week. (2/9) credit.

232. Folk dancing. Spring term. Two days a week. (2/9) credit.

233. Interpretative dancing. Fall term. Two days a week. (2/9) credit.

234. Interpretative dancing. Winter term. Two days a week. (2/9) credit.

235. Interpretative dancing. Spring term. Two days a week. (2/9) credit.

236. Clog and Character dancing. Fall, Winter or Spring terms. Two days a week. (2/9) credit.

237. Advanced Clog and Character dancing. Fall, Winter or Spring terms. Two days a week. (2/9) credit.

240. Group games. Fall term. Two days a week. (2/9) credit.

241. Group games. Continuation of 240. Winter term. (2/9) credit.

242. Singing and Playground Games. Spring term. Two days a week. (2/9 credit.

Theory Courses:

245 (6). Playground. A general course for play leaders in the organization and management of play. The nature of play, its origin, and the growth of the play movement is studied in connection with the practice of games and playground activities. Spring term. Four periods a week. One credit.

Prerequisite: Two terms of physical education work or consent of instructor.

205. Physical Education Method I. (215.) Principles, aims, and objectives of physical education. Adaptation of activities according to the age interests of elementary school children. Principles and technique of teaching and officiating hockey and soccer. Fall term, 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite: Sophomore standing.

206. Physical Education Method II. (225.) Principles and theory of selecting and teaching gymnastic material. Elementary rhythm work and dramatic play for small children. Practice in folk and national dances, clog, and character dances. Principles and technique of teaching and officiating volley ball and basketball. Winter term. 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite Method I. or equivalent.

207. Physical Education Method III. Methods of selecting and adapting material to the building of a physical education curriculum. Principles of teaching elementary tumbling and stunts. Organization and conduct of festivals, meets, and demonstrations. Principles and technique of teaching and officiating baseball and track. Spring term. 4 periods a week of class work. 3 laboratory periods a week of practical work. One credit. Prerequisite Method II or equivalent.

208. Kinesiology. Analysis of the joint and muscular mechanism of various movements involved in gymnastic games and dancing. Study of the movements of everyday life in relation to the problem of bodily development and efficiency. Fall term. One credit. Prerequisite: College physiology.

223. Corrective gymnastic and First Aid. Application of posture examination procedure to schoolroom conditions. Exercises which tend to counteract and prevent faulty postural conditions. Elementary study of first aid. Winter term. One credit.

15/9 credit in practical courses is required for graduation.

PHYSICS AND ASTRONOMY.

S. E. BOOMER.

CHARLOTTE ZIMMERSCHIED.

O. B. YOUNG.

The department is provided with excellent equipment for its work. Two distinct courses of one year in general physics are offered, —one for those who have had no previous training in the subject and one for those who have had one year of high school physics. Beyond these there are eight one term courses, any six of which may be added to 206, 207, 208, to complete a major. Those who have not had high school physics but who desire to take more than one year in college should begin with 206 rather than with 201. Those who plan to major in physics should take the following courses in mathematics as early as practicable, either preceding the courses in physics or simultaneous with them: Numbers 101, 105, 201, 202, 301, 302.

Physics 201 (2), Mechanics and Sound; 202 (3), Magnetism and Electricity; 203 (4), Heat and Light constitute a year's work for those who have had no previous preparation. No mathematics is necessary beyond high school. Spinney is the text.

Physics 206, Mechanics and Sound; 207 (7), Magnetism and Electricity; 208 (8), Heat and Light constitute the years' work for those who have had high school physics. Mathematics 100 and 105 are desirable preceding or accompanying these courses but they are not necessary. Spinney's text and Taylor, Watson, and Howe's manual are used.

Mathematics 101 and 105 should precede the following courses:

Physics 301 (13), Mechanics. Jameson's Elementary Mechanics is the text.

Physics 301A, Analytical Mechanics for Engineers. Seely and Ensign's text. This course is patterned after the first semester's work of the corresponding course offered at the University of Illinois. No student should take both 301 and 301A. Prerequisite: Calculus or registration therein.

Mathematics 201, 202, 301, and 302 should precede the following courses:

Physics 303 (14), Heat, Draper's text.

Physics 305 (15), Magnetism and Electricity, Timbie's Elements of Electricity for Technical Students is the text.

Physics 306, Magnetic and Electrical Measurements. Various manuals.

Physics 308 (17), Sound. Wood's Sound is the text.

Physics 310 (16), Light. Robertson's Physical Optics.

Physics 312 (18, formerly half credit.) *Radio,* Loomis' Radio Theory and Operating.

Physics 314 (19, formerly half credit), *Introduction to Modern Physics.* Richtmeyer's text.

Astronomy 201 (1) and Astronomy 202 (2) constitute a two term course. Duncan's text. Four recitations per week, together with frequent evening observations with and without the telescope, constitute the work. As the students go on in their study from the earth to the moon, the sun, the planets, the stars, and the nebulae, their vision is broadened perhaps as rapidly in this enobling science as it can be in any subject. The varying phases of the moon and the inferior planets, the vast distances to the stars, their great magnitude and high velocities, their constitution, temperature, and brilliance appeal especially to those who enjoy thinking along these lines. Those who take the course will find it helpful in presenting the difficult problems of mathematical geography and in vitalizing their nature study work.

Astronomy 301 and 302. A heavier course, similar to above, for senior college students. Text, Baker.

PHYSIOLOGY AND HEALTH EDUCATION.

DELIA CALDWELL.

FLORENCE DENNY.

P. & H. 201 (Biology 4a). College Physiology. This course covers a study of the development of the human body and of the anatomy, physiology and hygiene of the great systems which carry on its work. Besides giving to teachers the necessary knowledge of the human mechanism, it will form the basis for the more extended study of Human Anatomy and Physiology for students taking the professional courses of Medicine and Dentistry. Lectures, recitations and laboratory work. Prerequisites: One term of either Freshman Botany or Freshman Zoology. Fall term.

P. & H. 301 (Biology 24). Bacteriology and Sanitation. An introduction to the study of sanitary science, including a study of the morphology and physiology of microorganisms and their relationship to human interests. The following phases of the subject are considered: sterilization and disinfection; preparation and use of culture media; microscopic examination of microorganisms; bacteriology of soil, milk and water, and the pathogenic organisms and their relations to the production of communicable diseases. Lectures, recitations and laboratory work. Prerequisites: Freshman Botany or Freshman Zoology or College Physiology. Winter term.

P. & H. 202 (Biology 43). Health Education. This course will teach the meaning of health, its value to the individual and to the community; how it may be attained and how preserved. Special attention will be given to the hygiene of the mouth and teeth and to the organs of special sense. The principles of the prevention of communicable diseases will be taught and their application to the individual and to the community clearly demonstrated. This teaching will be adapted to the needs of the students themselves, for the improvement of their own health and detailed instruction will be given for the application of this work to the teaching of health in all of the grades of public schools. Lectures and recitations. Offered at every term.

POLITICAL SCIENCE.

WILLIS G. SWARTZ.

Pol. Sci. 210 (44). Principles of Government. An introductory survey of the basic features of the state and of the leading types of governmental organization. This course should be taken as a background for all other courses in political science.

Pol. Sci. 220 (360). European Governments. This course is a comparative study of the principal governments of Europe, emphasizing those constitutional developments which took place after the World War. History 106 is especially recommended as a background.

Pol. Sci. 230 (365). American National Government. A survey of the structure, functions, and principles of the government of the United States. The development of the federal constitution; the president and his powers; national administration; Congressional organization, powers and procedure; the federal judicial system. History 110, 111 form a particularly helpful basic for this course.

Pol. Sci. 366. State and Local Government. A study of the leading problems of government and administration in the American state, with particular attention to the central executive, legislature and judiciary, the county and township system, and problems such as taxation, public health, education, commerce and industry. Pol. Sci. 230; History 110, 111 are recommended as preparatory courses.

Pol. Sci. 367. Municipal Government and Administration. A study of the evolution of city government in the United States; the increasing municipal functions and their development; the various forms of city government, municipal elections, charters, etc. Pol. Sci. 230, 366; History 110, 111 afford a helpful background for this course.

Pol. Sci. 370. International Relations. A study of modern international organization and the problems of world politics. Special attention is given to such topics as modern imperialism, present-day colonial systems, the League of Nations and post-war problems. History 106 is especially recommended as preparatory background.

Pol. Sci. 375. International Law. A study of the legal rules and practices governing the nations of the world in their relations in peace and war. Special attention will be given to these legal decisions which are recognized as important precedents in international law.

Pol. Sci. 380. Political Parties. The development of political parties in the United States; the fundamental principles underlying party organization and functions; the party platform, nominating systems, campaign methods, civil service reform, etc. Pol. Sci. 230; History 110, 111 are recommended as basic preparation.

Pol. Sci. 385. European Political Thought. An advanced survey of European political theories, from the Ancient Greeks to the present, together with the influence and application of these theories in modern governments. History 105, 106, 305, 310 afford the necessary historical background for this work.

Pol. Sci. 387. American Political Thought. An advanced study of the political ideas of leading American statesmen and publicists, together with their resulting influence upon our governmental system. Pol. Sci. 230; History 110, 111 are essential as an historical basis for the course.

Pol. Sci. 390. Latin-American Governments. A survey of the political systems in Latin-America, including the historical background necessary for such a study.

Pol. Sci. 395. American Constitutional Law. In this course, an advanced study is made of the American constitution and its interpretation, particularly with reference to important legal cases. Prerequisites: Pol. Sci. 230; History 110, 111.

ZOOLOGY.

MARY M. STEAGALL.

HILDA A. STEIN.

The Zoology Courses are planned primarily to give general information of the principles that govern all animal life, and further for the benefit of those majoring in Zoology or using it as a basis for professional training.

Zool. 101 (1a). General Vertebrate Zoology. It deals with the salient facts of Vertebrate Zoology, taking note of evolutionary development. One form of each Chordate class will be studied, with especial emphasis on the Amphibian type. Open to all Junior College students. Text: Hegner's College Zoology.

Zool. 105 (2). Invertebrate Morphology. The complex cell will be studied, its specialization into various types, the rise of tissues, organs and systems characteristic of the various groups of Invertebrates. Text and requirements as above.

Zool. 110 (12). Field Zoology. This course consists in the study of local fauna, its taxonomy and distribution. Prerequisites: Zoology 101 and 105, or their equivalents. No text required.

Zool. 115 (6a). Economic Zoology. Library reading and lecture course in the study of relations of animals to man. Field trips are to include visits to Zoological Gardens, and such industries as orchard spraying, fisheries, furriers, meat markets, etc. Prerequisites: Zoology 101 and 105, or equivalents.

Zool. 200 (3). Comparative Vertebrate Anatomy I. Here studies of comparative skeletal and muscular structures are made from a phylogenetic and evolutionary view point. Prerequisite: Zoology, 101, or its equivalent. Text: Walter's, Biology of the Vertebrates. Manual: Myman's, Vertebrate Anatomy.

Zool. 201 (3a). Comparative Vertebrate Anatomy II. A continuation of the above, taking up a phylogenetic comparison of the organs and systems of Vertebrates. Prerequisite: Zoology 101. Text and Manual as above.

Zool. 210 (5). Ornithology...Objects To recognize the local birds, and to study the calls, feeding, nesting and migratory habits and their relation to human welfare. Prerequisite: Zoology 101, or its equavalent. Texts: Reed's Land Birds East of the Rockies. Chapman's Birds of the Eastern United States.

Zool. 215 (6). Entomology. Identification of the local insects, the study of the critical points in the life histories of insects and their relation to human health and wealth. Prerequisite: Zoology 105, or its equivalent. Text: An Introduction to Entomology, Comstock.

Zool. 250, Development and Heredity. A general course in the study of the facts and theories of the development of the plant and animal kingdoms, and heredity in plants and animals. Lectures, reading, and recitation. Prerequisites: Botany 102 and Zoology 105.

Zool. 300 (8). Vertebrate Embryology. Chick and pig embryos are used as types. Emphasis is placed on the ontogeny of the individual in its relation to Vertebrate phylogeny. Prerequisite: Zoology 101, or its equivalent. Text: Arey's Developmental Anatomy of Vertebrates. Manual: Lillie and Moore.

Zool. 301. Skeletal Morphology. An advanced study of the evolution of the vertebrate skeleton with special reference to the structure and developmental changes that take place in the different Vertebrate groups. Prerequisite: Zoology 200. Text: Kingsley, The Vertebral Skeleton.

Zool. 305 (2a). Comparative Anatomy of Invertebrates. The comparative study of the development of tissues, organs, and systems and their tendencies of in Invertebrates. Library readings and lectures. Prerequisites: Zoology 101 and 105, or their equivalent.

Zool. 310 (13). Animal Ecology. Animals in their habitats, relations, formations and associations. Prerequisite, one year of Zoology including Zoology 110. Text: Pearse's or Shelford's Ecology.

Zool. 311 (13a). Advanced Animal Ecology. A continuation of Zoology 310 with stress on some particular phases of animal relationship, or on some environmental factor.

Zool. 315 (14). Genetics. An elementary course, with experimental work along the lines of breeding, strains, etc., involving the principles or evolution and genetics. Text: Castle's Eugenics and Genetics.

Zool. 320 (9). Histology of Organs. Miscroscopic study of organs, and tissues, with their origin and development. Prerequisite: One year of Zoology. Texts: Hill's Organography; or Dahlgren and Kepner, Principles of Animal Histology.

Zool. 321 (9a). Histological Technique. The latest methods of preparing histological material in Biology. The development of a certain amount of technique is required. Prerequisite: Junior College Zoology. Texts: Guyer's Animal Micrology, Chamberlain's Methods in Plant Histology.

Zool. 322 (9b). Advanced Histology. Serial slide making, and the working out of special problems in technique. Prerequisite, Zoology 321. Texts, as above.

Zool. 330. History of Zoology. A short historical development of the science of Zoology from the time of the early Greek philosophers until the present time. This involves a study of the various theories and their influence upon the rise of Physiology, Embryology, Comparative Anatomy, Genetics and Ecology. Prerequisite: One year of Zoology. Text: Nordenskiold, The History of Biology.

THE TRAINING SCHOOLS.

The Training Schools include the following branches:

1. The University High School, which provides the practice teaching required for Senior College graduation, is located on the campus.
2. The Allyn Training School, which gives elementary school practice for Junior College graduation, is located on the campus.
3. The Brush Training School, which gives elementary school practice and training for grade principalships, is located in the city. The practice is for Junior College graduation.
4. The Rural Practice Schools, which give practice for Junior College Graduation, include five rural schools, located in near-by districts.

General Information.

Past experience in teaching will receive no practice credit.

Three units of practice work are required for Junior College graduation. This work will usually be done in the elementary grades.

Three units of actual practice work are required for Senior College graduation. This work will usually be done in the University High School, and one unit must be done in the student's major subjects.

Application for practice work, except Practice 1, must be made at the beginning of the term preceding the term in which the practice teaching is desired. Assignments in practice teaching will be made on the basis of the student's scholastic attainment and demonstrated ability.

The University High School.

A senior high school department with an enrollment limited to 55 in each year except the fourth, is maintained on the campus. Here a well trained faculty offers a program of studies typical of the best Southern Illinois High Schools. This school provides training facilities for the senior college practice teaching. Each of the four quarters, about 60 college students are enabled to do senior college training work.

It also provides an opportunity for those who have not met all the college entrance requirements to make up their deficiencies. The requirements for graduation are the same as for college entrance given on page 28.

The following Senior high school courses are offered:

Sophomore Year	*Junior Year*	*Senior Year*
English II	English III	English IV
Geometry	Solid Geometry	Physics
Agriculture	Advanced Algebra	Sociology
Biology	Chemistry	Economics
Latin II	Latin III	Civics
French	French II	Latin IV
World History	U. S. History	Typewriting II
Manual Training I	Manual Training II	Shorthand II
Home Economics	Home Economics	
Commercial Arithmetic	Commercial Law	
Bookkeeping	Commercial Geography	
Music	Typewriting I	
Art	Shorthand I	

The Allyn Training School.

Organization.—The Allyn Training School consists of the elementary grades, one to six inclusive, and the junior high school grades, seven to nine inclusive. In the first six grades there is a supervising teacher for all activities except the special lines of work. In the junior high school there are three supervising teachers directing departmental lines of work—English, the Social Sciences, Mathematics and Science. The special lines of work—music, art, physical training, and the manual arts in each department are supervised by teachers in these college departments.

The Training School is organized as nearly as possible like our best public schools. The curriculum, the socializing agencies employed, the testing program, the library and other facilities for carrying out the program are typical of our most progressive city schools.

Practice Teaching.—All sophomores, in the Junior College course, must have three terms of teaching under close supervision. When a student is classified as a sophomore in the Junior College course, practice becomes one of the required subjects and it must continue in consecutive terms until the course is completed. Practice opportunities in mid-spring and summer terms are reserved for teachers in service who attend these terms only, in completing the course.

The practice teacher is gradually introduced to his various activities. Those requiring least preparation and experience are given first; those requiring a higher degree of thinking are introduced second; and those involving the higher conceptions of planning and teaching are introduced last.

The supervisor's main function is to guide the practice teacher in the development and use of principles. These principles are found to be inherent in the aims of education, the nature and function to different lines of work, the stage of mental development of the pupils taught, the laws of learning, the various types of lesson procedures, and the planning of units of subject-matter to guide pupil activities from day to day. Through these principles the practice teacher will get experience in

supervising study, in planning for individual differences, in carrying out a testing program, and in planning and directing extra-curricular activities.

Standards to Achieve.—The standards in practice teaching recommended by the American Association of Teachers Colleges are closely followed. The standard for a term credit is sixty clock hours. Of these hours the supervisor may give two-fifths of the time to demonstration teaching and the practice teacher three-fifths to actual teaching. This will mean twenty-four periods of demonstration work by the supervisor, and thirty-six periods of teaching by the practice teacher. This standard cannot be maintained with more than one assigned to a class. The actual time consumed in teaching a class—the preparation, the group and individual conferences, is equal to one and one half periods in subject-matter courses. Hence, but one class period should be taken in practice teaching in any one term. The psychological principles of habit formation justify such a course. Time is the essence of such a course.

The Brush Practice School.

The purpose of the Brush Practice School is to give Junior College students an opportunity to practice under typical graded school conditions. The school is located in the best residential portion of the city and it a little over half mile from the normal campus. It is housed in a good substantial building, which is well lighted and decorated, and fairly well equipped as an educational work shop. The enrollment is just a little under 500. The school includes grades one to seven each in charge of a regular teacher or critic.

Students spend half of each day at the Brush and receive two credits for the term. They plan their work under guidance of the critic and teach only after such plans have been corrected or approved by the critic. Directed observation is carried on twice each week during the entire term. Such observation is made after study of reading references assigned and discussion of points to be observed.

Close conferences on subject matter and methods of presentation are held as often as deemed best by the critic. These may become fewer in number as the student shows proficiency in his work. Sets of pedagogical points and teaching concepts are presented regularly by the critics so that the student may become acquainted with the commonly accepted teaching procedures. Weekly or bi-weekly teachers' meetings are held throughout the term which serve as a clearing house for harmonizing the work of the school and for the presentation of discussions of general interest.

Students are supervised closely at all times, and especially during the beginning of the term. Gradually more responsibility is given them until they are allowed to take full charge of the room for stated periods. They work in a typical situation and when they go out to teach they feel at home in the school room.

Last year over one hundred forty students took their practice teaching work at the Brush Training School.

Rural Practice Schools.

During the year we have had charge of five rural schools for the purpose of giving rural practice teaching to those who have elected to teach in the country, or in small villages:

The Wagner School, Dist. No. 136, Jackson County.
The Bridge School, Dist. No. 92, Jackson County.
The Pleasant Grove School, Dist. No. 104, Jackson County.
The Buckles School, Dist. No. 98, Jackson County.
The Pleasant Hill School, Dist. No. 94, Jackson County.

One credit is given for six weeks of practice teaching. During this time the teacher puts in three and one-half sixty minute periods each day in the school. In addition to the above, students are required to submit a note book containing anything received from the course which they think might help them when they go out to teach for themselves. Plans, also, for two distinct recitations daily must be submitted and approved by the critic teachers.

For the coming year we have agreed to teach the following five rural schools, and provide each with a full-time critic:

The Wagner, Dist. No. 136, Jackson County.
The Pleasant Grove, Dist. No. 104, Jackson County.
The Rock Hill District No. 135, Jackson County.
The Buckles, Dist. No. 98, Jackson County.
The Pleasant Hill, Dist. No. 94, Jackson County.

All of these schools are to begin in September, one week before the opening of the College.

The course in rural practice will consist in—

(a) Attention to the purely physical phases of rural or small village schools; such as, the proper heating, lighting and ventilating of rooms; cleanliness in all its aspects; water supply; blackboards; maps; globes; libraries; toilets, etc.

(b) The beautifying of school premises, clean up days, patrons days, parent-teacher associations, club work for boys and girls.

(c) Rural health problems, play and playground activities with a touch of rural sociology.

GENERAL SUMMARY COLLEGE AND ACADEMIC DEPARTMENTS.

	Total	*College*	*Unclassified*	*High School*	*Extension*
First Summer Session.....1930	1,614	1,380	99	135	...
